§ 10.387-50 *Acceptance of conditional payments.* Conditional payments accepted by a Federal land bank shall be held for subsequent credit upon indebtedness to the bank in accordance with the provisions of section 13 Eighteenth of the Federal Farm Loan Act and the rules and regulations of the Farm Credit Administration. As used herein, the term "indebtedness" means indebtedness owing under purchase-money mortgages and real estate sales contracts as well as indebtedness incurred under the provisions of the Federal Farm Loan Act.*

§ 10.387-51 *Interest.* Interest shall be allowed on conditional payments in accordance with the following terms and conditions:

(a) The rate at which interest is allowed the borrower on a conditional payment shall be the effective interest rate applicable to the indebtedness in connection with which such conditional payment is held on the dates that interest on the conditional payment is credited. The rate of interest is subject to change to conform with these provisions. As used herein, "effective interest rate" means the rate actually charged the borrower on the unmatured portion of the indebtedness in connection with which a conditional payment is held for subsequent credit.

(b) Interest shall be allowed on conditional payments from the date of acceptance of such payments by the bank; provided that interest shall not be allowed upon any amount which has not been held for the credit of the borrower as an unapplied conditional payment for a period of at least one month.

(c) Interest allowed on a conditional payment shall be credited to the borrower and held by the bank in the same manner as conditional payments are credited and held by the bank. Under this provision interest will be compounded.

(d) Interest shall be credited (1) on regular installment dates of the indebtedness on account of which the conditional payment is accepted for subsequent credit; (2) on the date such indebtedness is paid in full; and (3) on the date the entire balance of unapplied conditional payments to the credit of the borrower is applied on the indebtedness.*

§ 10.387-52 *Application of conditional payments on indebtedness.* Conditional payments shall be applied on the borrower's indebtedness in connection with which they are held in accordance with the following terms and conditions:

(a) As the borrower may direct in writing, the bank shall pay out of conditional payments to the borrower's credit any portion of the indebtedness on regular installment dates.

(b) At its option the bank may pay out of conditional payments to the borrower's credit any portion of the indebtedness as and when the same becomes due and payable, if it is not otherwise paid by the borrower at or before maturity.

(c) If at any time the balance of unapplied conditional payments to a borrower's credit equals or exceeds the total amount of the indebtedness, the whole indebtedness shall become due and payable at once and shall be paid out of such balance.

(d) In the event of the borrower's death or bankruptcy, or in the event of transfer of the indebtedness by the bank or conveyance of title to the property securing the indebtedness by the borrower, the bank at its option may apply all or any portion of the conditional payments to the borrower's credit on the indebtedness.*

§ 10.387-53 *Disposition of unapplied conditional payments after payment of indebtedness in full.* Any balance of unapplied conditional payments held in connection with the borrower's indebtedness shall be refunded to the borrower by the bank when the indebtedness is paid in full.*

§ 10.387-54 *Evidence of acceptance of conditional payments.* Upon acceptance of a conditional payment, the bank shall furnish the borrower with a receipt, which shall identify the indebtedness in connection with which the conditional payment is accepted, and set forth generally the conditions under which such payments are held. The form of receipt used by a bank shall have the approval of the Farm Credit Administration.*

§ 10.387-55 *Accounting to registrar for conditional payments.* Conditional payments accepted and held in connection with loans pledged with the registrar, together with interest credits allowed thereon, must be accounted for to the registrar in the same manner as unapplied insurance proceeds.*

§ 10.387-56 *Conditional payments heretofore accepted by banks.* Nothing herein shall be understood to abrogate or otherwise affect agreements applicable to conditional payments, which prior to the effective date of these amendments to the regulations, were made by borrowers and accepted by the Federal land banks.*

Pursuant to the authority vested in the Secretary of Agriculture by Public Law 121, 77th Congress, approved June 21, 1941, the following regulations are hereby prescribed for the determination of fair prices which may be paid for such conservation materials and services as the Administrator of the Agricultural Adjustment Administration determines are to be furnished under purchase orders in any given area in connection with the agricultural conservation program:

§ 734.1 *Regulations governing the fixing of fair prices for conservation materials and services acquired under purchase orders.*

(a) A fair price shall be the lowest price at which, with free competition among the vendors in position to serve the farmers in the county, the county agricultural conservation committee is able to arrange for the material or service to be furnished under purchase orders for local delivery and which the committee determines, in accordance with such instructions as the Agricultural Adjustment Administration deems necessary for proper administration, is fair and reasonable both to the producers obtaining such material or service and to the vendors who are selling it. In determining what is fair and reasonable to the farmers there shall be taken into consideration (1) the relative prices of other goods and services normally purchased by them; (2) the prices at which the farmers can obtain the same materials or services through other channels; (3) the prices of other materials or services which could be effectively utilized by the farmers as substitutes; (4) in the case of materials, the prices obtained in the first instance by the original producers thereof; and (5) the value of the materials or services to the farmers in conserving and improving the fertility of their soil.

(b) In determining what is fair and reasonable to the vendors, there shall be taken into consideration (1) the cost, in a free competitive market without artificial scarcity, of the material or service to the vendors, including, in the case of materials, the cost of transportation by the most economical means from the point of production to the point of consumption, and (2) a reasonable margin to the vendors for their services in dispensing the material or service, which shall not be in excess of the margin customarily obtained by such vendors in the locality in connection with ordinary cash transactions involving similar materials or services. (§ 734.1 is issued under the authority contained in sections 7-17, inclusive, as amended, 49 Stat. 1148, 1915; 50 Stat. 329; 52 Stat. 31, 204, 205; 53 Stat. 550, 573; 54 Stat. 216, 727; Public No. 121 approved June 21, 1941; 16 U.S.C. 590g-590q.)

Done at Washington, D. C. this 29th day of August 1941. Witness my hand and the seal of The Department of Agriculture.

CHAPTER IX—SURPLUS MARKETING ADMINISTRATION

[Order No. 27, Amendment No. 3[1]]

PART 927—MILK IN NEW YORK METROPOLITAN MILK MARKETING AREA

Whereas, the Secretary of Agriculture of the United States of America, pursuant to the powers conferred upon the Secretary by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, issued, on March 30, 1940, and, on April 25, 1940, made effective, as of May 1, 1940, the order, as amended, regulating the handling of milk in the New York metropolitan milk marketing area; and

Whereas, the Secretary, having reason to believe that amendment of said order, as amended, would tend to effectuate the declared policy of the act, gave, on the 20th day of September 1940, notice of a hearing which was held on October 7 and 8 at New York City, on October 9 and 10 at Syracuse, New York, on October 11 at Albany, New York, and on

[1] Amendment to § 927.0, and § 927.4, issued under the authority contained in 46 Stat. 31 (1933); 7 U.S.C. § 601 et seq. (1934); 49 Stat. 750 (1935); 50 Stat. 246 (1937); 7 U.S.C. § 601 et seq. (Supp. IV 1939).

October 15 and 16 at New York City, at which all interested parties were afforded an opportunity to be heard on proposed amendments to said order, as amended, and thereafter issued Amendment No. 1; and

Whereas, the Secretary, having reason to believe that further amendment of said order, as amended, would tend to effectuate the declared policy of the act, gave, on the 6th day of May 1941, notice of a hearing which was held on May 14 and 15 at New York City, on May 16 and 17 at Albany, New York, and on May 19, 20, 21, 22, and 23 at New York City at which all interested parties were afforded an opportunity to be heard on proposed amendments to said order, as amended, and thereafter issued Amendment No. 2; and

Whereas, the Secretary, having reason to believe that further amendment of said order, as amended, would tend to effectuate the declared policy of the act, gave, on the 25th day of July 1941, notice of a hearing which was held at New York City on August 1 and 2, on August 5 and 6 at Watertown, New York, and on August 7 and 8 at Albany, New York, at which all interested parties were afforded an opportunity to be heard on proposed amendments to said order as amended; and

Whereas, the Secretary of Agriculture finds (§ 927.0), upon the evidence introduced at said latter hearing on proposed amendments, said findings being in addition to the findings made upon the evidence introduced at all prior hearings on said order and amendments thereto (which findings are hereby ratified and affirmed, save only as such findings are in conflict with findings hereinafter set forth):

1. That widespread drought and adjustments caused by the needs of the national defense have created an emergency among producers of milk for the New York metropolitan milk marketing area which makes necessary adjustment of the Class I and Class II–A prices at an earlier date than is possible to reach conclusions as to amendments of other portions of Order No. 27, as amended;

2. That prices calculated to give milk produced for sale in the marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to section 2 and section 8c of the act, are not reasonable in view of the available supplies of feeds, the price of feeds, and other economic conditions which affect the supply of and demand for such milk and that the minimum prices set forth in this amendment to said order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and that the fixing of such prices does not have for its purpose the maintenance of prices to producers above the levels which are declared in the act to be the policy of Congress to establish;

3. That the order, as amended, as herewith amended, regulates the handling of milk in the same manner as a marketing agreement upon which a hearing has been held; and

4. That the issuance of this amendment to the order, as amended, and all of the terms and conditions of the order, as amended, as herewith amended, will tend to effectuate the declared policy of the act.

Now, therefore, the Secretary of Agriculture, pursuant to the powers conferred upon him by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, hereby orders that the order, as amended, regulating the handling of milk in the New York metropolitan marketing area be and it is hereby amended as follows:

(a) Change the sentence in § 927.4 (a) (3) to read as follows:

(3) For Class I milk the price per hundredweight during each month shall be, except as specified in subparagraphs (4), (5) and (6) of this paragraph, as set forth in the table in this subparagraph plus, during each month prior to April 1, 1942, 46 cents.

(b) In § 927.4 (a) (7) strike the words "as follows:" and inset in lieu thereof the words "as set forth in the following table, plus, during each month prior to April 1, 1942, 15 cents.

(c) Change § 927.4 (a) (8) to read as follows:

(8) For Class II–B milk the price during each month prior to April 1, 1942, shall be 27 cents less than the Class II–A price and, during each month thereafter, 12 cents less than the Class II–A price.

This amendment No. 3 to the order, as amended, regulating the handling of milk in the New York metropolitan marketing area, is hereby issued, to become effective at such time as may subsequently be declared, and the official seal of the Department of Agriculture is affixed hereto in the city of Washington, District of Columbia, this 29th day of August 1941.

Secretary of Agriculture.

It is provided in Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act") that the Secretary of Agriculture of the United States (hereinafter referred to as the "Secretary") shall, subject to the provisions of the act, issue orders regulating such handling of agricultural commodities, including Irish potatoes, as in the current of interstate or foreign commerce, or which directly burdens, obstructs, or affects interstate or foreign commerce in such commodities.

The Acting Secretary, having reason to believe that the execution of a marketing agreement and the issuance of an order would tend to effectuate the declared policy of the act with respect to the establishment and maintenance of such orderly marketing conditions for Irish potatoes grown in Malheur County, Oregon, and the counties of Adams, Valley, Lemhi, Clark, and Fremont in the State of Idaho, and all of the counties in Idaho lying south of the aforesaid counties in Idaho, as would establish prices to the producers of such Irish potatoes at a level that would give such Irish potatoes a purchasing power with respect to articles that the producers thereof buy equivalent to the purchasing power of such Irish potatoes during the base period, August 1919–July 1929, conducted a public hearing in Idaho Falls, Idaho, on December 19 and 20, 1940 and in Twin Falls, Idaho, on December 21, 1940, pursuant to notice duly given to all interested parties, on a proposed marketing agreement and a proposed order regulating such handling of such Irish potatoes as in the current of interstate and foreign commerce, or which directly burdens, obstructs, or affects such commerce in such Irish potatoes; and at the aforesaid hearing all interested persons in attendance were afforded due opportunity to be heard concerning the proposed marketing agreement and proposed order.

Upon the basis of the evidence introduced at the aforesaid hearing and the record thereof, it is hereby found that:

(1) The terms and provisions of this order prescribe, so far as practicable, such different terms, applicable to different production areas, as are necessary in order to give due recognition to the difference in production and marketing of such Irish potatoes;

(2) This order is limited in its application to the smaller regional production area that is practicable, consistently with carrying out the declared policy of the act, and that the issuance

of several orders applicable to any subdivision of said production area specified herein would not effectively carry out the declared policy of the act;

(3) This order and all of the terms and conditions of this order will tend to effectuate the declared policy of the act with respect to Irish potatoes produced in said area specified in this order, by establishing and maintaining such orderly marketing conditions therefor as will tend to establish prices to the producers thereof at a level that will give such Irish potatoes a purchasing power with respect to the articles that the producers thereof buy equivalent to the purchasing power of such Irish potatoes in the base period, August 1919–July 1929, and by protecting the interest of the consumer by (a) approaching the level of prices which it is declared in the act to be the policy of Congress to establish by a gradual correction of the current level of prices at as rapid a rate as the Secretary deems to be in the public interest and feasible in view of the current consumptive demand in domestic and foreign markets, and by (b) authorizing no action which has for its purpose the maintenance of prices to producers of such Irish potatoes above the level which it is declared in the act to be the policy of Congress to establish.

The marketing agreement was tentatively approved by the Acting Secretary on May 24, 1941. Subsequent to the tentative approval of the marketing agreement on May 24, 1941, handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping Irish potatoes grown in the aforesaid area), of more than fifty (50) percentum of the volume of such Irish potatoes, produced in said area, refused or failed to sign such tentatively approved marketing agreement. It was determined on the 26th day of August 1941, in accordance with the provisions of the act, and such determination[1] was approved by the President of the United States on the 28th day of August 1941, that:

(1) The aforesaid refusal or failure of said handlers to sign said tentatively approved marketing agreement tends to prevent the effectuation of the declared policy of the act with respect to such Irish potatoes;

(2) The issuance of this order is the only practical means, pursuant to such act, of advancing the interest of the producers of such Irish potatoes;

(3) The issuance of this order is approved or favored by at least two-thirds of the producers who participated in a referendum conducted by the Acting Secretary and who, during the representative period determined by the Acting Secretary, were engaged, within the production area specified herein, in the production for market of the commodity specified herein; and

(4) The issuance of this order is approved or favored by producers who participated in the aforesaid referendum conducted by the Acting Secretary and who, during such representative period determined by the Acting Secretary, produced for market, within the production area specified in this order, at least two-thirds of the volume of such commodity produced by all producers who participated in the said referendum.

It is, therefore, ordered, That such handling of Irish potatoes produced in Malheur County, Oregon, and in the counties of Adams, Valley, Lemhi, Clark, and Fremont in the State of Idaho, and all the counties in Idaho lying south of the aforesaid counties in Idaho, as is in the current of interstate or foreign commerce between the aforesaid area and any point outside thereof, or so as directly to burden, obstruct or affect such commerce, shall, from and after the date hereinafter specified, be in conformity to and in compliance with the terms and conditions of this order.

§ 957.2 *General cull regulation*—(a) *Limitation of shipments.* The Secretary shall issue an order, whenever he determines that the initial committee herein provided for is prepared to exercise its powers and perform its duties herein assigned, which will provide for the regulation pursuant to this section being and becoming effective at the time specified in said order. After the effective time specified in said order issued pursuant to the provisions of this paragraph, no handler shall, except as provided herein, ship potatoes which do not meet the requirements of the U. S. No. 2 or better grade, as such grades are defined in said U. S. Standards for Potatoes, except that a mixture of varieties may be shipped: *Provided,* That no potatoes of the U. S. No. 2 grade or better grades, as defined in said U. S. Standards for Potatoes, which are less than 1½ inches in diameter, may be shipped in addition to the tolerance by weight for undersize as specified for the respective grade in said U. S. Standards for Potatoes.

(b) *Suspension or modification.* The Administrative Committee may recommend to the Secretary the suspension or modification of § 957.2 (a) hereof, and each such recommendation should be accompanied by supporting information. If the Secretary finds, upon the basis of such recommendation and information submitted by said committee, or upon the basis of other available information, that to do so will tend to effectuate the declared policy of the act, he shall suspend the operation of § 957.2 (a) hereof, or modify the regulation thereof, so as to permit the shipment of potatoes, the shipment of which otherwise would be prohibited pursuant to § 957.2 (a). Such suspension or modification may be made applicable, during a specified period, to any or all varieties of potatoes. In like manner and upon the same basis, the Secretary may terminate any such suspension or modification.

(c) *Notice.* No regulation issued by the Secretary, pursuant to the provisions of this section, shall become effective within less than two days subsequent to the day of issuance thereof. A copy of each regulation, issued by the Secretary pursuant to the provisions of this section, shall be forwarded promptly to the Administrative Committee; said Administrative Committee shall give such notice thereof as may be reasonably calculated

[1] See Department of Agriculture, Surplus Marketing Administration, *infra.*

to bring each such regulation to the attention of all interested parties.*

§ 957.3 *Grade, size, and quality regulations*—(a) *Marketing policy.* The Administrative Committee shall, prior to making any recommendation pursuant to this section or § 957.2 hereof, submit to the Secretary a detailed report setting forth the marketing policy with respect to the shipment of potatoes which the committee deems advisable for the ensuing shipping season. Additional reports shall be submitted, from time to time, in the event that it is deemed advisable by the committee to adopt a new marketing policy in view of changed demand and supply conditions with respect to potatoes. The committee shall publicly announce the submission of each such marketing policy report, and copies thereof shall be made available at the office of the committee for inspection by any producer or handler. In determining each such marketing policy the committee shall give due consideration to the following factors relating to potatoes produced in the area and in other States: (1) the available crop of potatoes, including the grades and sizes thereof, in the area and in other States; (2) probable shipments of potatoes from other States which compete with potato shipments from the area; (3) the level and trend in consumer income; and (4) other pertinent factors bearing on the marketing of potatoes.

(b) *Committee recommendations.* (1) Whenever the Administrative Committee deems it advisable, in order to effectuate the declared policy of the act, to regulate the shipment of potatoes, grown in the area, by grades, sizes, or qualities, or combinations thereof, during any specified period, it shall so recommend to the Secretary. In making such recommendations such committee shall give due consideration to the following factors: (i) market prices, including prices by grades and sizes of potatoes for which regulation is recommended; (ii) potatoes on hand in the market areas as manifested by supplies en route and on track at the principal markets; (iii) available supply, maturity, and conditions of potatoes in the area, including the grades and sizes of potatoes remaining in the area; (iv) supplies from competitive regions producing potatoes; and (v) the trend in consumer income.

(2) At the time of submitting such recommendation, the Administrative Committee shall furnish to the Secretary the pertinent data and information upon which it acted in making such recommendation; and, also, the committee shall submit such other data and information as the Secretary may request.

(c) *Establishment of regulations.* Whenever the Secretary shall find, from the recommendation and information submitted by the Administrative Committee, or from other available information, that to limit the shipment of potatoes would tend to effectuate the declared policy of the act, he shall, during the period specified in the regulation thus issued by the Secretary, limit the shipments of potatoes grown in such area to potatoes of specified grades, sizes, or qualities, or combinations thereof, and any such limitation may apply to any or all varieties and may specify tolerances for particular defects in quality.

(d) *Exemption certificates.* (1) Before the institution of any limitation of shipments pursuant to this section, the Administrative Committee shall adopt procedural rules pursuant to which exemption certificates will be issued to producers; and such procedural rules shall become effective upon approval by the Secretary. The Administrative Committee shall, after the procedural rules have been approved by the Secretary, give such notice thereof as may be reasonably calculated to bring such rules to the attention of all interested persons. In the event the Secretary issues a regulation pursuant to this section, the committee shall determine the percentage which the quantity of grades, sizes, and qualities of potatoes permitted to be shipped under such regulation is of the total quantity of such potatoes, except culls, which would be available for shipment in the area in the absence of such regulation; and the committee shall forthwith announce such percentage. An exemption certificate shall thereafter be issued to any producer in the area who furnishes proof satisfactory to the Administrative Committee, that he will be prevented, because of the regulation established, from shipping as large a percentage of any specified variety or varieties, except culls, as the percentage for all producers of the variety or varieties in the area. Such exemption certificate shall permit the respective producer to whom the certificate is issued to ship or have shipped a quantity of the restricted or prohibited grades, sizes, and qualities sufficient to permit the respective producer to ship or have shipped as a large proportion of his crop of each such variety of potatoes, grown in such area, as the average for all producers of the particular variety in the area. The Administrative Committee shall maintain a record of all applications submitted for exemption certificates, pursuant to the provisions of this section; and the committee shall maintain a record of all certificates issued, including the information used in determining in each instance the quantity of potatoes thus to be exempted, together with a record of all shipments of exempted potatoes; and such additional information shall be recorded in the records of the committee as the Secretary may specify. The committee shall, from time to time, submit to the Secretary reports stating in detail the number of exemption certificates issued, the quantity of potatoes thus exempted, and such additional information as may be requested by the Secretary.

(2) The Administrative Committe may authorize an employee to receive applications for exemption certificates, make the necessary investigation with regard to whether an exemption certificate should be issued and, if so, the quantity of potatoes which should be thus exempted, and issue for and on behalf of the committee an exemption certificate: *Provided,* That the committee shall not authorize an employee or employees (i) to determine the grades, sizes and qualities, or combinations thereof, of potatoes grown in such area which would be available for shipment in the absence of any regulation or (ii) to determine the percentage that the quantity of a particular variety or varieties of potatoes, grown in such area, permitted to be shipped pursuant to regulation, is of the quantity which would have been shipped in the absence of regulation.

(3) If any producer is dissatisfied with the determination of an employee or employees who have exercised jurisdiction with regard to the application submitted by the respective producer, such producer may appeal to the committee: *Provided,* That such appeal must be taken promptly after the decision by the respective employee or employees. If any producer is dissatisfied with the determination by the committee with respect to the producer's application for an exemption certificate or with regard to an appeal, as aforesaid, by said producer from the determination of an employee or employees, such producer may appeal to the Secretary: *Provided,* That such appeal shall be taken promptly after the determination by the committee. The Secretary may, upon an appeal as aforesaid, modify or reverse the action of the committee from which such appeal was taken. The authority of the Secretary to supervise and control the issuance of exemption certificates is unlimited and plenary; and any determination by the Secretary with respect to an exemption certificate, the application for an exemption certificate, or an appeal from the action of the committee with respect to an application for an exemption certificate shall be final and conclusive.

(e) *Notice.* No regulations issued by the Secretary pursuant to the provisions of this section shall become effective within less than two days subsequent to the day of issuance thereof. A copy of each regulation, issued by the Secretary pursuant to this section, shall be forwarded promptly to the Administrative Committee and thereupon the committee shall give such notice thereof as may be reasonably calculated to bring such regulation to the attention of all interested parties.*

§ 957.4. *Inspection and certification.* During any period in which the shipment of potatoes is regulated pursuant to the provisions of § 957.2 or § 957.3 hereof, each handler shall, prior to making each shipment of potatoes, cause each such shipment to be inspected by a Federal or Federal-State Inspector: *Provided,* That this requirement shall not be applicable (a) to any shipment of potatoes which has been so inspected, (b) to any shipment of potatoes for seed purposes in containers bearing the official seed certification tag of the State from which the respective shipment is made, or (c) to any shipment of potatoes for consumption by a charitable institution or institutions or for distribution for relief purposes or for distribution by a relief agency or agencies. Each handler shall, promptly after making each shipment of potatoes, submit to the Administrative Committee a copy of the certificate or memorandum issued by the Federal-State Inspection Service with regard to the respective shipment of potatoes, and such certificate or memorandum shall state the grade, size, and quality of the potatoes in such shipment.*

§ 957.5 *Compliance.* Except as provided herein, no handler shall ship potatoes, the shipment of which has been prohibited in accordance herewith; and no handler shall ship potatoes except in conformity to the provisions hereof, and the provisions of the regulations, if any, issued by the Secretary pursuant to the provisions hereof.*

§ 957.6 *Shipments which are exempt.* (a) Potatoes officially certified as seed potatoes by the official seed potato certification agency of the State from which the respective shipment is made shall be exempt, when shipped for seed purposes in containers bearing the official State seed certification tag of the respective State, from regulation under the provisions of § 957.2 (a) hereof or § 957.3 (c) hereof. The Secretary may prescribe, on the basis of the recommendation and information submitted by the Administrative Committee, or on the basis of other available information, adequate safeguards to prevent such seed potatoes, shipped as aforesaid, from entering the commercial channels of trade other than as seed potatoes for use as seed.

(b) Potatoes shipped for consumption by a charitable institution or institutions or for distribution for relief purposes or for distribution by a relief agency or agencies or potatoes shipped for manufacturing purposes for conversion into by-products shall be exempt from the provisions of § 957.2 (a) hereof and exempt from the provisions of any regulation issued pursuant to § 957.3 (c) hereof. The Secretary may prescribe, on the basis of the recommendation and the information submitted by the Administrative Committee, or on the basis of other available information, adequate safeguards to prevent potatoes shipped to charitable institutions or for distribution by relief agencies or for manufacturing purposes for conversion into by-products from entering the commercial channels of trade for any other purpose.

(c) The Secretary may prescribe, on the basis of the recommendation and information submitted by the Administrative Committee, or on the basis of other available information that potatoes shipped for feed for livestock shall be exempt from the provisions of any regulation issued pursuant to § 957.3 (c) hereof. The Secretary may prescribe, on the basis of the recommendation and information submitted by the committee, or on the basis of other available information, adequate safeguards to prevent potatoes thus shipped for feed for livestock from entering commercial channels of trade for any other purpose.*

§ 957.7 *Administrative Committee*—(a) *Membership and organization.* (1) The Administrative Committee, consisting of eight members, is hereby established to administer the terms and provisions hereof. The initial members and their respective alternates shall be as follows:

(2) The Administrative Committee shall, subsequent to the year 1941, have the following number of members who shall be selected from the indicated districts of the area:

(i) District 1: Two producers and one handler from the counties of Oneida, Power, Bingham, Jefferson, Clark, and all counties lying east thereof in Idaho;

(3) There shall be an alternate member for each member of the Administrative Committee; and each such alternate member shall have the same qualifications and shall be selected in the same manner as the respective member for whom such individual serves as an alternate. The alternate for a member of the committee shall, in the event of the respective member's absence, act in the place of said member; and in the event of such member's removal, resignation, disqualification, or death, the alternate for said member shall, until a successor for the unexpired term of said member has been selected, act in the place of said member.

(4) The producers who may be selected as members of the Administrative Committee, subsequent to the year 1941, shall be individuals who are producers of potatoes in the respective district for which selected or officers or employees of a corporate producer or corporate producers in such district: *Provided,* That no producer shall be eligible for selection on said committee if such producer has been, during the then current fiscal period, engaged in handling potatoes other than potatoes of his own production, except as an officer or employee of a producers' cooperative marketing association. The handlers who may be selected as members of the Administrative Committee, subsequent to the year 1941, shall be individuals who are handlers of potatoes in the respective district for which selected or officers or employees of a handler or handlers in such district.

(b) *Nomination and selection of succeeding members of Administrative Committee.* (1) The Administrative Committee shall, after the year 1941, hold or cause to be held prior to June 15 of each year a meeting of producers and a meeting of handlers, in each of the districts designated in § 957.7 (a) hereof, for the purpose of designating nominees from among whom the Secretary shall select members and alternates of the committee; and at each such meeting at least two nominees shall be designated for each position as member and at least two nominees shall be designated for each position as alternate member on the committee as representative or representatives of the respective district. In arranging for such meetings, the Administrative Committee may, if it deems such to be desirable, utilize the services and facilities of the Idaho State Potato Growers' Association, if such Association will so permit, or the Growers and Shippers Association of Idaho Falls, Inc., if such Association will so permit, or other organization or agency. Each producer is entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives, in designating nominees for membership on the committee for the respective dis-

Each producer shall be entitled to cast only one vote regardless of the number of districts in which he produces potatoes. Only producers may participate in designating producer nominees. Only handlers shall participate in designating nominees for handler members and alternates. Each handler is entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives, in designating nominees for membership on the committee for the respective district in which such handler is engaged in handling potatoes: *Provided*, That in the event a handler is engaged as a handler in more than one district, such handler shall elect the district within which he may participate in designating nominees. Each handler shall be entitled to cast only one vote regardless of the number of districts in which he may be engaged as a handler. The Secretary shall select the producer members of the Administrative Committee and their respective alternates, subsequent to the initial members and alternates, from nominations made by producers as provided in this section. The Secretary shall select the handler members of the Administrative Committee and their respective alternates, subsequent to the initial members and alternates, from nominations made by handlers as provided in this section.

(2) In the event nominations are not made for membership on a committee, pursuant to the provisions of § 957.7 (b) (1), by June 15 of the respective year, the Secretary may select such members and their respective alternates without waiting for nominees to be designated. To fill any vacancy occasioned by the failure of any person, selected as a member of the Administrative Committee or as an alternate member thereof, to qualify, or in the event of the death, removal, resignation, or disqualification of any qualified member or alternate, a successor for his unexpired term shall be selected by the Secretary.

(3) Each person selected as a member of the Administrative Committee or an alternate member thereof, shall promptly qualify by filing with the Secretary a written acceptance of the appointment.

(4) The members of the Administrative Committee and their respective alternates shall be selected to serve for a fiscal period and, if their successors have not been selected and qualified prior to the end of the respective fiscal period, each such member or alternate shall continue to serve until his respective successor shall have been selected and qualified; and the initial members of the committee and their respective alternates shall serve until June 30, 1942, and if their respective successors have not been selected and qualified prior to the end of the respective fiscal period, each such member or alternate shall continue to serve until his respective successor shall have been selected and qualified.

(c) *Compensation.* Each member and each alternate serving in place of a member of the Administrative Committee may receive compensation in an amount not in excess of five ($5.00) dollars per day for attendance at each meeting of the committee; and, in addition to said per diem, the aforesaid member and alternate may be reimbursed for necessary expenses actually incurred in attending each such meeting.

(d) *Procedure.* (1) The Administrative Committee may, upon the selection and qualification of a majority of its members, organize and commence to function. A majority of all members shall be necessary to constitute a quorum of the committee.

(2) For any decision of the Administrative Committee to be valid, a majority of the votes of all members shall be necessary. Except as provided herein, each member, or alternate member when acting as a member, shall vote in person.

(3) The Administrative Committee may provide for the members thereof, including the alternate members when acting as members, to vote by mail, telegraph, or radiograph; and any such vote which is not cast in person at a meeting shall be confirmed promptly in writing.

(4) The Administrative Committee shall select a chairman, a secretary, and such other officers as it may deem advisable; and the committee shall adopt such rules, not inconsistent with the provisions hereof, relative to the method of conducting its business, as it may deem advisable. The Administrative Committee shall give to the Secretary the same notice of its meetings as is given to the members thereof.

(e) *Powers.* The Administrative Committee shall have the following powers:

(1) To administer, as herein specifically provided, the terms and provisions hereof;

(2) To make, in accordance with the provisions herein contained, administrative rules and regulations;

(3) To receive, investigate, and report to the Secretary complaints of violation hereof; and

(4) To recommend to the Secretary amendments hereto.

(f) *Duties.* The Administrative Committee shall have the following duties:

(1) to act as intermediary between the Secretary and any producer or handler;

(2) to keep minutes, books, and records which will clearly reflect all of its acts and transactions, and such minutes, books, and records shall at all times be subject to examination by the Secretary or his authorized agent or representative;

(3) to furnish the Secretary such available information as may be requested by the Secretary;

(4) to select such employees as it may deem necessary, and to determine the salaries and define the duties of such employees;

(5) to cause its books to be audited by one or more competent accountants at least once each fiscal period, and at such other times as it deems necessary or as the Secretary may request, and to file with the Secretary a copy of each such audit report;

(6) to prepare from time to time statements of the financial operations of the committee and to make such statements, together with the minutes of the meetings of said committee, available for inspection by any producer or handler at the office of the committee;

(7) to perform such duties in connection with the administration of Section 32 of the Act to Amend the Agricultural Adjustment Act, and for other purposes, Public Act No. 320, 74th Congress (August 24, 1935), as amended, as may from time to time be assigned to the respective committee by the Secretary;

(8) to submit to the Secretary such available information as may be requested by the Secretary;

(9) to consult with any other committee established under any marketing agreement and order program, pursuant to the aforesaid act, with respect to the handling of potatoes grown in any region outside of the area.

(g) *Funds.* All funds received by the Administrative Committee pursuant to any provision hereof shall be used solely for the purposes herein specified and shall be accounted for in the following manner: (1) the Secretary may, at any time, require the committee and its members to account for all receipts and disbursements; and (2) whenever any person ceases to be a member of the committee, he shall account for all receipts and disbursements and deliver all property and funds in his hands, together with all books and records in his possession, to his successor in office or to such person as the Secretary may designate, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor or in such designated person the right to all the property, funds, or claims vested in such member.*

§ 957.8 *Right of the Secretary.* The members of the Administrative Committee provided for herein, including successors and alternates thereof, and any agent or employee appointed or employed by the committee shall be subject to removal or suspension at any time by the Secretary. Each and every order, regulation, determination, decision, or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of such order, regulation, decision, determination, or other act; and, upon such disapproval at any time, such action by a committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.*

§ 957.9 *Expenses and assessments*—(a) *Expenses.* The Administrative Committee is authorized to incur such expenses as the Secretary finds may be necessary to enable the committee to perform its functions, in accordance with the provisions hereof, during each fiscal period. The funds to cover such expenses shall be acquired by the levying of assessments, as herein provided, upon handlers.

(b) *Assessments.* (1) Each handler who ships potatoes shall pay, upon demand, to the Administrative Committee such handler's pro rata share of the expenses which the Secretary finds will be necessarily incurred by the committee for its maintenance and functioning during each fiscal period: *Provided*, That no assessment shall be paid for a shipment or shipments of potatoes for consumption by a charitable institution or institutions or for distribution for relief purposes or for distribution by a relief agency or agencies. Such handler's pro rata share of such expenses shall be equal to the ratio between the total quantity of potatoes shipped by such handler, during the applicable fiscal period, and the total quantity of potatoes shipped by all handlers during the same fiscal period. The Secretary shall specify the rate of assessment to be paid by such handlers: *Provided*, That the assessment rate shall not be in excess of fifty cents per carload or truck load.

(2) The Secretary may, at any time during or after a fiscal period, increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses of the respective committee. Any such increase in the rate of assessment shall be applicable to all potatoes shipped during the specified fiscal period. In order to provide funds to enable the Administrative Committee to perform its functions hereunder, handlers may make advance payment of assessments.

(c) *Accounting.* (1) If, at the end of any fiscal period, the assessments collected are in excess of expenses incurred, each handler entitled to a proportionate refund shall be credited with such refund, unless such handler demands payment thereof, in which case such sum shall be paid to the respective handler.

(2) The Administrative Committee may, with the approval of the Secretary, maintain in its own name or in the name of its members a suit against any handler for the collection of such handler's pro rata share of expenses.

(d) *Funds.* All money collected by the Administrative Committee pursuant to the provisions hereof shall be used solely for the purposes herein specified and shall be accounted for in the manner herein provided. The Secretary may, at any time, require the Administrative Committee and the members thereof, including alternate members when serving as members, to account for all receipts and disbursements.*

§ 957.10 *Reports.* For the purpose of enabling the Administrative Committee to perform its functions pursuant to the provisions hereof, each handler shall furnish to the committee, in such form and at such times and substantiated in such manner as shall be prescribed by the committee and approved by the Secretary, such information as may thus be requested by the committee, subject to approval by the Secretary, with regard to each shipment of potatoes.*

§ 957.11 *Effective time and termination*—(a) *Effective time.* The provisions hereof shall become effective at such time as the Secretary may declare above his signature attached hereto, and shall continue in force until terminated in one of the ways hereinafter specified.

(b) *Termination.* (1) The Secretary may, at any time, terminate the provisions hereof by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(2) The Secretary may terminate or suspend the operation of any or all of the provisions hereof whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(3) The Secretary shall terminate the provisions hereof at the end of any fiscal period whenever he finds that such termination is favored by a majority of producers who, during the then preceding fiscal period, have been engaged in the production of potatoes for market: *Provided*, That such majority has, during such period, produced for market more than fifty percent of the volume of such potatoes produced for market; but such termination shall be effective only if announced on or before June 30 of the then current fiscal period.

(4) The provisions hereof shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

(c) *Proceedings after termination.* (1) Upon the termination of the provisions hereof, the then functioning members of the Administrative Committee shall continue as trustees, for the purpose of liquidating the affairs of the said committee, of all the funds and property then in the possession of or under control of such committee, including claims for any funds unpaid or property not delivered at the time of such termination. The procedural rules governing the activities of said trustee, including but not being limited to the determination as to whether action shall be taken by a majority vote of the trustees, shall be prescribed by the Secretary.

(2) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the Administrative Committee and of the trustees, to such person as the Secretary may direct; and shall, upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person the right to all of the funds, property, and claims vested in the committee or the trustees pursuant hereto.

(3) Any person to whom funds, property, or claims have been transferred or delivered by the Administrative Committee or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of said committee and upon the said trustees.*

§ 957.12 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue hereof shall cease upon the termination hereof, except with respect to acts done under and during the existence hereof.*

§ 957.13 *Agents.* The Secretary may, by designation in writing, name any person, including any officer or employee of the Government, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions hereof.*

§ 957.14 *Derogation.* Nothing contained herein is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.*

§ 957.15 *Personal liability.* No member or alternate of said committee, nor any employee thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, or employee, except for acts of dishonesty.*

§ 957.16 *Separability.* If any provision hereof is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder hereof, or the applicability thereof to any other person, circumstance, or thing, shall not be affected thereby.*

§ 957.17 *Amendments.* Amendments hereto may be proposed, from time to time, by the Administrative Committee or by the Secretary.*

§ 957.18 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination hereof or of any regulation issued pursuant hereto, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen prior thereto, or (b) release or extinguish any violation hereof or of any regulation issued hereunder, or (c) affect or impair any right or remedy of the United States, or the Secretary, or of any

other person with respect to any such violation.*

Issued at Washington, D. C., this 2d day of September 1941, to be effective on and after 12:01 a. m., P. s. t., September 5, 1941. Witness my hand and the seal of the Department of Agriculture.

§ 116.51 *Inclusion of other regulations.* The following sections of this Part include as a part thereof the definitions in the preceding sections of this Part and any amendments which may be made thereto.*

*§§ 116.51 to 116.62, inclusive, issued under the authority contained in section 1 Reorganization Plan No. V, R. S. 161, section 23, 39 Stat. 892, section 24, 43 Stat. 166, and sections 7(d) and 11(b) and (c), 44 Stat. 572, 574, and 575; 48 Stat. 1116, 52 Stat. 1029, 5 F.R. 2132, 2223; 5 U.S.C. 22, 8 U.S.C. 102, 222, and 49 U.S.C. 177(d), 181(b) and (c). Statutes interpreted or applied and statutes giving special authority are listed in parentheses at the end of specific sections.

§ 116.52 *Aircraft; how considered.* Aircraft arriving from Canada or Mexico and landing at a land border port of entry and aircraft departing from such port of entry for Canada or for Mexico shall for the puposes of the immigration laws and regulations, except as otherwise provided in this Part, be regarded the same as other common carriers arriving at or departing from land border ports of entry. All other aircraft operating in foreign commerce or between areas of the United States shall for the purposes of the immigration laws and regulations be subject to the same requirements and liabilities as are vessels (operating on water) except as otherwise provided in this Part or by statute specifically relating to aircraft.*

CROSS REFERENCE: For alien passengers on airships, see 22 CFR 63.3.

§ 116.53 *Airmen; how considered.* Any alien employed in any capacity on board an aircraft arriving in the United States from any place outside thereof shall be considered as a seaman, and the provisions of the immigration laws and regulations applicable to vessels and alien seamen shall apply, except as otherwise provided in this Part, to such aircraft and alien airmen. In any case in which a seaman would be ordered detained on board, the airman may be released in such appropriate custody as in the opinion of the immigration officer in charge will insure the airman's prompt departure from the United States.*

CROSS REFERENCE: For members of the crew of airships, see 22 CFR 63.2 For alien seamen, see 8 CFR, Part 120.

§ 116.54 *Inspection of aliens arriving by aircraft.* Any alien arriving by aircraft in any area from any foreign place or any take-off outside the United States or from any other area except the Mainland shall not be considered as having legally entered the United States unless and until he has been inspected and lawfully admitted.*

§ 116.55 *Deportation of aliens arriving by aircraft who are excluded.* Any alien excluded from admission to the United States shall be returned to the country or area of the United States (except the Mainland) whence he came, at the expense of the owner, agent, lessee, or operator of the aircraft by which the alien came; and when detention is found necessary, the alien shall be detained at the expense of such owner, agent, lessee, or operator.*

§ 116.56 *Crew lists.* The provisions of section 36 of the Immigration Act of 1917 (39 Stat. 896, 8 U.S.C. 171) shall be complied with as required by §§ 116.8, 116.9 or 116.10 as to aliens employed on board any aircraft arriving in the United States from any place outside thereof and as to such aliens not on board at the time the aircraft departs from any such place and as to aliens leaving the United States as employees on an aircraft who were not such when it last arrived. Any failure to comply with any provision of this section shall constitute a violation of section 36, above, for each alien concerning whom there is such failure. Immigration lists containing the name of any employee shall be filed for permanent record.*

§ 116.57 *Manifests of passengers.* The provisions of sections 12, 13, and 14 of the Immigration Act of 1917 (39 Stat. 882–884, 8 U.S.C. 148, 149, 150) shall be complied with as required by §§ 116.8 and 116.9 as to passengers arriving or departing on aircraft. Passengers carried between the Virgin Islands of the United States and Puerto Rico shall be listed only on the same declaration of aircraft commander as required for listing merchandise so carried. In every case the lists must be accompanied by information sheets as required by §§ 116.8 and 116.9. Any failure to comply with the foregoing provisions of this section shall constitute a violation of section 14, above, for each person concerning whom there is such failure. Immigration lists containing the name of any passenger and the information sheets shall be filed for permanent record.*

§ 116.58 *Preexamination in Canada of aircraft passengers.* The endorsement on forms issued by officers of the Immigration and Naturalization Service to persons preexamined in Canada who travel to the United States by aircraft shall be as prescribed in §§ 114.1–114.4 of this Title, and the period of validity of said forms shall be as prescribed therein. Upon surrendering such properly endorsed forms at the airport of entry for aliens, the rightful holders will be admitted, provided their status has undergone no change between the time of issuance of the forms and the arrival of the holders at the airport of entry. The airport of entry at which persons preexamined in Canada actually enter the United States shall be the "record" port of entry for all purposes. Aliens excluded from admission to the United States upon preexamination in Canada shall be accounted for as heretofore by the office at which exclusion occurs.*

§ 116.59 *Chinese arriving by aircraft.* Nothing in this Part shall be construed as amending the laws and regulations relating to the admission and exclusion of Chinese and requiring that all such persons shall apply for admission to the United States at seaports and land-border ports of entry for Chinese designated in §§ 205.1, 205.2, or 205.3 of this title.

§ 116.60 *Penalties.* (a) Any person who violates any provision of this Part which relates to immigration shall be subject to the civil penalty of $500 authorized by section 11 (b), Air Commerce Act of 1926, as amended (49 U.S.C. 181 (b)), except that where such offense in connection with an aircraft would be a violation of the immigration laws and general regulations if the aircraft were a vessel (operating on water), the penalty shall be the same as would apply in the case of a vessel.

(b) In the collection of the penalties the procedure prescribed in the general immigration regulations for the imposition and collection of fines (involving vessels) or for prosecutions under section 10 of the Immigration Act of 1917, as amended (39 Stat. 881, 43 Stat. 167; 8 U.S.C. 146), as the case may be, will initially be followed.

(c) Remission or mitigation of a penalty will be considered only in case of application therefor. If the deposit of the amount of the proposed penalty is not made with the collector of customs or acceptable bond is not furnished providing for the payment of such penalty, or so much thereof as may not be remitted or mitigated by the Attorney General, clearance of the aircraft shall be withheld by the collector of customs, and in case the violation is by the owner or person in command of the aircraft the penalty shall be a lien against the aircraft, which shall be seized by an immigration officer or inspector designated by the Attorney General and placed in the custody of the customs officer in charge at the airport of landing if seizure was made thereat. Similar action will be taken if seizure is made at any place other than an airport of landing. If the owner or owners of the airport and the seized aircraft are identical, the aircraft should, if practicable, be removed to another available hangar or other suitable place for storage. Seizure will not be made of any such aircraft apparently damaged beyond the recovery of the amount of the statutory penalty. Immediately after the authorized seizure, or prior thereto if circumstances permit, a full report in the case shall be submitted by the immigration officer in charge to the United States Attorney for the district in which the seizure was made, for the possible further action prescribed by the statute. The report shall note the cost incurred in seizing and guarding the aircraft, and an estimate of the further cost likely to be incurred.*

§ 116.61 *Designation of airports of entry for aliens.* Application for designation of an airport as a port of entry for aliens shall be made to the Attorney General and shall state whether the airport has been approved by the Secretary of Commerce as a properly equipped airport and has been designated by the Secretary of the Treasury as a port of entry for civil aircraft. An airport will not be designated by the Attorney General as an airport of entry for aliens without such prior approval and designation, and unless it appears to the satisfaction of the Attorney General that conditions render such designation necessary or advisable, and unless adequate facilities have been or will be provided thereat, without cost to the Federal Government, for the proper inspection and disposition of aliens, including office space and temporary detention quarters found necessary.*

CROSS REFERENCE: For list of airports of entry for aliens, see 8 CFR 110.3.

§ 116.62 *Withdrawal of designation of airport of entry for aliens.* The designation of an airport of entry as an airport of entry for aliens may be withdrawn whenever, in the judgment of the Attorney General, there appears just cause for such action.*

Special Assistant to the Attorney General in Charge Immigration and Naturalization Service.

(c) The Secretary of Commerce is authorized by regulation to provide for the application to civil aircraft of the laws and regulations relating to the entry and clearance of vessels to such extent and upon such conditions as he deems necessary.

(d) The Secretary of Labor is authorized to (1) designate any of the ports of entry for civil aircraft as ports of entry for aliens arriving by aircraft, (2) detail to such ports of entry such officers and employees of the immigration service as he may deem necessary, and to confer or impose upon any employee of the United States stationed at such port of entry (with the consent of the head of the Government department or other independent establishment under whose jurisdiction the officer or employee is serving) any of the powers, privileges, or duties conferred or imposed upon officers or employees of the immigration service, and (3) by regulation to provide for the application to civil air navigation of the laws and regulations relating to the administration of the immigration laws to such extent and upon such conditions as he deems necessary.

§ 4.2 *Scope and definitions.* For the purposes of the regulations contained in this part:

(a) Every paragraph and clause relates to customs, public health, entry, clearance, and immigration, except where it applies only to certain of these matters, which is shown by headnote or context.

(b) The term "United States" when used in a geographical sense means the territory comprising the several States, Territories, possessions, and the District of Columbia, including the territorial waters thereof and the overlying airspace, but shall not include the Canal Zone.

(c) The term "area" shall mean any one of the following parts of the United States:

(1) The Mainland,

(2) Alaska, but to be regarded as part of the Mainland for immigration purposes,

(3) Hawaii,

(4) Puerto Rico,

(5) Virgin Islands, an area for the purpose of the immigration laws except as provided in further immigration regulations specifically mentioning those Islands in 8 CFR Part 116, but shall be regarded as foreign territory for other purposes,

(6) Such area as shall hereafter be specified to include possessions of the United States not mentioned herein.

The regulations in this part shall not be applicable in the Philippine Islands, the Islands of Guam, Midway, American Samoa, Wake, Kingman Reef, and other insular possessions not specified herein, nor to the Virgin Islands except as specified in subparagraph (5) of this paragraph until notice supplementary hereto is given.

(d) The term "aircraft" means civil aircraft, i. e., any aircraft not used exclusively in the governmental service of the United States or a foreign country, but includes any government-owned aircraft engaged in carrying persons or property for commercial purposes.

(e) The term "aircraft commander" means the person serving on the aircraft having charge or command of its operation and navigation.

(f) The term "scheduled airline" means any individual, partnership, corporation, or association engaged in air transportation upon regular schedules to, over, or away from the United States or from area to area and holding a Foreign Air Carrier Permit or a Certificate of Public Convenience and Necessity issued pursuant to the Civil Aeronautics Act of 1938.

(g) The term "airport of entry" means any airport designated by the Secretary of the Treasury as a port of entry for aircraft arriving in the United States from any place outside thereof and for the merchandise carried on such aircraft; also by the Attorney General as a port of entry for aliens arriving on such aircraft; and by the Federal Security Administrator as a place for quarantine inspection.*

§ 4.3 *Landing requirements*—(a) *Place of landing.* Every aircraft coming into any area from any place outside thereof shall land in such area unless exempted from this requirement by the Administrator of Civil Aeronautics, Washington, D. C. The first landing shall be at an airport of entry, unless permission to land elsewhere than at an airport of entry is first granted by the Commissioner of Customs, Washington, D. C., who upon granting such permission shall immediately notify the Surgeon General, Public Health Service, the Commissioner of Immigration and Naturalization, and any other agency affected thereby. In cases where such permission is given, the owner, operator, or person in charge of the aircraft shall pay the additional expenses, if any, incurred in inspecting the aircraft, passengers, employees, merchandise, and baggage carried therein. When such admission is granted to a scheduled airline to land aircraft operating on a schedule, no inspection charge shall be made except for overtime service performed by customs officers, and if the aircraft arrives substantially in accordance with schedules on file with the immigration authorities, no inspection charge shall be made for overtime service by immigration officers.

(b) *Advance notice of arrival.* No aircraft coming into any area from any place outside thereof may land in such area unless notice of the intended flight has been furnished to the collector or deputy collector of customs at the airport of entry at or nearest the intended place of first landing in such area; nor unless the same notice has been furnished to the quarantine and the immigration officers in charge at or nearest such place. Such notice shall specify the type of aircraft, the registration marks thereon, the name of the aircraft commander, the place of last departure, the airport of entry, or other place at which landing has been authorized, number of alien passengers, number of citizen passengers, and the estimated time of arrival; and shall be sent so as to be received in sufficient time to enable the officers designated to inspect the aircraft to reach the airport of entry or such other place of first landing prior to the arrival of the aircraft. Such advance notice will not be required in the case of aircraft of a scheduled airline arriving in accordance with the regular schedule filed with the collector of customs for the district in which the place of first landing in the area is situated and also with the immigration officer in charge for such place.

(c) *Permission to discharge or depart.* No aircraft arriving in the United States from any place outside thereof, or in an area from another area carrying residue foreign cargo (see § 4.10a) shall, without receiving permission from the quarantine and the customs officers in charge, depart from the place of landing, or discharge any merchandise, passengers, or baggage; and no aircraft arriving in the United States from any place outside thereof or in an area from another area except directly from the Mainland shall discharge any passenger or employee without permission from the immigration officer in charge.

(d) *Emergency or forced landing.* Should any aircraft coming into the United States from any place outside thereof, or into any area from any other area, make a forced landing in the United States, the aircraft commander or operator shall not allow any merchandise or baggage to be removed from the landing place without permission from a customs officer, nor allow any passenger or person employed thereon to depart from such landing place without permission of the quarantine and immigration officers, unless such removal or departure is necessary for purposes of safety or the preservation of life or property. As soon as practicable, the aircraft commander, or a member of the crew in charge, or the owner of the aircraft, shall communicate with the customs officer at the intended place of first landing or at the nearest airport of entry or other customs port of entry in that area and also with the nearest quarantine officer and immigration officer and make a full report of the circumstances of the flight and of the emergency or forced landing. § 4.4 *Entry and clearance.* (a) Aircraft coming into any area from any place outside the United States shall be entered (see § 4.8) in such area if landing is made therein. Aircraft coming into any area from another area shall be entered (see § 4.9 (e)) in such area if landing is made therein and if carrying merchandise or passengers.

(b) Entry shall be made by the aircraft commander at the airport of entry at which the first landing is made in the area. If, pursuant to § 4.3 (a), the first landing occurs at a place not an airport of entry, entry shall be made at the nearest airport of entry or customs port of entry, unless some other place is designated for that purpose by the Commissioner of Customs.

(c) Aircraft departing from any area for foreign territory, or to take aboard or discharge persons or merchandise anywhere outside the United States, or departing from any area for another area carrying passengers that must be listed in clearance declaration (§ 4.9 (b), (e)) or

(b) *Directions as to deliveries.* Deliveries of tungsten by any person shall be made only in accordance with the following directions:

(1) *A-10 assigned to certain defense orders.* Deliveries under all Defense Orders to which a preference rating of A-10 or higher has not been specifically assigned are hereby assigned a preference rating of A-10.

(2) *Sequence of preference ratings.* Preference ratings in order of precedence are: AA, A-1-a, A-1-b, etc., . . .

A–1–j; A–2, A–3, etc., . . . A–10, etc., AA being the highest rating presently assigned.

(3) *Doubtful cases.* Whenever there is doubt as to the preference rating applicable to any delivery, or as to whether a particular order is a Defense Order, the matter is to be referred to the Division of Priorities for determination, with a statement of all pertinent facts.

(4) *Sequence of deliveries.* (i) Every delivery under a Defense Order shall be made in preference to deliveries under other orders whenever, and to the extent, necessary to fulfill the delivery schedule provided in the Preference Rating Certificate covering such delivery, or in the contract or purchase order if no Certificate has been issued. Deliveries bearing no preference rating or lower preference ratings shall be deferred to the extent necessary to assure those deliveries bearing higher preference ratings, even though such deferment may cause defaults under existing contracts or purchase orders. Each person who has Defense Orders on hand must so schedule his production and deliveries that deliveries under Defense Orders will be made on the dates required, giving precedence in case of unavoidable delay to deliveries bearing the higher preference ratings.

(ii) The sequence of deliveries bearing the same preference rating shall be governed by the delivery dates specified in the respective Preference Rating Certificates assigned thereto, or if the ratings were assigned by order or direction of the Director of Priorities, but no Certificates were issued, then by the dates specified in the contracts or purchase orders. In any case where preference ratings and delivery dates are the same, and it is impossible to make all deliveries on schedule, the matter is to be referred to the Division of Priorities for determination.

(5) *Delivery schedules.* No earlier delivery date shall be specified in any Defense Order than required by the production or delivery schedules of the person placing the Defense Order. No preference rating will be assigned to any contract or purchase order specifying delivery dates earlier or quantities greater than required by the production or delivery schedules of the person placing the contract or purchase order.

(6) *Use of material obtained under allocation or preference rating.* Any person who obtains a delivery of tungsten under an order or specific direction of the Director of Priorities, or a delivery of such material bearing a preference rating, must use such material, or an equivalent amount thereof, for the purpose specified in connection with the issuance of the order, direction, or rating.

(7) *Acceptance of defense orders.* Defense Orders for tungsten, whether or not accompanied by a Preference Rating Certificate, must be accepted and fulfilled in preference to any other contracts or purchase orders for such material, subject to the following provisions:

(i) Defense Orders shall be accepted even if acceptance will render impossible, or result in deferment of:

(*a*) Deliveries under non-defense orders previously accepted; or

(*b*) Deliveries under Defense Orders previously accepted bearing lower preference ratings, unless rejection is specifically permitted by the Director of Priorities.

(ii) Defense Orders need not be accepted:

(*a*) If delivery on schedule thereunder would be impossible by reason of the requirements of Defense Orders previously accepted bearing higher or equal preference ratings, unless acceptance is specifically directed by the Director of Priorities; or

(*b*) If the tungsten ordered is not of the kind usually produced or capable of being produced by the person to whom the Defense Order is offered; or

(*c*) If the person seeking to place the Defense Order is unwilling or unable to meet regularly established prices and terms of sale, but there shall be no discrimination against Defense Orders in establishing such prices or terms of sale; or

(*d*) If compliance with the delivery dates specified in such defense orders would require the termination or alteration before completion of a specific production schedule already commenced, but this provision shall not authorize rejection when such schedule can be terminated or altered without substantial loss to the producer or processor.

(8) *Rejected orders and deferred deliveries.* When a Defense Order for tungsten has been rejected or delivery thereunder has been unreasonably or improperly deferred in violation of this Order, the person seeking to place such order or obtain such delivery may file with the Division of Priorities a verified report in the form to be prescribed by the Division of Priorities, setting forth the facts in connection with the rejection or deferment. When the facts set forth justify such action, the Director of Priorities will thereupon direct the person against whom complaint is made to submit a sworn statement, setting forth the circumstances concerning the alleged rejection or deferment. Thereafter, such action will be taken by the Director of Priorities as he deems appropriate.

(9) *Intra-company deliveries.* The prohibitions or restrictions contained in this Order shall, in the absence of a contary direction, apply not only to deliveries to other persons, including affiliates and subsidiaries, but also to deliveries from one branch, division, or section of a single business enterprise to another branch, division, or section of the same or any other business enterprise owned or controlled by the same person.

(10) *Effect of order: damages.* The prohibitions or restrictions in this order shall, in the absence of a contrary direction, apply to all deliveries made after the effective date of this order, including deliveries under contracts or purchase orders accepted either prior to or subsequent to such effective date. No person shall be held liable for damages or penalties for any default under any contract or purchase order which results directly or indirectly from his compliance with the terms of this order.

(11) *Inventory restrictions.* Unless specifically authorized by the Director of Priorities, no person shall, after the effective date of this Order, knowingly make delivery of tungsten, and no person shall accept delivery thereof, in an amount, quantity, or number which will increase for any current month the inventory of such tungsten of the person accepting delivery, in the same or other forms, in excess of the amount, quantity, or number necessary to meet required deliveries of the products of the person accepting delivery, on the basis of his current method and rate of operation. This provision shall not prohibit or restrict:

(i) Deliveries for direct export out of the United States provided that such exports shall have been licensed by the Administrator of Export Control;

(ii) Deliveries of imported tungsten to any person importing the same, either directly or through an agent;

(iii) Deliveries of tungsten to the Metals Reserve Corporation.

(12) *Restrictions on making and accepting deliveries.* Beginning September 1, 1941, no producer, processor or dealer shall make, and no person shall accept delivery of, tungsten unless the person seeking delivery shall have filed in duplicate (one copy with the person from whom the tungsten is ordered, and one copy with the Division of Priorities) not later than the 20th day of the month next preceding the month in which delivery is specified, Form PD–9, or such other form or forms as the Division of Priorities may from time to time prescribe. The Director of Priorities may in his discretion from time to time issue specific directions exempting particular customers or classes of customers from the provisions of this paragraph (b) (12) on the basis of the limited character of their requirements for tungsten.

(13) *Special restrictions on deliveries of ferro-tungsten, tungsten metal powder, and tungsten chemical compounds to be processed into tungsten metal powder.* In addition to all other limitations and restrictions contained in this order, beginning September 1, 1941, no person shall make or accept delivery of ferro-tungsten, tungsten metal powder, or tungsten chemical compounds to be processed into tungsten metal powder

without the specific authority of the Director of Priorities. During each calendar month, the Director of Priorities will at such time or times as he may determine allocate the supply of ferro-tungsten, tungsten metal powder, and tungsten chemical compounds to be processed into tungsten metal powder, among persons seeking deliveries, and specifically direct the manner and quantities in which deliveries thereof may be made and accepted. In making any such allocations and directions, the Director of Priorities may take into consideration any person's stocks on hand and supply otherwise available to him, of tungsten ore, concentrates or scrap materials, as well as of ferro-tungsten and tungsten metal powder and tungsten chemical compounds. Such allocations and directions will be made primarily to insure satisfaction of all defense requirements of the United States, both direct and indirect, and they may be made, in the discretion of the Director of Priorities, without regard to any preference ratings assigned to particular contracts or purchase orders.

(14) *Limitations on deliveries and manufacture of tungsten chemical compounds.* Beginning September 1, 1941, in the absence of a contrary direction by the Director of Priorities, no person shall, during any calendar month, accept deliveries of tungsten chemical compounds or manufacture such compounds from tungsten ore or concentrates, to be used in either case for purposes other than the manufacture of tungsten metal powder, in a quantity which will in the aggregate by weight exceed 90% of the average monthly quantity of tungsten chemical compounds delivered to, and manufactured by him for such purposes during the year ending June 30, 1941.

(15) *Civilian deliveries.* Subject to the limitations and restrictions contained in this Order and after satisfaction of all Defense Orders, and other orders bearing preference ratings, deliveries under any other contracts or purchase orders may be made. Any allocations made or any preference ratings or other directions issued by the Director of Priorities with respect to the residual supply of tungsten after the satisfaction of all defense requirements, direct or indirect, shall be in accordance with such program as the Office of Price Administration and Civilian Supply may determine.

(c) *Records.* All persons affected by this order shall keep and preserve for a period of not less than two years accurate and complete records of their inventories of tungsten, and of the details of all transactions in such material. Such records shall include the dates of all contracts or purchase orders, and in any Preference Rating Certificates accompanying them, the dates of actual deliveries thereunder, description of the material covered by such contracts or purchase orders, description of deliveries by classes, types, quantities, weights, and values, the parties involved in each transaction, the preference ratings, if any, assigned to deliveries under such contracts or purchase orders, details of all Defense Orders either accepted or offered and rejected, and other pertinent information.

(d) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the Office of Production Management.

(e) *Reports.* (1) All persons affected by this order shall execute and file with the Office of Production Management such reports and questionnaires as said Office shall from time to time request. No reports or questionnaires are to be filed by any person until forms therefor are prescribed by the Office of Production Management.

(2) Until otherwise instructed by the Office of Production Management, no producer who regularly and promptly files such reports as may be requested by the Bureau of Mines will be required to file any reports with said Office.

(f) *False statements and violations.* (1) Any person who wilfully falsifies any records which he is required to keep by the terms of this order or by the Director of Priorities, or who otherwise wilfully furnishes false information to the Director of Priorities, the Office of Production Management, or the Bureau of Mines; and any person who obtains a delivery or a preference rating for a delivery by means of a material and wilful misstatement, may be prohibited by the Director of Priorities from making or obtaining further deliveries of tungsten. The Director of Priorities may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35 of the Criminal Code (18 U.S.C. 80).

(2) Any person affected by this order who violates any of its provisions or a provision of any other order issued by the Director of Priorities, may be prohibited by the Director from making or receiving deliveries of tungsten, or he may be subjected to such other or further action as the Director may deem approprate.

(g) *Appeal.* Any person affected by this order who considers that compliance herewith would work an exceptional and unreasonable hardship upon him, may appeal to the Division of Priorities by addressing a letter to the Division of Priorities, Office of Production Management, Social Security Building, Washington, D. C., setting forth the pertinent facts and the reasons such person considers that he is entitled to relief. The Director of Priorities may thereupon take such action as he deems appropriate.

(h) *Notification of customers.* Any person who is prohibited from, or restricted in, making deliveries of tungsten by the provisions of this order shall, as soon as practicable, notify each of his regular customers of the requirements of this order, but the failure to give such notice shall not excuse any customer from the obligation of complying with the terms of this order.

(i) *Revocation of general preference order M–3 and supplementary order M–3–a.*[1] General Preference Order M–3 to direct the distribution of Ferro-Tungsten, Tungsten Metal Powder, and Tungsten Compounds, and Supplementary Order M–3–a, both issued on March 26, 1941, by the Director of Priorities, are hereby revoked effective as of the effective date of this order.

(j) *Effective Dates.* This order shall take effect on the 31 day of August 1941, and unless sooner terminated by direction of the Director of Priorities, shall expire on the 31st day of December, 1941. (O.P.M. Reg. 3, March 7, 1941, 6 F.R. 1596; E.O. 8629, Jan. 7, 1941, 6 F.R. 191; sec. 2 (a), Public No. 671, 76th Congress, 3rd Session, as amended by Public No. 89, 77th Congress, sec. 9, Public No. 783, 76th Congress)

PART 945—TRICRESYL AND TRIPHENYL PHOSPHATES

General Preference Order M–16 to Conserve the Supply and Direct the Distribution of Tricresyl and Triphenyl Phosphates

Whereas the national defense requirements have created a shortage of Tricresyl and Triphenyl Phosphates for defense, for private account, and for export and it is necessary, in the public interest and to promote the defense of the United States, to conserve the supply and direct the distribution thereof;

Now, therefore, it is hereby ordered that:

§ 945.1 *General preference order*—(a) *Priority control.* Control of the supply and direction of the distribution of Tricresyl and Triphenyl Phosphates is hereby taken by the Director of Priorities, and all future transactions of any kind in Tricresyl and Triphenyl Phosphates are regulated and governed by the provisions and definitions contained in Regulation No. 1 of the Priorities Division of the Office of Production Management, issued on the 27th day of August, 1941, except as herein otherwise specifically provided.

(b) *A–10 rating assigned to additional orders.* An A–10 rating is hereby assigned to any contract or order placed or offered by any purchaser of Tricresyl and Triphenyl Phosphates for the delivery of Tricresyl and Triphenyl Phosphates required by the purchaser to fulfill any defense order which he has on hand, and any such contract or order shall itself be deemed a defense order.

(c) *Directions with respect to residual supply.* Any allocations made or any

preference ratings or other directions issued by the Director of Priorities with respect to the residual supply of Tricresyl and Triphenyl Phosphates after the satisfaction of all defense requirements, direct or indirect, will be in accordance with such Program as the Office of Price Administration and Civilian Supply may determine.

(d) *Effective dates.* This Order shall take effect on the 30th day of August, 1941, and, unless sooner terminated by direction of the Director of Priorities, shall expire on the 31st day of December, 1941. (O.P.M. Reg. 3, Mar. 8, 1941, 6 F.R. 1596; E.O. 8629, Jan. 7, 1941, 6 F.R. 191; E.O. 8875, Aug. 28, 1941; sec. 2 (a), Public No. 671, 76th Congress, as amended; sec. 9, Public No. 783, 76th Congress)

SUBCHAPTER B—PRIORITIES DIVISION

PART 950—CUTTING TOOLS [1]

Supplementary Order No. E–2–a to Direct the Use and Distribution of Cutting Tools

Whereas, it is found that the demands of the national defense program have created a present and increasing shortage of Cutting Tools, as hereinafter defined; and

Whereas, it is further found that such shortage will prevent deliveries of such tools under present and future Naval and Army contracts and orders and related subcontracts and suborders unless the total present and future supply be conserved and the present and future distribution thereof be directed; and

Whereas, it is further found that the best interests of the national defense require that priority be accorded to such deliveries and that the power conferred upon me to direct and insure priority for such deliveries be exercised;

Now, therefore, it is hereby ordered that:

§ 950.2 *Supplementary order*—(a) *Definition.* For the purposes of this Order:

(1) "Cutting Tools" means all metal Cutting Tools of the following types, whether the same be regulars or specials:

Drills, reemers, countersinks, counterbores, spotfacers, taps, chasers for self-opening die heads, chasers for collapsing taps, milling cutters, form tools (flat and circular), gear cutting and gear finishing tools, hobs, boring bars and boring tools (both solid and inserted type), and machine broaches. Furthermore, all of the above tools that have inserted or brazed cutting edges made with cemented carbide tips or hard-alloy tips are included.

(i) "Special" means an item of a type or size not regularly listed in a manufacturer's catalogue as of June 1, 1941, and includes machine broaches.

(ii) Items may be included or excluded from time to time by order of the Director of Priorities.

(2) "Defense Order" means:

(i) Any contract or order for material or equipment to be delivered to, or for the account of:

(*a*) The Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Commission for Aeronautics, the Office of Scientific Research and Development;

(*b*) The government of any of the following countries: The United Kingdom, Canada and other Dominions, Crown Colonies and Protectorates of the British Empire, Belgium, China, Greece, The Kingdom of the Netherlands, Norway, Poland, Russia and Yugoslavia.

(ii) Any contract or order placed by any agency of the United States Government for material or equipment to be delivered to, or for the account of, the Government of any country listed above or any other country including those in the Western Hemisphere pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(iii) Any other contract or order to which the Director of Priorities assigns a preference rating of A–10 or higher.

(iv) Any contract or order for material or equipment required by the person placing the same to fulfill his contracts or orders on hand, provided such material or equipment is to be physically incorporated in material or equipment to be delivered under contracts or orders included under (i), (ii) or (iii) above.

(3) An A–10 rating is hereby assigned to any contract or order placed or offered by any person for the delivery of Cutting Tools required by him to fulfill any Defense Order which he has on hand, and any such contract or order shall itself be deemed a Defense Order.

(4) "Person" means any individual, partnership, association, corporation or other form of business enterprise, and agents thereof.

(5) "Manufacturer" means any Person engaged in the production of Cutting Tools.

(6) "Distributor" means any Person who purchases Cutting Tools for the purposes of resale.

(b) *Preference ratings and direotions.* Deliveries of Cutting Tools shall be made by a Manufacturer or a Distributor only in accordance with the following directions:

(1) Deliveries under Defense Orders shall be made in preference to deliveries under all other orders whenever, and to the extent, necessary to assure fulfillment of the delivery schedule specified in such Defense Orders or in any individual preference rating certificates assigned thereto, whichever schedule be earlier.

(2) Preference ratings, in order of precedence, are: AA, A–1–a, A–1–b, etc., . . . A–1–j; A–2, A–3, etc., . . . A–10.

(3) Deliveries under all Defense Orders which have not be assigned a higher preference rating are hereby assigned a preference rating of A–10.

(4) Deliveries of Cutting Tools by a Manufacturer to a Distributor for the purpose of permitting the Distributor to fulfill Defense Orders are hereby assigned a preference rating of A–10, provided the Distributor at the time he places his contract or purchase order for such rated deliveries certifies in writing to the manufacturer that he will deliver such tools only in fulfillment of Defense Orders.

(5) Defense Orders for Cutting Tools, whether or not accompanied by a Preference Rating Certificate, must be accepted and fulfilled in preference to any other contracts or purchase orders for such Cutting Tools, subject to the following provisions:

(i) Defense Orders must be accepted even if acceptance will render impossible, or result in deferment of, deliveries under non-defense orders previously accepted.

(ii) Defense Orders need not be accepted

(*a*) if delivery on schedule thereunder would be impossible by reason of the requirements of Defense Orders previously accepted, unless acceptance is specifically directed by the Director of Priorities;

(*b*) if the Person seeking to place the Defense Order is unwilling or unable to meet regularly established prices and terms of sale or payment, but there shall be no discrimination against Defense Orders in establishing such prices or terms;

(*c*) if the Cutting Tools ordered are not of the kind usually produced or capable of being produced by the Person to whom the Defense Order is offered.

(6) Contracts or orders shall be scheduled for production, and/or deliveries under the same shall be made, in accordance with the preference ratings assigned thereto and the delivery dates specified. That is, production and/or deliveries shall be deferred under contracts or orders bearing no preference rating, or a lower preference rating, to the extent necessary to insure production and/or deliveries by the time specified under contracts or orders bearing a higher preference rating, even though such deferment may cause a default in an existing contract or order. (For example, a Manufacturer has an order assigned an A–1–a rating calling for delivery on De-

[1] 6 F.R. 3673.

cember 1, 1941, and an order assigned an A–1–b rating calling for delivery on November 1, 1941. The Manufacturer should defer production and/or deliveries on the order rated A–1–b, if, and only to the extent that, such deferment is necessary in order to make deliveries under the order rated A–1–a by December 1, 1941.) *Provided, however,* That where immediate compliance with a higher preference rating assigned to a contract or order would interfere with work already in actual production, such compliance may be postponed by a Manufacturer until the completion of the stage of production in which the lower rated or non-rated orders or contracts are, at the time that the Manufacturer received notice of the higher rating. *Provided, however,* That (i) such postponement shall not, in any case, exceed a period of ten days, and that (ii) the above-mentioned provision for postponement shall not apply to deliveries under contracts or orders which have been assigned an AA rating.

(7) After providing for all deliveries under Defense Orders, giving preference among such deliveries in accordance with any preference ratings specifically assigned thereto, Manufacturers and Distributors may make deliveries of Cutting Tools under other contracts or orders subject, however, to the restrictions specified in paragraph (c) below, and subject to the restriction, in accordance with paragraph (b) (4) above, that no Distributor shall make deliveries of Cutting Tools obtained under an A–10 rating except in fulfillment of Defense Orders.

(8) Any allocations made or any preference ratings or other directions issued by the Director of Priorities with respect to the residual supply of Cutting Tools after the satisfaction of all defense requirements, direct or indirect, shall be in accordance with such Program as the Office of Price Administration and Civilian Supply may determine.

(9) When deliveries of Cutting Tools have been unreasonably or improperly deferred, or when orders therefor have been rejected (for any reason other than the restrictions contained in this Order), the Person aggrieved may file with the Division of Priorities a verified report in form to be prescribed by the Division of Priorities, attention Tool and Equipment Group, setting forth the facts in connection with such deferment or rejection.

(10) Whenever there is doubt as to the preference rating applicable to any delivery, or whether an order or contract placed or offered to be placed, constitutes a Defense Order, the matter should be referred to the Division of Priorities for determination with a statement of all pertinent facts.

(c) *Restrictions and prohibitions.* Except with respect to special Cutting Tools, orders for which are on hand at the effective date of this Order, and as to which production has been actually commenced at that time:

(1) No Manufacturer or Distributor shall accept any orders for Cutting Tools, or schedule production or make deliveries thereof, unless the intending purchaser shall have certified to the Manufacturer or Distributor that the deliveries of the Cutting Tools desired, taking into consideration other Cutting Tools of the same description which said purchaser has, either on hand or on order with other Manufacturers or Distributors, will not at any time effect an increase of such Cutting Tools in such purchaser's inventories beyond a 90 day supply thereof, determined on the basis of such purchaser's expected method and rate of operation.

(d) *Records, information and inspection.* All Persons affected by this Order shall keep and preserve, for a period of not less than two years, accurate and complete records of the details of all transactions in any way regulated or affected by this Order. Such records shall include the dates of all contracts or orders accepted; the delivery dates specified in such contracts or orders, and in any Preference Rating Certificates accompanying them; the dates of actual deliveries thereunder; description of the material covered by such contracts or orders; description of deliveries by classes, types, and quantities; the preference ratings, if any, assigned to such contracts or orders or to deliveries thereunder; and the parties involved in each transaction. All records specified in this paragraph shall, upon request, be submitted to audit and inspection by duly authorized representatives of the Division of Priorities. All Persons affected by this Order shall execute and file with the Division of Priorities such reports and questionnaires as said Division shall from time to time request.

(e) *Appeal.* Any Person affected by this Order who deems compliance therewith would work an unreasonable hardship upon him may appeal to the Division of Priorities by addressing a letter to the Division of Priorities, attention Tool and Equipment Group, Office of Production Management, Social Security Building, Washington, D. C., setting forth the pertinent facts and the reasons upon which such Person predicates his claim to relief. The Director of Priorities will, thereupon, take such action as he deems appropriate.

(f) *Notification of customers.* All Manufacturers or Distributors shall, as soon as practicable, notify each of their regular customers of the requirements of this Order, but the failure to give such notice shall not excuse any customer from the obligation of complying with the terms of this Order.

(g) *Revocation of previous order.* This Order supersedes and revokes all previous Orders, directions and communications of the Priorities Division, inconsistent herewith, and may be modified or terminated by the Director of Priorities at any time.

(h) *Effective date.* This Order shall take effect on the 28 day of August, 1941, and, unless sooner terminated by direction of the Director of Priorities, shall expire on the 30th day of November, 1941. (O.P.M. Regulation 3, March 7, 1941, 6 F.R. 1596; E.O. 8629, January 7, 1941, 6 F.R. 191; sec. 2 (a) Public No. 671, 76th Congress, as amended by Public No. 89, 77th Congress; sec. 9, Public No. 783, 76th Congress)

Issued this 28 day of August 1941.

[Limitation Order L-1]

PART 976—MOTOR TRUCKS AND PUBLIC PASSENGER CARRIERS

To Limit, and To Facilitate the Acquisition of Scarce Materials for, the Production of Certain Motor Truck and Public Passenger Carrier Defense Products

Whereas, the manufacture of "Motor Truck and Public Passenger Carrier Defense Products" requires the utilization of large quantities of scarce materials; national defense requirements have created a shortage in these materials for defense, private account and export; action has already been taken to conserve the supply and direct the distribution of such materials to insure deliveries for defense and for essential civilian requirements; and

Whereas, it is necessary in the interests of defense to stimulate the production of "Heavy Trucks"; and

Whereas, the present supply of scarce materials will be insufficient for defense and essential civilian requirements if the rate of production of "Medium Motor Trucks" should increase over levels prevailing from January 1, 1941 to June 30, 1941; and

Whereas, therefore, it is appropriate in the interests of defense and to meet essential civilian requirements to limit the volume of production of "Motor Truck and Public Passenger Carrier Defense Products", to afford priority assistance in the procurement of scarce materials required to maintain an average annual rate of production within such limits, such measures to be operative for a limited period of time only, and to require each producer to reduce and eliminate the use of scarce materials in the production of such products; and

Whereas, it is hoped that such measures will reduce the requirements for scarce materials in the production of "Motor Truck and Public Passenger Carrier Defense Products", will encourage use of existing inventory, an appropriate scheduling in the replenishment of inventory and will, accordingly, permit the continuation of priority assistance beyond the limited period of time presently provided in this Order,

Now, therefore, it is hereby ordered that:

§ 976.1 *General preference order*—(a) *Definitions.* For the purposes of this Order:

(1) "Producer" means any individual, partnership, association, corporation or other form of enterprise which is or may be engaged in the manufacture or assembly of one or more "Motor Truck and Public Passenger Carrier Defense Products".

(2) "Motor Truck and Public Passenger Carrier Defense Product" means any of the following items:

(i) "Heavy Motor Truck" — which means a complete motor truck or truck-tractor of a rated capacity (as advertised by the Producer prior to August 1, 1941) of three tons or more, or, the chassis, body or cab therefor.

(ii) "Medium Motor Truck"—which means a complete motor truck or truck-tractor of a rated capacity (as advertised by the Producer prior to August 1, 1941) of one and one-half tons or more, but less than three tons, or, the chassis, body or cab therefor.

(iii) "Truck-trailer"—which means semi-trailer or full trailer having a cargo-carrying capacity (as advertised by the Producer prior to August 1, 1941) of five tons or more, designed exclusively for the transportation of property, or the chassis of body therefor.

(iv) "Public Passenger Carrier"—which means motor or electric coach for city, suburban or intercity public carrier passenger transportation, having a seating capacity of not less than 15 persons, or the chassis or body therefor.

(v) "Replacement Parts" — which means only the following functional parts (including components entering into such parts) used for the repair of heavy trucks, medium trucks, truck-trailers and public passenger carriers: engine, clutch, transmission, propeller shaft, axles, brakes, wheels, hubs, drums, starting apparatus, spring suspension, brackets and shackles; also the exhaust, cooling, fuel and electrical systems including generators, lights, reflectors, and batteries; also gauges, speedometers, motors, fuses, flares, directional signals, rear-view mirrors, windshield wipers, control mechanisms, steering apparatus, driving gears, coupling devices; and, but only as to parts for public passenger carriers, heating, ventilating and door-opening equipment. Replacement parts

do not include parts entering into the production or assembly of new heavy trucks, medium trucks, truck-trailers or public passenger carriers.

(b) *Filing of form PD 95.*[1] Each Producer, irrespective of whether or not he desires to invoke priority assistance pursuant to this Order, shall, on or before September 30, 1941, file with the Automotive, Railroad and Agricultural Equipment Branch, Office of Production Management, Washington, D. C., Form PD 95: *Provided, however,* That any producer, who may elect to operate under the limitations on production hereinafter imposed in paragraph (c), or, to whom no limitation on production is applicable under this Order by virtue of the exemption provided in paragraph (d), need not file a form PD 95; but, if such Producer desires to invoke priority assistance pursuant to this Order, he should, on or before September 30, 1941, file a Form PD 95.

Copies of this Form may be obtained by writing to the Automotive, Railroad and Agricultural Equipment Branch, Office of Production Management, Washington, D. C.

Upon receipt of Form PD 95, the Office of Production Management will determine the number of finished units of each category of Motor Truck and Public Passenger Carrier Defense Products which the Producer may produce during the three-months period September 1, 1941 to November 30, 1941. Thereupon a "Motor Truck and Public Passenger Carrier Defense Products Limitation and Rating Order, Form L-1, Series 1", will be issued to the Producer which will impose the limitation upon his production and afford him priority assistance.

(c) *Limitation on production of small producer.* The following limitations, applicable in the case of any Producer who elects to operate under the limitations provided in this paragraph, are hereby imposed on the production of such Producer during the period from September 1, 1941 to August 30, 1942:

(i) The Producer of heavy motor truck chassis, medium motor truck chassis or public passenger carrier chassis will be limited in the aggregate number of such vehicles which he may produce to 200;

(ii) The Producer of truck-trailer chassis will be limited in the number of such vehicles which he may produce to 200.

(d) *No limitation on the production of replacement parts, bodies or cabs.* (i) The Producer of Replacement Parts will not be limited in the number of such parts which he may produce.

(ii) The Producer of Bodies or Cabs for heavy motor trucks, medium motor trucks, truck-trailers or public passenger carriers will not be limited in the number of such Bodies or Cabs which he may produce.

(e) *Reduction and elimination of scarce materials.* Each Producer shall comply with such instructions as have been or may be issued from time to time by the Director of Priorities of the Office of Production Management, with respect to the reduction or elimination of scarce materials in the production of Motor Truck and Public Passenger Carrier Defense Products.

(f) *Records.* All persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(g) *Audit and inspection.* All records required to be kept by this Order shall upon request be submitted to audit and inspection by duly authorized representatives of the Office of Production Management.

(h) *Reports.* All persons affected by this Order shall execute and file with the Office of Production Management such reports and questionnaires as said Office shall from time to time request. No reports or questionnaires are to be filed by any person until forms therefor are prescribed by the Office of Production Management.

(i) *Violations or false statements.* Any person who violates this Order, or who wilfully falsifies any records which he is required to keep by the terms of this Order, or by the Director or Priorities, or otherwise wilfully furnishes false information to the Director of Priorities or to the Office of Production Management may be prohibited by the Director of Priorities from obtaining any further deliveries of materials subject to allocation. The Director of Priorities may also take any other action deemed appropriate, including the making of a recommendation for prosecution under Section 35 of the Criminal Code (18 U.S.C. 80).

(j) *Effective date.* This order shall take effect upon the date of the issuance thereof and shall continue in effect until revoked by the Director of Priorities subject to such amendments or supplements thereto as may be issued from time to time by the Director of Priorities. (O.P.M. Reg. 3, Mar. 7, 1941, 6 F.R. 1596; E.O. 8629, Jan. 7, 1941, 6 F.R. 191; sec. 2 (a), Public No. 671, 76th Congress, as amended by Public No. 89, 77th Congress; sec. 9, Public No. 783, 76th Congress)

Part 1309, Price Schedule No. 15,[1] issued August 12, 1941, is hereby amended in the following respects:

Section 1309.51 *Maximum prices for copper,* is hereby amended by striking paragraph (a) thereof and substituting therefor the following:

§ 1309.51 *Maximum prices for copper.* (a) On and after August 12, 1941, regardless of the terms of any contract of sale or purchase, or other commitment, except as provided in § 1309.53 hereof, no person shall sell, offer to sell, deliver or transfer copper to any person other than the Metals Reserve Company and no person other than the Metals Reserve Company shall buy, offer to buy, or accept delivery of copper at prices higher than the maximum prices set forth in Appendix A, incorporated herein as § 1309.60: *Provided, however,* That any person, who, between July 1, 1941 and August 12, 1941 has acquired copper in carload lots (for resale in less than carload lots) at prices not more than ½¢ per pound in excess of the maximum prices established by this Schedule, may be permitted to sell and deliver such copper at prices not more than ½¢ per pound in excess of the maximum prices for less than carload lots established by this Schedule upon application to the Office of Price Administration and Civilian Supply for exception to this Schedule. Lower prices than those set forth in Appendix A may, however, be charged, demanded, paid or offered.

Such permission will be granted only: (a) where the applicant has entered into a firm commitment with a purchaser prior to August 12, 1941 at a price not more than ½¢ per pound in excess of the maximum prices established by this Schedule, and where such firm commitment is actually carried out prior to

PART 1344—TUNGSTEN

CIVILIAN ALLOCATION PROGRAM FOR TUNGSTEN CHEMICAL COMPOUNDS

It is essential that there be provided an increasing supply of tungsten and tungsten chemical compounds to serve the growing needs of the defense effort and vital civilian demands. To insure the obtaining of priority for deliveries of tungsten related to military defense needs, the Priorities Division, Office of Production Management, has issued General Preference Order No. M 29. That order will further diminish the supply of tungsten available for civilian chemical manufacture. It is therefore necessary to restrict the use and manufacture of tungsten chemical compounds manufactured from tungsten ore or concentrates.

Accordingly, pursuant to and under the authority vested in me by Executive Order No. 8734,[2] particularly Section 2 (a) thereof, the following program is announced:

§ 1344.1 *Allocation of materials.* No person shall accept delivery of tungsten chemical compounds or manufacture chemical compounds from tungsten ore or concentrates, except for use in executing Defense Orders or in the manufacture of tungsten metal powder, in a quantity which for any calendar month will in the aggregate by weight exceed 90% of the average monthly quantity of tungsten chemical compounds delivered to and manufactured by him, except for use in executing Defense Orders or in the manufacture of tungsten metal powder, during the period July 1, 1940 to June 30, 1941.*

*§§ 1344.1 to 1344.5, inclusive, issued pursuant to the authority contained in Executive Order No. 8734.

§ 1344.2 *Definitions.* The terms used in this program shall be defined as they are defined in General Preference Order M–29.*

§ 1344.3 *Avoidance of excessive inventories.* No person shall accumulate excessive inventories of tungsten chemical compounds under this program.*

§ 1344.4 *Enforcement.* The foregoing program is to be administered and enforced by the Office of Production Management.*

§ 1344.5 *Effective date and expiration.* This program shall take effect on September 1, 1941 and shall, unless sooner terminated by the Administrator, expire on December 31, 1941.*

Issued this 28th day of August 1941.

LEON HENDERSON,
Administrator.

DEPARTMENT OF AGRICULTURE.

Surplus Marketing Administration.

DETERMINATION, APPROVED BY THE PRESIDENT OF THE UNITED STATES, WITH RESPECT TO AN ORDER REGULATING THE HANDLING OF IRISH POTATOES GROWN IN CERTAIN DESIGNATED COUNTIES IN IDAHO AND MALHEUR COUNTY, OREGON [1]

The Acting Secretary of Agriculture of the United States (hereinafter referred to as the "Acting Secretary"), having reason to believe that the execution of a marketing agreement and the issuance of an order would tend to effectuate the declared policy of Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), with respect to the establishment and maintenance of such orderly marketing conditions for Irish potatoes grown in Malheur County, Oregon, and the counties of Adams, Valley, Lemhi, Clark, and Fremont in the State of Idaho, and all of the counties in Idaho lying south of the aforesaid counties in Idaho, as would establish prices to the producers of such Irish potatoes at a level that would give such Irish potatoes a purchasing power with respect to articles that farmers buy equivalent to the purchasing power of such Irish potatoes during the base period, August 1919–July 1929, conducted a public hearing in Idaho Falls, Idaho, on December 19 and 20, 1940, and in Twin Falls, Idaho, on December 21, 1940, pursuant to notice duly given to all interested parties, on a proposed marketing agreement and a proposed order regulating such handling of such Irish potatoes as is in the current of interstate or foreign commerce, or which directly burdens, obstructs, or affects such commerce in such Irish potatoes; and at the aforesaid hearing all interested persons in attendance were afforded due opportunity to be heard concerning the proposed marketing agreement and the proposed order.

The marketing agreement was tentatively approved by the Acting Secretary on May 24, 1941. Subsequent to the tentative approval of the marketing agreement of May 24, 1941, handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping Irish potatoes covered by such order) of not less than fifty (50) percentum of the volume of the Irish potatoes covered by such order, produced within the production area defined in such order, refused or failed to sign the aforesaid tentatively approved marketing agreement:

Now, therefore, pursuant to the provisions of said act, it is hereby determined that:

(1) The aforesaid refusal or failure of said handlers to sign the aforesaid tentatively approved marketing agreement tends to prevent the effectuation of the declared policy of the act with respect to such Irish potatoes;

(2) The issuance of such order, which regulates the handling of such Irish potatoes in the same manner as the tentatively approved marketing agreement, is the only practical means, pursuant to said act, of advancing the interests of the producers of such Irish potatoes;

(3) The issuance of the aforesaid order is approved or favored by at least two-thirds of the producers who participated in a referendum conducted by the Acting Secretary and who, during the representative period determined by the Acting Secretary, were engaged, within the production area specified in said tentatively approved marketing agreement and the aforesaid order, in the production for market of the commodity specified therein; and

(4) The issuance of the aforesaid order is approved or favored by producers who participated in a referendum conducted by the Acting Secretary and who, during the representative period determined by the Acting Secretary, produced for market, within the production area specified in said order, at least two-thirds of the volume of such Irish potatoes, produced by all producers who participated in said referendum.

Issued at Washington, D. C., this 26th day of August 1941. Witness my hand and the seal of the Department of Agriculture.

[SEAL] GROVER B. HILL,
Acting Secretary of Agriculture.

Approved:

FRANKLIN D ROOSEVELT,
President of the United States.

IN THE MATTER OF TRUSTEES UNDER PENSION TRUST AGREEMENT, GENERAL UTILITY INVESTORS CORPORATION, ASSOCIATED POWER CORPORATION, NY PA NJ UTILITIES COMPANY, ASSOCIATED GAS AND ELECTRIC CORPORATION, AND ASSOCIATED GAS AND ELECTRIC COMPANY

ORDER CONSENTING TO WITHDRAWAL OF MOTION FOR MODIFICATION OF CONDITION IN COMMISSION'S ORDER

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 30th day of August, A. D. 1941.

The Commission having on June 29, 1939, issued its order in the above matter containing, among others, the following condition:

(4) Associated Power Corporation shall make no payments which will reduce the principal of its convertible obligations held by NY PA NJ Utilities Company to less than $340,000 (which is the principal amount due thereon after the cancellation mentioned in Paragraph (2) above), and shall not reduce its open account indebtedness to NY PA NJ Utilities Company below $300,000;

NY PA NJ Utilities Company, on March 2, 1940, having filed a motion for modification of the above condition so as to permit the dissolution and liquidation of Associated Power Corporation; and a hearing having been held on said motion; and

NY PA NJ Utilities Company, on August 8, 1941, having filed a request with this Commission for the withdrawal of said motion for modification of the above condition for the reason that affirmative action by the Commission on declarations and application filed with respect to the merger of Associated Power Corporation into NY PA NJ Utilities Company would effectuate the necessary modification; and the Commission having on this date issued its order permitting such declarations to become effective and granting such application (File 70-377);

The Commission consents to the withdrawal of such motion, and to that effect

It is so ordered.

IN THE MATTER OF TRACY DEVELOPMENT COMPANY AND NEW YORK STATE ELECTRIC & GAS CORPORATION

ORDER PERMITTING DECLARATIONS TO BECOME EFFECTIVE

The above-named parties, both subsidiaries of NY PA NJ Utilities Company, a registered holding company, having

filed declarations pursuant to the Public Utility Holding Company Act of 1935, and particularly sections 7 and 12 (f) and Rule U-43 of the Rules and Regulations promulgated thereunder, regarding the sale by Tracy Development Company of all its properties, real, personal and mixed, to New York State Electric & Gas Corporation in consideration of payment by the latter of the nominal sum of $1.00, and the assumption by the latter of the First Mortgage 6% Gold Bonds due October 1, 1944 of Tracy Development Company, as of December 31, 1936 being then in the principal amount of $116,000 (being as of the present time in principal amount of $114,000);

Said declarations having been filed on August 15, 1941 and an amendment having been filed subsequent thereto, such amendment having been filed on August 21, 1941;

Notice of the filing of such declarations having been duly given in the form and manner prescribed in Rule U-23 promulgated pursuant to said Act, and the Commission not having received a request for hearing with respect to said declarations within the period specified in said notice or otherwise, and not having ordered a hearing thereon; and

It appearing to the Commission that the Public Service Commission of the State of New York has consented to the transfer by Tracy Development Company of its assets to New York State Electric & Gas Corporation for the consideration hereinabove stated; but had not approved accounting entries to be made for the purpose of reflecting such acquisition on the books of New York State Electric & Gas Corporation, but has reserved jurisdiction for the purpose of passing upon such accounting entries;

The above-named parties having requested that the Commission advance the effective date of said declarations, as amended; and the Commission finding that the requirements of sections 7 and 12 (f) and Rule U-43 of the Rules and Regulations promulgated thereunder are satisfied, and that it is appropriate that the said declarations be permitted to become effective without, however, at this time, passing upon any accounting entries proposed to be made in connection therewith; and the Commission being satisfied that the effective date of such declarations, as amended, should be advanced;

It is hereby ordered, That pursuant to said Rule U-23 and the applicable provisions of said Act and subject to the terms and conditions prescribed in Rule U-24 that the aforesaid declarations as so amended be permitted to become effective forthwith, subject, however, to the condition, in accordance with the order of the Public Service Commission of the State of New York incorporated in said application, that no journal entries be made on the books of New York State Electric & Gas Corporation for the purpose of reflecting such acquisition of property unless and until such proposed entries shall have been approved by the Public Service Commission of the State of New York.

AMENDMENT NO. 1 TO THE ORDER, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE CHICAGO, ILLINOIS, MARKETING AREA [1]

H. A. Wallace, Secretary of Agriculture of the United States of America, pursuant to the powers conferred upon the Secretary by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937 (50 Stat. 246), issued, effective July 1, 1940, Order No. 41, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area, which order, as amended, was further amended, effective July 1, 1941,[2]

Paul H. Appleby, Acting Secretary of Agriculture, tentatively approved, on June 19, 1941, a marketing agreement, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area.

There being reason to believe that amendments to said tentatively approved marketing agreement, as amended, and to said order, as amended, would tend to effectuate the declared policy of said act, notice was given, on the 30th day of July 1941, of a public hearing which was held at Chicago, Illinois, beginning on August 4, 1941, at which time and place all interested parties were afforded an opportunity to be heard on a proposal to amend the tentatively approved marketing agreement, as amended, and the order, as amended.

After such hearing, handlers of more than fifty percent of the volume of milk covered by said order, as amended, which is marketed within the Chicago, Illinois, marketing area, refused or failed to sign a tentatively approved marketing agreement, as amended, regulating the handling of milk in such marketing area, in the same manner as said order, as amended by this amendment.

The requirements of section 8c (9) of said act have been complied with.

It is hereby found, upon the evidence introduced at the above-mentioned public hearing, said findings being in addition to the findings made upon the evidence introduced at the original hearing on said order and on said order, as amended, and being in addition to the other findings and determinations made prior to or at the time of the original issuance of said order (which findings are hereby ratified and affirmed, save only as such findings are in conflict with the findings hereinafter set forth):

§ 941.0 *Findings.* (a) That the prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to sections 2 and 8e of said act, are not reasonable in view of the prices of feeds, the available supplies of feed, and other economic conditions which affect the market supply of and demand for such milk, and that the minimum prices set forth in this amendment to said order, as amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(b) That the order, as amended, and as hereby amended, regulates the handling of milk in the same manner as and is applicable only to handlers defined in a marketing agreement, as amended, upon which a hearing has been held; and

(c) That the issuance of this amendment to the order, as amended, and all of its terms and conditions, as so amended, will tend to effectuate the declared policy of the acts.

Pursuant to the powers conferred upon the Secretary by said act, it is hereby ordered that Order No. 41, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area be and it is hereby amended as follows:

1. Delete § 941.5 (a) (2) and substitute therefor the following:

§ 941.5 *Minimum prices*—(a) *Class prices.*

* * * * * * *

(2) Class I milk: The price per hundredweight for Class I milk during each delivery period, except the delivery periods of May and June, shall be the price determined pursuant to paragraph (b) of this section, plus 70 cents; and during the delivery periods of May and June the price per hundredweight for Class I milk shall be the price determined pursuant to paragraph (b), plus 50 cents: *Provided,* That with respect to Class I milk disposed of under a program approved by the Secretary for the sale or disposition of milk to low-income consumers, including persons on relief, the price shall be $2.20 per hundredweight.

2. Delete § 941.5 (a) (3) and substitute therefor the following:

(3) Class II milk—The price per hundredweight for Class II milk during each delivery period, except the delivery periods of May and June, shall be the price determined pursuant to paragraph (b) of this section, plus 32 cents; and during the delivery periods of May and June the price per hundredweight for Class II milk shall be the price determined pursuant to paragraph (b) of this section plus 20 cents.

3. Delete § 941.5 (a) (5) and substitute therefor the following:

(5) Class IV milk—multiply by 3.5 the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received, and add 20 percent: *Provided,* That such price shall be subject to the following adjustments: Add 3½ cents per hundredweight for each full one-half cent that the price of dry skim milk for human consumption is above 5½ cents per pound, or subtract 3½ cents per hundredweight for each full one-half cent that the price of such dry skim milk is below 5½ cents per pound. For purposes of determining this adjustment the price per pound of dry skim milk to be used shall be the average of the carlot prices for dry skim milk for human consumption, f. o. b. manufacturing plant, as published by the United States Department of Agriculture for a Chicago area during the delivery period, including in such average the quotations published for any fractional part of the previous delivery period which were not published and available for the price determination of such dry skim milk for the previous delivery period. In the event the United States Department of Agriculture does not publish carlot prices for dry skim milk for human consumption, f. o. b. manufacturing plant, the average of the carlot prices for dry skim milk for human consumption, delivered at Chicago, shall be used. In the latter event the Class IV price shall be subject to the following adjustments: Add 3½ cents per hundredweight for each full one-half cent that the price of dry skim milk for human consumption, delivered at Chicago, is above 7½ cents per pound, or subtract 3½ cents per hundredweight for each full one-half cent that such price of dry skim milk is below 7½ cents per pound.

4. Delete § 941.5 (b) and substitute therefor the following:

(b) *Basic formula price to be used in determining Class I and Class II prices.* The basic formula price to be used in determining the Class I and Class II prices, set forth in this section, per hundredweight of milk shall be the price for Class III milk, determined pursuant to subparagraph (4) of paragraph (a) of this section, or that derived from the following formula, whichever is higher:

(1) Multiply the average wholesale price per pound of 92-score butter at Chicago for said delivery period as reported by the United States Department of Agriculture by six (6).

(2) Add 2.4 times the average weekly prevailing price per pound of "Twins" during said delivery period on the Wisconsin Cheese Exchange at Plymouth, Wisconsin: *Provided,* That if the price of "Twins" is not quoted on the Wisconsin Cheese Exchange the weekly prevailing price of "Cheddars" shall be deemed to be the prevailing price for "Twins" and shall be used in determining the price pursuant to this paragraph.

(3) Divide by seven (7), the sum so determined being hereafter referred to in this paragraph as the "combined butter and cheese value."

(4) To the combined butter and cheese value add 30 percent thereof.

(5) Multiply the sum computed in subparagraph (4) above by 3.5.

5. Delete § 941.5 (c) and substitute therefor the following:

(c) *Butterfat differential to handlers.* If any handler has purchased or received milk from producers containing more or less than 3.5 percent butterfat, such handler shall add or deduct, per hundredweight of milk, for each one-tenth of 1 percent butterfat above or below 3.5 percent, an amount computed as follows: to the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture for the delivery period during which the milk was received, add 20 percent and divide the result obtained by 10.

Now, therefore, the undersigned, pursuant to the powers conferred upon the Secretary by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended, for the purposes and within the limitations therein contained and not otherwise, hereby executes and issues this amendment to the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area, under his hand and the official seal of the Department of Agriculture, in the city of Washington, District of Columbia, on this 29th day of August, and declares this order, as amended, to be effective on and after the 6th day of September 1941.

ORDER, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE WASHINGTON MARKETING AREA

H. A. Wallace, Secretary of Agriculture of the United States of America, pursuant to the powers conferred upon the Secretary by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, issued, effective as of February 1, 1940, Order No. 45 regulating the handling of milk in the Washington marketing area,[1]

H. A. Wallace, Secretary of Agriculture, tentatively approved on January 18, 1940, a marketing agreement regulating the handling of milk in the Washington marketing area.

There being reason to believe that amendments to said tentatively approved marketing agreement and to said order would tend to effectuate the declared policy of the act, notice was given on the 16th day of June 1941 of a public hearing, which was held on June 23, 24, and 25 at Washington, D. C., at which times and place all interested parties were afforded an opportunity to be heard on a proposal to amend said tentatively approved marketing agreement and said order.

After such hearing, handlers of more than fifty percent of the volume of milk covered by said order, as hereby amended, which is marketed within the Washington marketing area, refused or failed to sign a tentatively approved marketing agreement, as amended, regulating the handling of milk in such marketing area.

The requirements of section 8c (9) of said act have been complied with.

It is hereby found upon the evidence introduced at the above-mentioned public hearing, said findings being in addition to the findings made upon the evidence introduced at the original hearing on said order, and being in addition to the other findings and determinations

[1] See Department of Agriculture, Surplus Marketing Administration, *infra.*

made prior to or at the time of the original issuance of said order (which findings are hereby ratified and affirmed, save only as such findings are in conflict with the findings hereinafter set forth):

§ 945.0 *Findings.* (a) That prices calculated to give milk produced for sale in the marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to section 2 and section 8e of the act, are not reasonable in view of the available supplies of feeds, the price of feeds, and other economic conditions which affect the supply of and demand for such milk and that the minimum prices set forth in this amendment to said order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and that the fixing of such prices does not have for its purpose the maintenance of prices to producers above the levels which are declared in the act to be the policy of Congress to establish;

(b) That the order, as hereby amended, regulates the handling of milk in the same manner as a marketing agreement upon which a hearing has been held;

(c) That each handler's prorata share of the cost of administration of the order, as hereby amended, as provided herein, is fair and equitable; and

(d) That the issuance of this amendment to the order, and all of the terms and conditions of the order, as hereby amended, will tend to effectuate the declared policy of the act.

Now, therefore, the undersigned, pursuant to the applicable provisions of Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended, hereby issues the following order, as amended, regulating the handling of milk in the Washington milk marketing area, and hereby orders that such handling of milk in the said marketing area as is in the current of interstate commerce, or as directly burdens, obstructs, or affects interstate commerce, shall, from the effective date hereof, be in compliance with the following terms and conditions:*

(1) Total receipts of milk from producers: Add together the total pounds of milk received from producers and produced by such handler;

(2) Net receipts of butterfat: Add together the pounds of butterfat contained in milk received from producers and produced by such handler and subtract the pounds of butterfat in milk and cream disposed of for the account of a cooperative association;

(3) Total pounds of butterfat accounted for in all classes: Add together the pounds of butterfat disposed of by such handler for each class use and subtract the pounds of butterfat received from other handlers and cooperative associations and classified pursuant to paragraph (c) of this section;

(4) Total pounds of milk to be classified: Divide the net receipts of butterfat in pounds or the total pounds of butterfat accounted for in all classes, determined pursuant to subparagraphs (2) and (3), respectively, of this paragraph, whichever is the larger, by the average test of milk received from producers;

(5) Class I milk: Multiply the weight of the various units disposed of by such handler which are classified as Class I milk by the number of units irrespective of the butterfat test thereof, add thereto the pounds of Class I milk delivered to other handlers, not including such milk disposed of for the account of the association, and classified pursuant to paragraph (c) of this section, subtract the pounds of Class I milk received from other handlers and associations of producers, and add any difference in pounds between the net receipts of butterfat and total pounds of butterfat accounted for in all classes determined pursuant to subparagraph (2) and (3), respectively, of this paragraph divided by the average test of milk received from producers by such handler;

(6) Class III milk: Subtract from the pounds of butterfat in the milk classified as Class III milk, including the pounds of butterfat in the milk or cream delivered to other handlers, not including the butterfat in such milk or cream disposed of for the account of the association, and classified as Class III milk pursuant to paragraph (c) of this section, the pounds of butterfat in milk or cream received from other handlers and associations of producers and classified as Class III milk pursuant to paragraph (c) of this section, and divide by the average test of milk received from producers; and

(7) Class II milk: Subtract the pounds of Class I and Class III milk combined from the total pounds of milk to be classified as determined pursuant to subparagraph (4) of this paragraph.*

§ 945.5 *Minimum prices*—(a) *Class prices.* Except as set forth in paragraph (b) of this section, each handler shall pay not less than the following prices, at the time and in the manner set forth in § 945.8, and subject to paragraphs (b), (c), and (d) of § 945.8 for milk purchased or received from producers and associations of producers.

(1) Class I milk: $3.57 per hundredweight during delivery periods prior to May 1, 1942, and thereafter $3.17 per hundredweight: *Provided*, That the price of Class I milk disposed of by a handler from a plant not having a health department permit to sell fluid milk or fluid cream in the District of Columbia shall

be $3.11 per hundredweight during delivery periods prior to May 1, 1942, and thereafter $2.71 per hundredweight: *And provided further*, That with respect to Class I milk disposed of under a program approved by the Secretary for the sale or disposition of milk to low-income groups including persons who are on relief, the price shall be not less than $2.395 per hundredweight during delivery periods prior to May 1, 1942, and thereafter $1.995 per hundredweight.

(2) Class II milk: $2.10 per hundredweight during delivery periods prior to May 1, 1942, and thereafter $1.90 per hundredweight: *Provided*, That the price of Class II milk disposed of by a handler from a plant not having a health department permit to sell fluid milk or fluid cream in the District of Columbia, the price shall be not less than $1.87 per hundredweight during delivery periods prior to May 1, 1942, and thereafter $1.67 per hundredweight, or the price of Class III milk as determined under subparagraph (c) of this paragraph.

(b) *Sales outside the marketing area.* In lieu of prices set forth in paragraph (a) of this section, the prices to be paid by handlers for Class I milk and Class II milk disposed of from those wagons or trucks which do not travel within the marketing area at any time while containing any milk or cream shall be such prices as were paid to farmers in the market where such milk was disposed of for milk of equivalent use, as ascertained by the market administrator: *Provided*, That with respect to Class I sales outside the marketing area for which no price can be ascertained on the basis provided for in this paragraph, then the price for Class I milk set forth in § 945.5 applicable for the plant at which such milk was received from producers shall apply.*

§ 945.6 *Application of provisions*—(a) *Handlers who are also producers.* No provision hereof shall apply to a handler who is also a producer and who purchases or receives no milk from producers or an association of producers, except that such handler shall make reports to the market administrator at such time and in such manner as the market administrator may request.

(b) Virginia handlers: Any handler whose plant is located in the State of Virginia and who is subject to such regulation of the Virginia Milk Commission as provides for the payment to producers of class prices identical with, or in excess of, the prices set forth in § 945.5 hereof, who complies with § 945.3 (a) (1) and (2) and (b) of this order, and who reports the total payments made for milk received from producers as directed by the market administrator, shall not be subject to other provisions of this order.*

§ 945.7 *Determination of prices to producers*—(a) *Computation of the value of milk for each handler.* For each delivery period the market administrator shall compute the value of milk disposed of by each handler receiving milk from other producers, as follows: multiply the hundredweight of milk in each class by the prices applicable pursuant to § 945.5, add the resulting values together, and divide by the hundredweight of milk received computed pursuant to § 945.4 (d) (1).

(b) *Announcement of prices to be paid producers and of other market information.* The market administrator shall mail to all handlers and shall publicly announce:

(1) For handlers who receive milk from producers who are not members of a cooperative association on or before the 11th day after the end of each delivery period with respect to each such handler who made the report pursuant to § 945.3 and as soon after the 11th day after the end of each delivery period as such information becomes available for any other such handler:

(i) The composite price for milk containing 4 percent butterfat, for each such handler for such delivery period as determined in accordance with paragraph (a) of this section;

(ii) The percentage of producer's deliveries for which premium rates apply pursuant to § 945.8; and

(iv) The names and addresses of all handlers for the delivery period.*

§ 945.8 *Payments to producers*—(a) *Time and method of payment.* On or before the 15th day after the end of each delivery period each handler shall make payment, subject to paragraphs (b), (c), (d), and (e) of this section, for the total value of milk received from producers and associations of producers during the delivery period computed pursuant to § 945.7, except as provided for in paragraph (f) of this section, as follows:

(1) To each producer except as provided in subparagraph (2) of this paragraph at not less than the composite price for milk containing 4 percent butterfat, computed pursuant to § 945.7.

(2) To a cooperative association for (i) milk which is caused to be delivered to a handler from producers by a cooperative association, and for which such cooperative association collects payment, a total amount equal to not less than the sum of the individual payments otherwise payable to such producers under subparagraph (1) of this paragraph minus an amount equal to the hundredweight of milk or milk equivalent of the cream disposed of for the account of the association times the respective class prices, subject also to paragraphs (b), (c), (d), and (e) of this section, weighted by the amount of milk in each class calculated pursuant to § 945.4 (d), and (ii) other milk or cream, in each use classification determined pursuant to § 945.4 (c), received by such handler for the account of an association of producers at not less than the class prices for milk containing 4 percent butterfat and the milk equivalent of cream obtained by dividing the butterfat content of such cream by the average test of milk received from producers by such handler, plus the weighted average premium per hundredweight payable to producers and new producers by such handler.

(b) *Errors in payment.* Errors in making the payment prescribed in this section shall be corrected not later than the date for making payments next following the determination of such errors.

(c) *Butterfat differential.* If any handler has purchased or received from any producer or association of producers during the delivery period milk having an average butterfat content other than 4.0 percent, such handler in making the payments pursuant to paragraph (a) of this section to such producer shall add to the uniform price for such producer or association of producers for each one-tenth of 1 percent of average butterfat content above 4.0 percent not less than, or shall deduct for each one-tenth of 1 percent of average butterfat content below 4.0 percent not more than, 5 cents per hundredweight. The butterfat content of milk received shall be determined by taking the average of not less than 3 separate butterfat tests made from fresh samples during each delivery period. The market administrator may designate an independent laboratory to make these tests. If a laboratory is designated by the market administrator, handlers shall pay their producers the butterfat differential in accordance with such tests. If no laboratory is designated by the market administrator, these tests may be conducted by an independent laboratory

agreed upon by the handlers and the producers, in which case the expense of such butterfat testing shall be borne jointly and equally by each handler and each producer delivering to him, and the producers' share may be deducted from the amount paid them by handlers, provided, the handler shall be responsible for any errors in these tests.

(d) *Location adjustments to producers.* In making payments pursuant to paragraph (a) of this section the handlers may deduct 18 cents per hundredweight with respect to milk received from producers who have been delivering their entire supply of milk for the preceding 4 full delivery periods at a plant in which no milk is bottled or finally processed for distribution to consumers and which is located more than 35 miles from the District of Columbia: *Provided*, That handlers may make such a deduction on all milk received at such plant from new producers whose milk is not received on truck routes transferred to such a plant.

(e) *Premiums to be paid by handlers.* In making the payments pursuant to paragraphs (a) (1) and (a) (2) of this section, handlers shall pay premium differentials determined by applying the premium rates set forth in this paragraph for each producer on the same percentage of each producer's total deliveries as that percentage which the combined total of Class I milk and Class II milk, as computed pursuant to § 945.4 (d), is to the total receipts from producers. The premium rates referred to in this paragraph shall be determined from the following schedule with respect to the cattle scores and farm scores recorded for each producer by the respective health departments requiring permits to sell milk to handlers in the marketing area:

Farm score	With cattle score under 95	With cattle score 95 or over, but under 98	With cattle score 98 or over
	Per cwt.	*Per cwt.*	*Per cwt.*
Under 80	$0.00	$0.00	$0.00
80.0–84.9	.00	.03	.09
85.0–89.9	.02	.08	.14
90.0–94.9	.08	.14	.20
95.0–97.9	.20	.26	.32
Over 97.9	.31	.37	.43

If more than one score has been recorded during any month, this simple average of the scores so recorded shall be used. Producers whose health department does not provide for cattle scores in their scoring system shall be considered as having a cattle score of 98 or over and the score given them by the health department shall be considered the farm score for the purpose of applying premiums under the above schedule.

(f) Handlers may distribute the payments they are required to make to producers for milk received by them on any uniform basis other than that specified above in this section that is approved by the market administrator.*

§ 945.9 *Expense of administration and marketing services*—(a) *Payments by handlers.* As his prorata share of the expense of the administration hereof, each handler, except those handlers exempted pursuant to § 945.6 (a), shall pay to the market administrator on or before the 15th day after the end of each delivery period an amount equal to 2 cents per hundredweight with respect to all milk received by him from producers, associations of producers, or produced by him during such delivery period, which was classified as Class I and Class II milk or such lesser amount, the exact amount to be determined by the market administrator: *Provided*, That each handler which is a cooperative association shall pay such prorata share of expense of administration only on such Class I milk and Class II milk actually received from producers at a plant operated by such cooperative association from which milk is disposed of in the marketing area. If the market administrator designates an independent agency to determine the butterfat content of milk received by handlers from producers as permitted under § 945.8 (c) each handler shall pay to the market administrator an amount equal to not more than 7½ cents per test, the exact amount to be determined by the market administrator: *Provided*, That one-half of any amount collected for such tests of any producer's milk may be deducted from the payments handlers are required to make the respective producers under § 945.8.

(b) *Marketing services.* If the market administrator designates an independent agency to determine the butterfat content of milk received by handlers from producers as permitted under § 945.8 (c) each handler shall deduct from his payments to each producer an amount equal to not more than 7½ cents per test the exact amount to be determined by the market administrator, and shall pay such deduction to the market administrator on or before the 15th day after the end of each delivery period. Such moneys shall be used by the market administrator to pay the independent laboratory for the verification of weight, sampling, and testing of milk received from producers.

(c) *Suits by market administrator.* The market administrator may maintain a suit in his own name against any handler for the collection of such handler's prorata share of expense set forth in this section.*

§ 945.10 *Effective time, suspension, or termination*—(a) *Effective time.* The provisions hereof, or any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended, or terminated, pursuant to paragraph (b) of this section.

(b) *Suspension or termination of order.* The Secretary may suspend or terminate this order or any provision hereof whenever he finds that this order or any provision hereof obstructs or does not tend to effectuate the declared policy of the act. This order shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all provisions hereof, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(1) The market administrator, or such other person as the Secretary may designate, shall (i) continue in such capacity until removed by the Secretary, (ii) from time to time account for all receipts and disbursements, and when so directed by the Secretary deliver all funds on hand, together with the books and records of the market administrator or such person, to such person as the Secretary shall direct, and (iii) if so directed by the Secretary execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

(d) *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions hereof the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.*

§ 22.23 *Special issuance of expired certificates.* (a) The holder of a lighter-than-air pilot certificate of private or commercial grade which has expired because of failure to secure the necessary flight time, may, upon application to any inspector, have the expired certificate endorsed as conveying the privileges of a student lighter-than-air pilot certificate until 1 year from the date of original expiration. After such endorsement, the holder may exercise all the privileges incident to a student lighter-than-air pilot certificate which has been endorsed to permit solo flight.

(b) The holder of an expired private or commercial lighter-than-air pilot certificate, if application is made within 1 year following its expiration, may secure a new private or commercial lighter-than-air pilot certificate, as the case may be, by showing that, as of the date of application, he has met the requirements set forth in § 22.22 for periodic endorsement of his certificate. If application is made more than 1 year following the expiration of a lighter-than-air pilot certificate, the holder thereof may secure a new private or commercial lighter-than-air pilot certificate by showing that, as of the date of application, in the case of a private pilot, he has met the requirements for original issuance of a private lighter-than-air pilot certificate set forth in §22.11, except for §22.115, and in the case of a commercial pilot, he has met the requirements for original issuance of a commercial lighter-than-air pilot certificate set forth in §22.12, except for § 22.125: *Provided*, That the applicant shall pass a written examination on the provisions of the Civil Air Regulations which may be appropriate to his certificate.

(c) The holder of an expired free balloon pilot certificate may secure a new certificate upon proof that he has passed a physical examination showing at least the same physical condition as that required for the issuance of a free balloon pilot certificate within the 14 months preceding the date of application.

[1] The designated period for lighter-than-air pilot certificates will ordinarily be a period of 1 year. This period will be referred to hereafter as the "endorsement period."

(d) No endorsement shall be made under subsection (a) of this section and no certificate shall be issued under subsections (b) or (c) of this section if the lighter-than-air pilot certificate expired while it was the subject of a revocation or suspension proceeding or expired because of the refusal of an inspector to endorse.

(e) In applying this section, the time within which physical examinations and flight time must be secured in order to comply with the periodic endorsement requirements shall be computed from the date of application for special issuance, rather than the date of expiration of the endorsement period as is provided in § 22.22.

§ 22.24 *Examinations and tests.*

§ 22.240 *General procedure.* The examinations and tests prescribed in this Part shall be conducted by an authorized officer or employee of the Administrator or by a properly qualified person designated for the purpose by the Administrator. § 22.242 *Reexaminations.* (a) An applicant for a private or commercial lighter-than-air pilot certificate or for a free balloon pilot certificate who has failed to pass any prescribed theoretical examination may apply for reexamination at any time after 30 days of the day of failure.

(b) An applicant for a private or commercial lighter-than-air pilot certificate or for a free balloon pilot certificate who has failed to pass any practical examination or test may apply for reexamination only after he has logged at least 3 additional hours of flight time.

If the student pilot possesses a free balloon pilot certificate such certification shall not be required;

(3) he shall have had a minimum of 35 hours of dual instruction in airships which shall include level flight, right and left turns, landings and take-offs and shall be deemed competent by his instructor to make such flight, which fact shall be certified to by his instructor on the student lighter-than-air pilot certificate.

(c) The holder of a student lighter-than-air pilot certificate shall not pilot any lighter-than-air aircraft carrying any person other than a certificated commercial lighter-than-air pilot, a member of the crew, or another certificated student lighter-than-air pilot whose presence in the aircraft is authorized by the instructor under whose direction the flight is being made. AMENDING TREASURY DECISION 4961

By virtue of and pursuant to the provisions of the Act of August 9, 1939 (U.S.C., Sup., title 49, chap. 11), and Subchapter B of Chapter 25 of the Internal Revenue Code, the last paragraph of § 468.0, and §§ 468.1 to 468.14, inclusive, and § 468.16 of Treasury Decision 4961,[1] approved January 5, 1940, are amended to read as follows:

§ 468.0 *Introductory.* * * *

The following regulations are hereby prescribed under the Act of August 9, 1939, and Subchapter B of Chapter 25 of the Internal Revenue Code, relative to the seizure and disposition of vessels, vehicles, and aircraft when engaged in the transportation, etc., of contraband firearms, and to the seizure and disposition of the contraband firearms involved.

(b) "Seizing officer," "officer seizing," etc., mean the Deputy Commissioner of Internal Revenue in charge of the Alcohol Tax Unit, the district supervisor, investigator in charge, investigator, or inspector of the proper district, or such other officer of internal revenue as may be specially authorized by the Commissioner pursuant to section 3720 of the Internal Revenue Code to seize property legally subject to seizure and who has made or adopted a seizure within the scope of the regulations in this part.

(c) "Secretary" means the Secretary of the Treasury.

(d) "Commissioner" means the Commissioner of Internal Revenue.

(e) "Deputy Commissioner" means the Deputy Commissioner of Internal Revenue in charge of the Alcohol Tax Unit.

(f) "District supervisor" means the person having charge of a supervisory district of the Alcohol Tax Unit of the Bureau of Internal Revenue.

(g) "Investigator in charge" means the person having charge of a subdivision of a supervisory district of the Alcohol Tax Unit of the Bureau of Internal Revenue.

(h) "Collector" means the collector of internal revenue.

(i) The terms defined in the Act of August 9, 1939, shall have the meanings thereby ascribed to them.*

*§§ 468.1 to 468.12, inclusive, issued under the authority contained in 53 Stat. 1291, I.R.C. Chap. 25, Subchap. B; 49 U.S.C., Sup., Chap. 11.

§ 468.2 *Reports of seizure.* An officer seizing or adopting the seizure of a conveyance or contraband firearm shall promptly make a complete written report to the district supervisor for the district in which the seizure was made. The report shall be in such form and submitted in such manner as the Deputy Commissioner may require.*

§ 468.3 *Custody and storage.* Any conveyance or contraband firearm seized under the law and the regulations in this part shall be in the custody of the district supervisor or investigator in charge for the district in which the seizure is made. The seizing officer shall store the conveyance or contraband firearm in a place designated, either generally or in the particular case, by the district supervisor or investigator in charge. The place of storage shall be in the judicial district in which the seizure occurred. Government storage facilities shall be utilized if practicable. If the conveyance is stored on private premises there shall be secured from the proprietor thereof and forwarded with the report to the district supervisor a receipt for the conveyance coinciding with the description in the report to the district supervisor. Conveyances or contraband firearms may not be used prior to forfeiture and award for official use.*

§ 468.4 *Appraisement.* The district supervisor or investigator in charge shall appraise the conveyance or firearm to determine the value at the time and place of appraisement, or if there is no market for the conveyance or firearm at the place of appraisement, the value in the principal market nearest the place of appraisement. The appraisal may be based upon the report of the seizing officer and any other information which may be acquired.*

§ 468.5 *Advertisement.* If the appraised value does not exceed $1,000, the district supervisor shall cause a notice of the seizure and of the intention to forfeit and sell or otherwise dispose of the property to be published once a week for at least three successive weeks in a newspaper of general circulation in the judicial district in which the seizure occurred. The notice shall not be inserted oftener than three times, unless the district supervisor is of the opinion that, because of circumstances peculiar to the particular case, a greater number of insertions will be to the advantage of the government. The notice shall

(a) Describe the conveyance or firearm seized, and show the registration, motor and serial numbers of the conveyance and the number or other identifying mark of the firearm, if any;

(b) Show the reason for, and time and place of, seizure; and

(c) State that any person desiring to claim the conveyance or firearm may, within 20 days from the date of first publication of the notice in the case of a conveyance and within 30 days from the date of first publication of the notice in the case of a firearm, file with the investigator in charge a claim for the conveyance or firearm and a bond for costs of judicial condemnation with satisfactory sureties in the sum of $250; and that unless such claim and bond are filed within the stated time the conveyance or firearm will be disposed of in accordance with law. The form of notice used in seizures under other laws by the Alcohol Tax Unit will, as far as applicable, be followed.*

§ 468.6 *Requirements as to claim and bond.* The bond and claim shall be in triplicate. The bond shall sufficiently identify the conveyance or firearm, shall run to the United States of America, have sureties approved by the district supervisor, and be conditioned that in case of condemnation of the conveyance or firearm the obligor shall pay all the costs and expenses of the proceeding to obtain the condemnation. Bond, Form 175, may be adapted for the purposes of the regulations in this part. When a claim and bond are received in proper form and the sureties are satisfactory, the district supervisor and the investigator in charge shall proceed in accordance with § 468.8. If the documents are not in satisfactory form when first received by the district supervisor or investigator in charge, a reasonable time for correction may be allowed. If correction is not made within a reasonable time the documents may be treated as nugatory, and the case may proceed as though they had not been tendered. The filing in proper form of the claim and bond does not entitle the claimant to possession of the conveyance or firearm but stops the summary proceedings.*

§ 468.7 *Summary forfeiture.* If the appraised value does not exceed $1,000, and the claim and bond mentioned in § 468.6 are not filed within the time required, the investigator in charge shall

[1] 5 F.R. 107.

[1] 5 F.R. 107.

execute, in quadruplicate, a declaration of forfeiture, one copy of which will be retained and the original and two copies forwarded to the district supervisor. The declaration should state that it is made in accordance with section 609 of the Tariff Act of 1930 in the case of a conveyance and with section 3724 of the Internal Revenue Code in the case of a firearm, and should follow, with necessary modifications, Form 1570. Thereafter the conveyance shall be disposed of in accordance with official instructions duly received by the district supervisor. No notice of public sale of any such forfeited firearm shall be given and no such firearm shall be sold at public sale. Any such firearm forfeited as provided herein shall be delivered by the district supervisor to the Director of Procurement for appropriate disposition.*

§ 468.8 *Presentation for judicial action.* If the appraised value is greater than $1,000, or if the appraised value is not more than $1,000 but a claim and satisfactory bond have been received (see § 468.6), the investigator in charge shall transmit a copy of the report of the seizing officer, and a supplemental report of any pertinent facts and circumstances additional to those disclosed by the seizing officer's report (see § 468.2), to the United States Attorney for the judicial district in which the seizure was made for institution of condemnation proceedings. If the seizure has been advertised the report shall include copies of the newspapers containing the advertisements. Immediately upon reference of a case to the United States Attorney, the district supervisor shall notify the Deputy Commissioner. If deemed appropriate, the Commissioner will, in the case of a conveyance, request the Director of Procurement to petition the court for delivery of the same for official use. See Treasury Decision 4625 (section 3), Cumulative Bulletin XV–1 (1936), page 492.*

§ 468.9 *Petitions for remission or mitigation of forfeiture.* Any person interested in any conveyance or firearm within the scope of the regulations in this part which has been forfeited by summary or administrative proceedings, or which is held for summary or administrative forfeiture, may within the time prescribed (see § 468.10) petition the Secretary for remission or mitigation of the forfeiture, and, if the conveyance or firearm has been sold, or delivered to a governmental agency for official use, for restoration of the proceeds of sale or such part thereof as may be claimed by the petitioner. The petition shall be filed in triplicate with the district supervisor or the investigator in charge.

The petition shall be addressed to the Secretary and shall be executed and sworn to by the petitioner. The petition shall state in clear and concise terms the following:

(a) A complete description of the conveyance or firearm, including registration number and motor and serial numbers of the conveyance and the number or other identifying mark of the firearm, if any, the name of the owner, and of the person from whom seized, as well as the date and place of seizure.

(b) The interest of the petitioner in the conveyance or firearm, which shall be established by bills of sale, contracts, mortgages, or other satisfactory documentary evidence filed with the petition.

(c) The circumstances, to be established by satisfactory proof, relied upon by the petitioner to justify remission or mitigation.

Where the forfeiture and sale have already occurred (see § 468.10), it must be established by satisfactory proof that the petitioner did not know of the seizure prior to the forfeiture, and was in such circumstances as prevented him from knowing thereof.

Where the petitioner is not the one who in person committed the act which caused the forfeiture, the petition should show how the property came into the possession of such other person, and what investigation, if any, was made of such person prior to parting with the conveyance or firearm. If such investigation was not made, the reason for not making it should be stated.*

§ 468.10 *Time for filing petition.* A petition for remission or mitigation of a forfeiture must be seasonably filed. Where the petition is for restoration of the proceeds of sale, it must be filed within three months after the date of sale. In the case of a conveyance or firearm which is retained or awarded for official use, the retention or delivery shall be regarded as a sale for the purposes of the regulations in this part.*

§ 468.11 *Handling of petition.* Where the petition is in proper form, the district supervisor shall, upon completion of any investigation necessary to determine the merits of the petition, forward to the Deputy Commissioner the original of the petition (including all supporting documents), together with the original of the investigation report, a copy of the case report, a copy of the appraisement list, and the district supervisor's recommendation. One copy of the petition will be retained by the district supervisor and one copy by the investigator in charge.*

§ 468.12 *Expenses: Disposition of proceeds.* Expenses in connection with a seizure and forfeiture within the scope of the regulations in this part shall be paid from the internal revenue appropriation. Where a conveyance is forfeited and sold through summary or administrative proceedings, the investigator in charge shall transmit to the collector with the gross proceeds of the sale a statement of all expenses incurred in connection with the seizure and forfeiture. The collector shall, after reimbursing the internal revenue appropriation for all such expenses, deposit the net proceeds as other internal revenue receipts.

Where a forfeited conveyance is transferred to another federal agency, such agency shall reimburse the internal revenue appropriation for the costs of hauling, transporting, towing and storage from the date of seizure to the date of delivery.

If the forfeiture and sale be by court proceedings, the sum recovered after deducting all appropriate charges for marshal's fees, court costs (where no bond was given therefor), etc., is payable to the collector. When such sum is received, the collector shall, after reimbursing the internal revenue appropriation for all expenses incurred in connection with the seizure before delivery of the conveyance to the marshal, deposit the net proceeds as other internal revenue receipts. The investigator in charge shall transmit to the collector immediately the conveyance is delivered to the marshal a statement of such expenses.*

§ 468.13 *Release on payment of appraised value.* If any person claiming an interest in any conveyance within the scope of the regulations in this part offers to pay the appraised value thereof (see § 468.4), and it appears that the claimant has in fact a substantial interest in the conveyance, the Commissioner may, subject to the approval of the Secretary, accept the offer and release the conveyance upon payment of the money, which shall be distributed in accordance with § 468.12.

The offer must be in writing, addressed to the Secretary, signed by the claimant, and submitted in triplicate to the district supervisor or investigator in charge. It must express assent to forfeiture of the conveyance and waive further proceedings. The offer shall be supported by such proof of ownership as in the opinion of the district supervisor is necessary. The district supervisor shall forward the offer to the Deputy Commissioner and retain custody of the conveyance, pending action on the offer and payment of the amount of the offer if it is approved. (53 Stat. 1291; 49 U.S.C., Sup., chap. 11)

§ 468.14 *Awards.* Any person not an officer of the United States who takes and seizes any conveyance within the scope of the regulations in this part, and reports the matter to an officer of internal revenue or who furnishes information leading to the forfeiture of such a conveyance, may be awarded compensation of 25 per centum of the net amount realized, but not exceeding $50,000 in any case which shall be paid out of the internal revenue appropriation. If a forfeited conveyance is destroyed in lieu of sale, or devoted to official use, compensation of 25 per centum of the appraised value, not to exceed $50,000 in any case, may be awarded and paid. Awards may not be paid out of the proceeds of sale.

When information of the existence of legal basis for seizure is furnished to an internal revenue officer in writing, the original will be forwarded immediately to the Commissioner. The officer shall retain a copy. If the information is furnished orally, a memorandum thereof will be made and likewise forwarded. However, appropriate action shall be taken in the case without awaiting instructions from the Commissioner.

The claim of an informer, or of a detector and seizor, shall be executed in triplicate on Form No. 211, appropriately amended. The original of the claim for compensation shall contain the signatures of the respective parties to the claim. Any number of additional copies necessary to complete the district supervisor's files may be required. The claim must show the date when, and the circumstances under which, the information was furnished or the conveyance was detected and seized, and fairly state all the pertinent facts of the case.

The district supervisor of the district in which the claim originated will attach a statement showing the following facts:

(a) The place of seizure; (b) the date of seizure; (c) the statutes on the violation of which the seizure was based; (d) a full description of the conveyance and any other property seized; (e) the names of the persons involved in the violation; (f) the net amount realized from the forfeitures; (g) the date when the amount realized was deposited, and the amount of the certificate of deposit; (h) the amount paid in compromise, if any, and the date of payment; (i) the amount of expenses payable from the internal revenue appropriation; and (j) if the conveyance was released upon payment of the appraised value, or the conveyance was devoted to official use, the appraised value, as well as costs and expenses incurred, or that would properly have been incurred had the ordinary procedure been followed.

The district supervisor shall indicate his approval or disapproval of the claim and shall certify whether or not the claimant was an officer of the United States, and if an informer, whether he furnished the original information in the case, and if a detector and seizor, whether the claimant actually detected and seized the conveyance, and in either case whether any person other than the claimant gave original information in the case.

Claims will be transmitted by the district supervisor to the Commissioner in duplicate. Where there is a decree or order of court designating the informer a copy thereof shall also be forwarded. In a contested case the district supervisor shall forward the applications of all claimants and furnish a statement of the facts bearing on the merits of the several claims together with his recommendation. (53 Stat. 1291; 49 U.S.C., Sup., chap. 11)

§ 468.16 *Procedural details.* With respect to procedural details not expressly covered by the regulations in this part, district supervisors and other officers will follow the procedure governing the forfeiture and disposition of personal property seized under other laws administered by the Alcohol Tax Unit, in so far as applicable and not inconsistent with these or any other regulations or any statutory provision, with such variations as may be appropriate in the circumstances.*

Commissioner of Internal Revenue.

[Docket No. 1658–FD]

IN THE MATTER OF NELSON L. GOULD, DOING BUSINESS AS GOULD SALES COMPANY, REGISTERED DISTRIBUTOR, REGISTRATION NO. 3634, RESPONDENT

NOTICE OF AND ORDER FOR HEARING

1. The Bituminous Coal Division finds it necessary, in the proper administration of the Bituminous Coal Act of 1937 (the "Act"), to determine

(a) whether or not Nelson L. Gould, doing business as Gould Sales Company, Registered Distributor, Registration No. 3634, the respondent in the above-entitled matter, whose address is 6334 S. Rosebury Avenue, St. Louis, Missouri, has

violated any provisions of the Act, the Marketing Rules and Regulations, the Rules and Regulations for Registration of Distributors, and the Distributor's Agreement (the "Agreement") executed May 17, 1939 and amended September 21, 1939, by the respondent, pursuant to Section 4 II (h) of the Act and subject to the Order of the National Bituminous Coal Commission dated March 24, 1939, in General Docket No. 12, which was adopted as an Order of the Bituminous Coal Division on July 1, 1939, or any orders or regulations of the Division; and

(b) whether or not the registration of said distributor should be revoked or suspended or other appropriate penalties should be imposed;

and for said purposes gives notice that information in possession of the Division is to the effect that:

2. During the period from October 1, 1940 to May 13, 1941, both dates inclusive, the respondent purchased various sizes of coal in substantial quantities, and secured, accepted, and retained distributor's discounts thereon from code member producers, which coal he resold to the Seidel Coal and Coke Company, a retailer, under whose control, financially or otherwise, said respondent was, in violation of paragraph (d) of the Agreement, and § 304.19 (c) of the Rules and Regulations for Registration of Distributors.

3. The transactions referred to in paragraph 2 hereof rendered no service of value to said code member vendors, the resales to the Seidel Coal and Coke Company having been entered into primarily for the purpose of unjustly enriching the respondent and the acceptance of such discounts as a distributor was in violation of paragraph (g) of the Agreement.

4. The respondent, in his application for registration with the Bituminous Coal Division as a distributor of bituminous coal dated May 17, 1939 and amended September 21, 1939, as described in paragraph 1 hereof, failed to state as required on pages 5 and 6 thereof, the financial relations with the Seidel Coal and Coke Company, and the failure to state that material fact was in violation of paragraph (f) of the Distributor's Agreement and contrary to § 304.11 (c) (6) of the Rules and Regulations for Registration of Distributors.

It is, therefore, ordered, That a hearing pursuant to § 304.14 of the Rules and Regulations for the Registration of Distributors, to determine whether the registration of said distributor should be revoked or suspended, or other appropriate penalties be imposed, be held on October 9, 1941, at 10 a. m. at a hearing room of the Bituminous Coal Division at Room 516, U. S. District Court Building, St. Louis, Missouri.

It is further ordered, That W. A. Shipman or any other officer or officers of the Bituminous Coal Division designated by the Director thereof for that purpose shall preside at the hearing in such matter. The officer so designated to preside at such hearing is hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to such places as he may direct by announcement at said hearing or any adjourned hearing or by subsequent notice, and to prepare and submit to the Director proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to said respondent, and to all other parties herein and to all persons and entities having an interest in such proceeding.

Notice is hereby given that answer to charges contained herein must be filed with the Bituminous Coal Division at its Washington Office or with any one of the field offices of the Division, within twenty (20) days after date of service thereof on the respondent; and that any respondent failing to file an answer within such period, unless the Director or the presiding officer shall otherwise order, shall be deemed to have admitted said charges and to have consented to the entry of an appropriate order on the basis of the facts alleged.

All persons are hereby notified that the hearing in the above-entitled matter and orders entered therein may concern, in addition to the matters specifically alleged herein, other matters incidental and related thereto, whether raised by amendment, petition for intervention, or otherwise, and all persons are cautioned to be guided accordingly.

Dated: September 2, 1941.

DEPARTMENT OF AGRICULTURE.

Surplus Marketing Administration.

DETERMINATION BY THE SECRETARY OF AGRICULTURE, APPROVED BY THE PRESIDENT OF THE UNITED STATES WITH RESPECT TO THE ISSUANCE OF AMENDMENT NO. 1 TO THE ORDER, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE CHICAGO, ILLINOIS, MARKETING AREA [1]

The Secretary of Agriculture of the United States, pursuant to the powers conferred upon the Secretary by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, issued, effective July 1, 1941, the

[1] See Title VII, Chapter IX, *supra*.

order, as amended,[2] regulating the handling of milk in the Chicago, Illinois, marketing area.

There being reason to believe that the issuance of an amendment to said order, as amended, would tend to effectuate the declared policy of the act, notice was given, on the 30th day of July 1941, of a public hearing which was held in Chicago, Illinois, beginning on the 4th day of August 1941, on proposed amendments to said order, as amended, and at said time and place all interested parties were afforded an opportunity to be heard on proposed amendments to said order, as amended.

After such hearing handlers of more than fifty (50) percent of the volume of milk covered by such order, as amended, and as amended by Amendment No. 1, which is marketed within the Chicago, Illinois, marketing area, refused or failed to sign a tentatively approved marketing agreement, as amended, upon which a hearing was held, regulating the handling of milk in the same area in the same manner as said order, as so amended.

The Secretary of Agriculture, pursuant to the powers conferred upon the Secretary by Public Act No. 10, 73d Congress, as amended and as reenacted by the Agricultural Marketing Agreement Act of 1937, hereby determines:

1. That the refusal or failure of said handlers to sign said tentatively approved marketing agreement, as so amended, tends to prevent the effectuation of the declared policy of the act;

2. That the issuance of proposed Amendment No. 1 to the order, as amended, is the only practical means pursuant to such policy of advancing the interests of the producers of milk which is produced for sale in the said area; and

3. That the issuance of proposed amendment No. 1 to the order, as amended, is approved or favored by over two-thirds of the producers who participated in a referendum conducted by the Secretary and who, during the month of April 1941, said month having been determined by the Secretary to be a representative period, were engaged in the production of milk for sale in said area.

In witness whereof, Claude R. Wickard, Secretary of Agriculture of the United States, has executed this determination, and has hereunto set his hand and caused the official seal of the Department of Agriculture to be affixed in the city of Washington, District of Columbia, this 28th day of August 1941.

DETERMINATION, APPROVED BY THE PRESIDENT OF THE UNITED STATES, WITH RESPECT TO AN ORDER, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE WASHINGTON MARKETING AREA[1]

The Secretary of Agriculture of the United States, pursuant to the powers conferred upon him by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937 (hereinafter called the "act"), issued on January 29, 1940, effective as of February 1, 1940, an order[2] regulating the handling of milk in the Washington marketing area.

The Under Secretary of Agriculture of the United States, having reason to believe that amendments to the said order would tend to effectuate the declared policy of the act, gave, on June 16, 1941, notice of a hearing, which was held on June 22, 23, 24, and 25, 1941, in Washington, D. C., and at said times and place conducted a public hearing at which all interested parties were afforded an opportunity to be heard on the proposed amendments to the said order.

After the said hearing and after the tentative approval, on August 25, 1941, of a marketing agreement (upon which a hearing was held) regulating the handling of milk in the same marketing area and in the same manner as the order, amended as proposed, handlers of more than fifty (50) percent of the volume of milk covered by such order, amended as proposed, which was produced for sale in the Washington marketing area, refused or failed to sign the tentatively approved marketing agreement:

Now, therefore, pursuant to the provisions of the said act, it is hereby determined that:

(1) The refusal or failure of said handlers to sign the aforesaid tentatively approved marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) That the issuance of the order, amended as proposed, is the only practical means, pursuant to such policy, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) That the issuance of the order, amended as proposed, is approved or favored by over two-thirds (⅔) of the producers who participated in a referendum conducted by the Secretary of Agriculture, and who, during the month of June 1941, said month having been determined to be a representative period, were engaged in the production of milk for sale in the said marketing area.

Issued at Washington, D. C., this 28th day of August 1941. Witness my hand and the seal of the Department of Agriculture.

CLAUDE R. WICKARD,
Secretary of Agriculture.

President of the United States.

[Docket No. 4571]

IN THE MATTER OF LIFE SAVERS CORPORATION, A CORPORATION

COMPLAINT

The Federal Trade Commission having reason to believe that the party respondent named in the caption hereof and hereinafter more particularly designated and described, since June 19, 1936, has violated and is now violating the provisions of subsections (a) and (d) of section 2 of the Clayton Act (U.S.C. title 15, section 13) as amended by the Robinson-Patman Act, approved June 19, 1936, hereby issues its complaint stating its charges with respect thereto as follows:

Count I

PARAGRAPH 1. Respondent Life Savers Corporation is a corporation organized and existing under and by virtue of the laws of the State of Delaware with its principal office and place of business located at Port Chester, New York.

PAR. 2. Respondent is now, and has been since June 19, 1936, engaged in the business of manufacturing and selling a candy confection known "Life Savers" for resale within the various states of the United States, the territories thereof, and in the District of Columbia. In the course and conduct of its said business respondent sells the aforesaid product to purchasers located in the various states of the United States and causes said products when sold to be shipped and transported from its place of business in the State of New York across state lines to the respective purchasers thereof located in each of the several states of the United States, the territories thereof, and in the District of Columbia. There is, and has been at all times mentioned herein, a constant current of trade in said product between respondent located in the State of New York and various purchasers located as aforesaid.

PAR. 3. In the course and conduct of its business as aforesaid, respondent has been and is now engaged in substantial competition in commerce with other manufacturers of candy confections, especially with the Beech-Nut Packing Company, which, for many years prior hereto, has been and is now engaged in selling and shipping such confections in commerce across state lines to purchasers thereof located in the various states of the United States and in the District of Columbia.

Respondent in the course and conduct of its business and since June 19, 1936, has sold its merchandise of like grade and quality to various purchasers among which are multiple retail outlets, department stores, single retail outlets and wholesalers. All such customers are invoiced Life Savers at a price of 65¢ a box less a discount of 20%, the cost of such goods to such customers being 52¢, which is the same price as that at which respondent's principal competitor, the Beech-Nut Packing Company, invoices its competitive product to such class of customers. Such multiple retail outlets, single retail outlets, department stores and the customers of such wholesalers are all competitively engaged with one another in the resale of such products.

PAR. 4. In the course and conduct of its said business, the respondent since February, 1938, has, in addition to the customary 20% discount, granted and paid secretly to some multiple retail outlet customers a quarterly rebate of 10% of the dollar volume of such customers' purchases. The respondent thereby has discriminated in price in favor of such multiple retail outlet customers and against competing single retail outlets, department stores and wholesalers. To other customers competitively engaged with such favored customers, the respondent has not paid or offered to pay and has refused any such rebate.

PAR. 5. The effect of the discrimination in price alleged in Paragraph 4 has been and may be substantially to lessen competition in the line of commerce in which respondent is engaged and to injure competition with respondent and with such customers of respondent who knowingly receive the benefit of such discrimination.

Such discrimination in price by respondent between different purchasers of commodities of like grade and quality in interstate commerce in the manner and form aforesaid is in violation of the provisions of subsection (a) of section 2 of the Act described in the preamble thereof.

Count II

PARAGRAPH 1. Paragraphs 1 and 2 of Count I are hereby adopted and made a part of this Count as fully as if herein set out verbatim.

PAR. 2. In the course and conduct of its business in commerce, respondent since February, 1938, has secretly paid and contracted to pay to approximately one hundred and fifty customers an amount calculated at 10% of the dollar volume of such customers' purchases as compensation and in consideration for services and facilities furnished by such customers in connection with the sale and offering for sale of Life Savers while refusing to make such payment available on proportionally equal terms to all competing customers, or on any terms to some of its 4,500 customers, competing in the distribution of such Life Savers. Such payment is for servicing retail stores covering the display and distribution of Life Savers and is not in addition to the price discrimination referred to in Count I hereof.

PAR. 3. It has been the policy of Life Savers Corporation as set forth in instructions from the Vice-President in Charge of Sales, to conceal from all except the favored customers the details of the agreements relating to compensation of customers for services connected with display facilities. District Managers have been instructed by the Sales Department that their Division Managers should deny to customers any knowledge of such allowances and under no circumstances to tell a customer to write to the respondent as that "more or less puts us on the spot".

PAR. 4. The respondent has endeavored to prevent the spread of the allowances to small customers even though such operators would give exclusive display. District Managers of respondent have refused small retail drug chains an opportunity to earn this display service allowance.

PAR. 5. Respondent in some instances grants compensation for services covering the prominent display and distribution of Life Savers to the extent of eight flavors, in other instances requiring that thirteen or some other number of flavors be so serviced and displayed. Such display service compensation agreements frequently, but not always, contemplate that such customer will no longer display any flavor of Beech-Nut mints or fruit drops.

PAR. 6. The above-described acts and practices of respondent are in violation of subsection (d) of section 2 of the Clayton Act as amended by the Robinson-Patman Act, approved June 19, 1936 (U.S.C. title 15, section 13).

Wherefore, the premises considered, the Federal Trade Commission on this 18th day of August, A. D. 1941, issues its complaint against said respondent.

NOTICE

Notice is hereby given you, Life Savers Corporation, respondent herein, that the 26th day of September, A. D. 1941, at 2 o'clock in the afternoon, is hereby fixed as the time, and the offices of the Federal Trade Commission in the City of Washington, D. C., as the place, when and where a hearing will be had on the charges set forth in this complaint, at which time and place you will have the right, under said Act, to appear and show cause why an order should not be entered by said Commission requiring you to cease and desist from the violations of the law charged in the complaint.

You are notified and required, on or before the twentieth day after service upon you of this complaint, to file with the Commission an answer to the complaint. If answer is filed and if your appearance at the place and on the date above stated be not required, due notice to that effect will be given you. The Rules of Practice adopted by the Commission with respect to answers or failure to appear or answer (Rule IX) provide as follows:

In case of desire to contest the proceeding the respondent shall, within twenty (20) days from the service of the complaint, file with the Commission an answer to the complaint. Such answer shall contain a concise statement of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.

* * * * *

Failure of the respondent to file answer within the time above provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.

If respondent desires to waive hearing on the allegations of fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact charged in the complaint to be true. Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence, or other intervening procedure, to find such facts to be true, and if in the judgment of the Commission such facts admitted constitute a violation of law or laws as charged in the complaint, to make and serve findings as to the facts and an order to cease and desist from such violations. Upon application in writing made contemporaneously with the filing of such answer, the respondent, in the discretion of the Commission may be heard on brief, in oral argument, or both, solely on the question as to whether the facts so admitted constitute the violation or violations of law charged in the complaint.

In witness whereof, the Federal Trade Commission has caused this, its complaint, to be signed by its Secretary, and its official seal to be hereto affixed, at Washington, D. C., this 18th day of August, A. D. 1941.

By the Commission.

(b) "Positions within the scope of the compensation schedules fixed by this Act" shall include all permanent positions, including positions in the field services, in the executive and legislative branches, in government-owned or government-controlled corporations, and in the municipal government of the District of Columbia, the compensation of which has been fixed on a per-annum basis, pursuant to the allocation of such positions to the appropriate grade either by the Civil Service Commission or by administrative action of the department or agency concerned, in accordance with the compensation schedules of the Classification Act of 1923, as amended, or the said schedules as adjusted by an authorized differential.

(c) "Quarter" shall mean the three months' period beginning on January 1, April 1, July 1, or October 1.

(e) "Current efficiency" shall mean the latest efficiency rating on record for the employee, made under a system of efficiency ratings prescribed or approved by the Civil Service Commission.

SECTION 2. In computing the periods of service required by the said section 7 for within-grade advancements there shall be credited to such service:

SECTION 3. In the use of funds available in any fiscal year, periodic salary advancements authorized by section 7 (b) of the Classification Act of 1923, as amended by the said act of August 1, 1941, shall take priority over salary advancements authorized for especially meritorious services by section 7 (f) of that Act, as amended. An additional within-grade compensation advancement authorized by the said section 7 (f) may be granted simultaneously with, or at any time prior to, the periodic increase to which the employee may be eligible under the said section 7 (b). A complaint having been filed with the Bituminous Coal Division on March

19, 1941, pursuant to the provisions of section 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, by District Board 12, alleging wilful violation by the Fancy Lump Coal Company, a partnership, a code member in District 12, of the Bituminous Coal Code and Rules and Regulations thereunder, as follows:

That the defendant with full knowledge of the requirements contained in the Schedule of Effective Minimum Prices for District 12 for Truck Shipments and with intent to violate the same and violation thereof, sold during the period between October 1, 1940, and March 1, 1941, over 500 tons of coal produced by the defendant at its mine (Mine Index No. 533) located at Bussey, Iowa, at prices below the effective minimum prices, more specifically 1526.16 tons of lump coal, egg coal and screenings at prices of $2.50 per ton for lump coal whereas the effective minimum price for such coals for truck shipments is $2.90; $2.40 per ton for egg coals [1] whereas the effective minimum price for such coals for truck shipment is $2.80; and $1.44, $1.34 and $1.10 per ton for screenings whereas the effective minimum price for such coals for truck shipment is $1.60; and further that improper allowances in the form of commissions had been granted to the Peewee Coal Company, a registered distributor, located at Des Moines, Iowa, on sales of this coal;

Pursuant to an Order of the Director and after notice to all interested persons, a hearing having been held in this matter on May 29, 1941, at a hearing room of the Division, Des Moines, Iowa;

Now, therefore, it is ordered, That the code membership of the defendant, Fancy Lump Coal Company, a partnership of Frank Reed, Leland Reed, Raymond Reed, Russell Driebelbein and Charles Brady, be and it hereby is revoked and cancelled;

And it is further ordered, That prior to any reinstatement of the defendant, Fancy Lump Coal Company, to membership in the Code, the defendant or each or any of the partners thereof, shall pay to the United States a tax in the amount of $1,290.62 as provided in Section 5 (c) of the Bituminous Coal Act of 1937.

[SEAL] H. A. GRAY,
Director.

[F. R. Doc. 41-6649; Filed, September 4, 1941; 10:12 a. m.]

[1] The complaint referred to a rail delivered price of $3.95 for "small" egg coals. However, $3.95 is the rail delivered price for large egg coals. Witness Reed, appearing on behalf of the defendant, offered no objection to the allegation. Therefore, the effective minimum price given is that for large egg or "range" coals.

§ 962.3 *Supplementary order*—(a) *Definition.* For the purpose of this Supplementary Order, "Warehouse" means any person who receives physical delivery of steel from a producer for sale or resale in the form received.

(b) *Limitation of deliveries to warehouses.* (1) After October 5, 1941, no Warehouse shall accept from a Producer any delivery of steel on consignment or otherwise until a quota has been established for such Warehouse, pursuant to paragraph (c), and no such delivery shall be made or accepted except within the limits of such quota.

(2) For the period between the effective date of this Supplementary Order and October 5, 1941, no Warehouse shall accept from a producer and no producer shall make to a Warehouse any delivery of any type of steel product in excess of one-third of the deliveries of such type of product by such producer to such Warehouse during the first quarter of 1941.

(c) *Quota.* On or before September 15, 1941, each Warehouse desiring to obtain a quota shall file in quadruplicate with the Director of Priorities a report in form prescribed by the Director. After such filing, the Director shall establish a quota for such Warehouse and shall notify such Warehouse as to the amount of such quota. The Director may from time to time establish a quota for any type of steel product and may vary the amount of any quota established for any product or group of products.

(d) *Assignment of preference rating to deliveries to warehouses.* The Director of Priorities will issue to each Warehouse for which a quota is established pursuant to paragraph (c) a certificate assigning a preference rating of A–9 to deliveries of steel to such Warehouse, within the limits of such quota. Such preference rating may be changed from time to time by the Director of Priorities.

(e) *Limitation of deliveries by warehouses.* Except as permitted by paragraph (f), no Warehouse shall make deliveries of alloy steel from its stock except on defense orders. After making provision for present and anticipated defense orders, and subject to the terms of General Preference Order M–21, a Warehouse may make deliveries of carbon steel from its stock to non-defense customers.

(f) *Exemption of small sales by warehouses.* A Warehouse may, during any calendar month, make deliveries of the materials in the quantities specified below, on any rated or unrated order, provided that the total amount of each such material delivered to all customers in this manner during any calendar month shall not exceed ten percent (10%) of the average monthly deliveries of each such material by the Warehouse to all customers during the first calendar quarter of 1941, and further provided that nothing contained in this paragraph shall be construed to excuse any person from complying with the applicable provisions of General Preference Order M–14, to conserve the supply and direct

Material	*Deliveries not to exceed*
(1) Alloy tool steel	50 lbs. per item
(2) Stainless steel	50 lbs. per item.
(3) Other alloy steel	300 lbs. per order.

(g) *Special instructions.* The Director of Priorities may from time to time issue specific directions to Warehouses requiring them to earmark stocks or to make deliveries during specified periods in fulfillment of contracts, commitments, or purchase orders for particular purposes or to particular persons. Such directions will be made primarily to insure satisfaction of all defense requirements of the United States, both direct and indirect, and they may be made, in the discretion of the Director of Priorities, without regard to any preference ratings assigned to particular contracts, commitments or purchase orders.

(h) *Effective dates.* This Supplementary Order shall take effect on the 3d day of September, 1941, and, unless sooner terminated by direction of the Director of Priorities, shall expire on the 30th day of November, 1941. AUGUST 25, 1941.

The Director of the Civilian Conservation Corps in letter addressed to the War Department Representative, C.C.C., Adjutant General's Office, under date of July 25, 1941 authorized effective that date substituting continuous enrollment in lieu of periodic enrollment, stating therein:

No change in the procedure for the selection of veteran enrollees is authorized except that they may be selected and enrolled at any time.

In harmony with this authority no change is contemplated in the basic "Instructions Governing the Selection of Veterans to Compose the Veterans Contingent of the Civilian Conservation Corps" released September 7, 1937[1] except as follows:

The Manager of the selecting agency will then inform the Corps Area Commander through the liaison representative of the number and location of such selectees. Upon receipt of this information the Corps Area Commander will advise the Manager of the selecting agency through the liaison representative of the time and place the veterans are to report, and upon being ordered to report the veteran will be charged to the requisition.

The last sentence of § 202.7 (a) referring to four enrollment periods as amended will be modified as follows:

§ 202.7 [Paragraph 7] *Enrollments, reenrollments, and replacements*—(a) *For period of 6 months.* * * * Enrollment of veterans will be on a continuous rather than a periodic basis.

Reference to enrollment periods in the first sentence of § 202.7 (b) will be eliminated and will read as follows:

(b) *Replacements at any time.* Replacements to fill vacancies may be made through selection and enrollment at any time.

Reference to enrollment periods in § 202.20 (a) [Paragraph 17] will be eliminated and in lieu thereof there will be substituted:

In the Matter of Rules and Regulations Governing the Settlement of Rates and Charges of Common Carriers by Water

At a Session of the Interstate Commerce Commission, Division Two, held at its office in Washington, D. C., on the 29th day of August, A. D. 1941.

It appearing, That by order dated May 12, 1941 the Commission on its own motion instituted an investigation to determine rules and regulations necessary in the public interest to govern the extension of credit in the settlement of rates and charges for the transportation of property by common carriers of property by water, subject to Part III of the Interstate Commerce Act, and to prevent unjust discrimination and undue prejudice and preference, as provided by Section 318 of that Act;

It further appearing, That by said order all common carriers by water subject to the provisions of the Interstate Commerce Act were ordered on or before June 5, 1941 to show to the Commission in writing any cause or reason why the Commission should not thereafter prescribe the rules and regulations appended to that order as Exhibit A;

And it further appearing, That all matters and things involved in the said investigation including answers and responses made by various respondents and other interested parties having had the consideration of Division Two, the said division on the date hereof now finds that the rules and regulations to govern the extension of credit in settlement of rates and charges as above described are necessary in the public interest and to prevent unjust discrimination and undue preference or prejudice, and that the rules and regulations appended as Exhibit A to the order dated May 12, 1941 should in certain respects be modified, amended and changed and shall be adopted and prescribed as so amended; and that reasonable, just and nondiscriminatory, nonprejudicial and nonpreferential rules and regulations are and for the future will be those hereinafter set forth;

It is ordered, That the following regulations shall become effective October 5, 1941, and shall continue in effect until further order of the Commission:

§ 310.1 *Relinquishment of freight in advance of payment of charges.* All common carriers of property by water subject to Part III of the Interstate Commerce Act, after having taken precautions deemed by them to be sufficient to assure payment of their freight charges within the credit periods hereinafter specified, such as examination of the credit rating of the person or persons undertaking to pay the freight charges or the obtaining of satisfactory surety bonds, are hereby authorized to relinquish possession of freight at destination or in advance of the payment of the tariff charges lawfully due thereon and to extend credit to those who undertake to pay such charges, as hereinafter authorized.*

*§§ 310.1 to 310.8, inclusive, issued under authority of sec. 318, 54 Stat. 949; 49 U.S.C 918.

§ 310.2 *Extension of credit for 48-hour period.* Except as otherwise provided in § 310.3, credit may be extended for a period not exceeding 48 hours, computed as provided in § 310.4.*

§ 310.3 *Extension of credit for 96-hour period.* When retention of possession of freight by the carrier until the tariff rates and charges thereon have been paid will retard prompt delivery or will retard prompt release of equipment or terminal facilities of the carrier, credit may be extended for a period not exceeding 96 hours, computed as provided in § 310.4.*

§ 310.4 *Computation of credit period.* (a) When the freight bill is presented to the person or persons undertaking to pay the charges prior to, or at the time of, delivery of the freight, the 48-hour and 96-hour periods of credit shall run from the first 12 o'clock midnight following delivery of the freight.

(b) When the freight bill is presented to the person or persons undertaking to pay the charges subsequent to the time the freight is delivered, the 48-hour and 96-hour periods of credit shall run from the first 12 o'clock midnight following presentation of the freight bill.

(c) Sundays and legal holidays, other than Saturday half holidays, may be excluded from the computation of the periods of credit.*

§ 310.5 *Presentation of freight bills; mailing.* (a) Except as otherwise provided in paragraph (b) of this section and in §§ 310.6 and 310.7, carriers shall present freight bills for all transportation charges to the person or persons undertaking to pay those charges as promptly as practicable but in every case prior to the second 12 o'clock midnight following delivery of the freight.

(b) When information sufficient to enable the carrier to compute the tariff charges is not available to the carrier at the point where it computes the charges, presentation of the freight bill may be delayed until such information is available. In such cases it shall be the duty of the shipper (or consignee, as the case may be) to present, and of the carrier to obtain, the information as promptly as practicable. If, in any case, the necessary information has not become available to the carrier at the point where it computes the charges within 15 days after delivery of the freight, carrier shall present the freight bill and collect charges based upon the best information in its possession and arrange for correction later when detailed information is furnished.

(c) The person or persons undertaking to pay freight charges may elect to have their freight bills presented by means of the United States mails. When mail service is so used, the time of mailing by the carrier shall be deemed to be the presentation of the bills. In case of dispute as to the time of mailing, the post mark shall be accepted as showing such time.*

§ 310.6 *Extension of credit for additional charges.* Where carrier has relinquished possession of freight and collected the amount of tariff charges represented in a freight bill presented by it as the total amount of such charges and another freight bill for additional charges is thereafter presented to the shipper the carrier may extend credit in the amount of such additional charges for a period of 30 days, to be computed as herein set forth, from the date of the presentation of the subsequently presented freight bill.*

§ 310.7 *Extension of credit for demurrage charges.* Where the amount of demurrage charges is determinable under average agreements made in accordance with tariff provisions the carrier may delay the presentation of bills for such demurrage charges for a period not to exceed 15 days from the expiration of the authorized demurrage period and may extend credit in the amount of the demurrage charges accruing during the demurrage period for 15 days from the presentation of the bill for such charges.*

§ 310.8 *Collection of freight charges; mailing.* Mailing by the person or persons paying the freight charges of valid checks, drafts, or money orders, which are satisfactory to the carrier, in payment of freight charges within the credit periods allowed, may be deemed to be the collection of the tariff charges within the credit period. In case of dispute as to the time of mailing, the post mark shall be accepted as showing such time.*

By the Commission, Division 2.

There was no indication of any straining or distortion of, or damage to, tank or joints.

Upon further consideration of the record and in the light of added facts disclosed, construction and use for trial service of five (5) additional tanks of tank cars, to comply with proposed shipping container specification 103C–AL, including A. (b) whether or not the registration of said distributor should be revoked or suspended or other appropriate penalties should be imposed;

and for said purposes gives notice that the Division has information to the effect that:

PETITION OF THE CONSUMERS' COUNSEL DIVISION FOR REDUCTION IN THE LEVEL OF EFFECTIVE MINIMUM PRICES OF COALS IN SIZE GROUPS 6-9, PRODUCED IN DISTRICT 4, FOR SHIPMENT INTO MARKET AREAS 4, 5 AND 7-21, PURSUANT TO SECTION 4 II (d) OF THE BITUMINOUS COAL ACT OF 1937

ORDER GRANTING CONTINUANCE

This proceeding was instituted by an original petition filed by the Consumers' Counsel Division on January 15, 1941. After several continuances had been granted upon the requests of various parties, the original petitioner on July 29, 1941, filed a Motion to Set Time For Hearing in which it alleged that the interests of consumers in certain market areas were "vitally and adversely affected by further postponement of this matter." Thereupon an Order was issued scheduling a hearing on September 3, 1941, in Washington, D. C. By a Motion filed August 29, 1941, petitioner requested a continuance of the hearing herein from September 3, 1941, to November 3, 1941, in which it stated that District Board No. 4 has not yet completed the collection of data for reclassification of the coals in District 4 which may be relevant to the issues herein; that through illness and resignation, its legal staff is presently handicapped; and that it is now engaged in the preparation of other hearings before this Division and therefore cannot do certain work which it deems necessary for a proper presentation of the matters involved herein.

The present proceeding has been pending a considerable period of time, and it is highly desirable that some final disposition of these matters be made. However, in view of the allegations contained in the Motion, a continuance for a short period may be justified.

It is therefore ordered, That the hearing heretofore scheduled in the above matter for September 3, 1941, be and it is hereby cancelled.

It is further ordered, That the hearing in the above matter be held at 10 o'clock in the forenoon of October 6, 1941, at the place heretofore designated and before the officers previously designated to preside at the hearing.

It is further ordered, That in the event petitioners fail to proceed at the hearing on October 6, 1941, they shall show cause why this proceeding should not be dismissed without prejudice.

UNITED STATES CIVIL SERVICE COMMISSION.

CONDITION OF THE APPORTIONMENT AT CLOSE OF BUSINESS SATURDAY, AUGUST 30, 1941

Important. Although the apportioned classified Civil Service is by law located only in Washington, D. C., it nevertheless includes only about half of the Federal Civilian positions in the District of Columbia. Positions in local post offices, customs districts and other field services outside of the District of Columbia which are subject to the Civil Service Act are filled almost wholly by persons who are local residents of the general community in which the vacancies exist. It should be noted and understood that so long as a person occupies, by original appointment, a position in the apportioned service, the charge for his appointment continues to run against his State of original residence. Certifications of eligibles are first made from states which are in arrears.

TITLE 29—LABOR

CHAPTER II—NATIONAL LABOR RELATIONS BOARD

PART 202—PROCEDURE UNDER SECTION 10 OF THE ACT FOR THE PREVENTION OF UNFAIR LABOR PRACTICES

AMENDMENTS TO NATIONAL LABOR RELATIONS BOARD RULES AND REGULATIONS—SERIES 2—AS AMENDED [1]

By virtue of the authority vested in it by the National Labor Relations Act, approved July 5, 1935, the National Labor Relations Board hereby issues the following amendments to its Rules and Regulations—Series 2—as amended (General Rules and Regulations), which it finds necessary to carry out the provisions of said Act. Said amendments to the Rules and Regulations—Series 2—as amended—shall become effective upon the signature of the original amendments by the members of the Board, and upon the publication thereof in the FEDERAL REGISTER.

Sections 202.32, 202.33, 202.35, 202.37 Rules and Regulations—Series 2—as amended shall read as follows:

§ 202.32 *Intermediate report and transfer of case to the board.* After a hearing for the purpose of taking evidence upon a complaint, the Trial Examiner shall prepare an Intermediate Report. Such report shall contain (a)

[1] Issued under the authority contained in secs. 6 (a), 49 Stat. 452; 29 U.S.C., Sup., 156.

findings of fact, and (b) recommendations as to what disposition of the case should be made, which may include, if it be found that the respondent has engaged in or is engaging in the alleged unfair labor practice, a recommendation for such affirmative action by the respondent as will effectuate the policies of the Act. The Intermediate Report shall be transmitted to the Chief Trial Examiner, who shall thereupon file the original of the Intermediate Report with the Board, and cause a copy thereof to be served upon each of the parties. Upon the filing of the Intermediate Report, the Board shall enter an order transferring the case to the Board and shall serve copies of the order, setting forth the date of such transfer, upon each of the parties and the Regional Director.

The charge upon which the complaint was issued and any amendments thereto, the complaint and any amendments thereto, notice of hearing, answer and any amendments thereto, motions, rulings, orders, the stenographic report of the hearing, stipulations, exhibits, documentary evidence, and depositions, together with the Intermediate Report and exceptions, shall constitute the record in the case.

§ 202.33 *Exceptions to the record and proceeding.* Within thirty days from the date of the entry of the order transferring the case to the Board, pursuant to § 202.32, any party may file with the Board at Washington, D. C., an original and four copies of a statement in writing setting forth such exceptions to the Intermediate Report or to any other part of the record or proceeding (including rulings upon all motions or objections) as he relies upon, together with the original and four copies of a brief in support thereof. Immediately upon the filing of the statement of exceptions the party filing the same shall serve a copy thereof upon each of the other parties and shall file a copy with the Regional Director. Upon proper cause shown, the Board may extend the period within which to file a statement of exceptions or brief.

No matter not included in a statement of exceptions may thereafter be objected to before the Board, and failure to file a statement of exceptions shall operate as a submission of the case to the Board on the record.

Should any party desire permission to argue orally before the Board, request therefor must be made in writing to the Board within twenty days after the date of the entry of the order transferring the case to the Board (or in Board cases the date of filing the Intermediate Report), pursuant to § 202.32. The Board shall notify the parties of the time and place for oral argument, if such permission is granted.

§ 202.35 *Procedure before the board.* Upon the expiration of the period for filing a statement of exceptions and brief, as provided in § 202.33, the Board may decide the matter forthwith upon the record, or after oral argument, or may reopen the record and receive further evidence before a member of the Board or other agent or agency, or may close the case upon compliance with the recommendations of the Intermediate Report, or may make other disposition of the case.

Where the Trial Examiner has found in his Intermediate Report that the respondent has not engaged in and is not engaging in any of the alleged unfair labor practices affecting commerce, and no exceptions have been filed within the period for filing a statement of exceptions as provided for in § 202.33, the case shall be considered closed. The Board may, upon motion made within a reasonable period and upon proper cause shown, reopen the record for further proceedings in accordance with this section.

§ 202.37 *Action of the Board after a hearing; filing exceptions to the intermediate report; oral argument.* After a hearing for the purpose of taking evidence upon the complaint in any proceeding over which the Board has assumed jurisdiction in accordance with § 202.36, the Board may:

(a) direct that the Trial Examiner prepare an Intermediate Report, in which case the provisions of §§ 202.32 to 202.35 inclusive, shall in so far as applicable govern subsequent procedure, and the powers granted to Regional Directors in such provisions shall for the purpose of this Section be reserved to and exercised by the Board; or

(b) reopen the record and receive further evidence before a member of the Board, or other agent or agency; or

(c) issue proposed findings of fact, proposed conclusions of law and proposed order; or

(d) make other disposition of the case.

Within thirty days from the date of filing the Intermediate Report pursuant to paragraph (a) of this Section, or from the date of issuance of proposed findings of fact, proposed conclusions of law, and proposed order, pursuant to paragraph (c) of this Section, any party may file with the Board at Washington, D. C., an original and four copies of a statement in writing setting forth such exceptions to the Intermediate Report, or to the proposed findings, conclusions and order, as the case may be, or to any other part of the record or proceeding (including rulings upon all motions or objections) as he relies upon, together with the original and four copies of a brief in support thereof. Immediately upon the filing of the statement of exceptions and brief the party filing the same shall serve copies with the Regional Director. Upon proper cause shown, the Board may extend the period within which to file a statement of exceptions or brief.

Should any party desire permission to argue orally before the Board, request therefor must be made in writing to the Board within twenty days after the date of the Intermediate Report or the date of the proposed findings, conclusions, and order, as the case may be. The Board shall notify the parties of the time and place for the oral argument, if such permission is granted. Thereafter the Board shall forthwith decide the matter or make other disposition of the case.

Signed at Washington, D. C., this 28th day of August 1941.

PART 333—MINIMUM PRICE SCHEDULE, DISTRICT NO. 13

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 13 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR CERTAIN COALS PRODUCED IN DISTRICT NO. 13

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for coals produced by certain mines in District No. 13; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with this Division in the above-entitled matter; and

It appearing that this action is necessary in order to effectuate the purposes of the Act:

It is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith, § 333.6 (*General prices*) is amended by adding thereto Supplement R–I, § 333.7 (*Special prices—(a) Prices for shipment to all railroads and for exclusive use of railroads*) is amended by adding thereto Supplement R–II, § 333.7 (*Special prices—(c) Prices for shipment by railroad, applicable to all coal sold for steamship vessel fuel*) is amended by adding thereto Supplement R–III, § 333.24 (*General prices*) is amended by adding thereto Supplement R–IV, § 333.25 (*Special prices—(b) Prices for shipment to all railroads for locomotive fuel, station heating, power plants and other uses*) is amended by adding thereto Supplement R–V, § 333.34 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T–I, and § 333.43 (*General prices in cents per net ton for shipment into all market areas*) is amended by adding thereto Supplement T–II, which supplements are hereinafter set forth and hereby made a part hereof.

The Rock Creek Mine of Perrin & Horseley (W. E. Horseley) in District No. 13, listed in the original petition, was not included in the attached truck supplement, designated as "Supplement T," for the reason that the Division has no record of the acceptance of a code membership by Perrin & Horseley (W. E. Horseley). Certain other mines in District No. 13 listed in the original petition have not been included in the attached truck supplement, designated as "Supplement T," for the reason that in prior proceedings before the Division, while the said mines were operated by the predecessors of the present operators, minimum prices for the coals produced at the said mines were established.[1]

[1] The following mines listed in the original petition have been omitted from the attached truck supplement, designated as "Supplement T," because minimum prices have been established for the coals produced at the said mines:

TITLE 41—PUBLIC CONTRACTS

CHAPTER II—DIVISION OF PUBLIC CONTRACTS

PART 202—MINIMUM WAGE DETERMINATIONS

IN THE MATTER OF AN EXTENSION OF THE DETERMINATION OF THE PREVAILING MINIMUM WAGE IN THE LEATHER AND SHEEP-LINED JACKETS INDUSTRY

This matter is before me pursuant to section 1 (b) of the Act of June 30, 1936, Public No. 846, 74th Congress (49 Stat. 2036; 41 U.S.C. Sup. III 35), entitled "An Act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes", otherwise known as the Walsh-Healey Public Contracts Act.

On March 6, 1941, the Administrator of the Division of Public Contracts issued a notice of opportunity to show cause (6 F.R. 1348), why my decision dated April 28, 1938 (3 F.R. 895) in the Matter of the Determination of the Prevailing Minimum Wage in the Leather and Sheep-Lined Jackets Industry, should not be amended to include the manufacture of all leather, leather trimmed, and sheep-lined garments for men, women or children.

The proposed extension of the determination to include the manufacture and supply of the above named products was based upon evidence before the Department to the effect that these products are manufactured by substantially the same manufacturers as are the other commodities presently subject to the minimum wage determination for the Leather and Sheep-Lined Jackets Industry and that the same minimum wage prevails in the manufacture of the commodities named.

The notice of opportunity to show cause was sent to trade unions, trade publications, to trade associations in the field, and to members of the industry who have previously shown an interest in the wage determination. Notice was given to all other interested parties by publication in the FEDERAL REGISTER (6 F.R. 1348). No objections to the proposal have been filed.

I have examined all the evidence before the Department, including the notice of opportunity to show cause in this matter, and it is my opinion that the prevailing minimum wage for the manufacture of the commodities named above is 42.5 cents per hour or $17.00 per week of forty hours, and I so find. Therefore,

I hereby determine:

§ 202.14 *Leather and sheep-lined jackets.* The minimum wage for employees engaged in the performance of contracts with agencies of the United States Government, subject to the provisions of the Act of June 30, 1936, Public No. 846, 74th Congress (49 Stat. 2036; 41 U.S.C. Sup. III 35), for the manufacture and supply of all leather, leather trimmed, and sheep-lined garments for men, women, or children, shall be 42.5 cents per hour or $17.00 per week of forty hours, arrived at either upon a time or piece rate basis.

This amended determination shall supersede the determination contained in my decision of April 28, 1938, In the Matter of the Determination of the Prevailing Minimum Wage in the Leather and Sheep-Lined Jackets Industry (3 F.R. 895), and shall be effective, and the minimum wage hereby established shall apply to all such contracts for which contracting agencies of the United States have initiated negotiations or solicited bids, as the case may be, on and after September 19, 1941.

Dated: September 4, 1941.

[SEAL] FRANCES PERKINS,
Secretary.

PART 202—MINIMUM WAGE DETERMINATIONS

IN THE MATTER OF AN AMENDMENT TO AND THE EXTENSION OF THE DETERMINATION OF THE PREVAILING MINIMUM WAGES IN THE DRUG AND MEDICINE INDUSTRY

This matter is before me pursuant to section 1 (b) of the Act of June 30, 1936 (49 Stat. 2036; 41 U.S.C. Sup. III 35), entitled "An Act to provide conditions for the purchase of supplies and the making of contracts by the United States and for other purposes", otherwise known as the Walsh-Healey Public Contracts Act.

On August 6, 1941, the Administrator of the Division of Public Contracts issued a notice of opportunity to show cause (6 F.R. 3994) why my decision dated July 19, 1939 (4 F.R. 3402) In the Matter of the Determination of the Prevailing Minimum Wages in the Drug and Medicine Industry, should not be (1) extended to coincide with the definition of the Drug, Medicine, and Toilet Preparations Industry as contained in the wage order effective July 7, 1941 (6 F.R. 3008) issued by the Administrator, Wage and Hour Division, pursuant to the provisions of the Fair Labor Standards Act of 1938, and (2) amended by increasing the prevailing minimum wage as determined in my decision of July 19, 1939, from 37.5 cents to 40 cents per hour.

The proposed extension and amendment was predicated upon evidence before the Department of Labor that the Drug, Medicine, and Toilet Preparations Industry, as defined in the aforementioned wage order of the Administrator of the Wage and Hour Division, is predominantly interstate in character and further upon the resultant presumption that the said wage order had had the effect of establishing 40 cents per hour as the prevailing minimum wage in that industry within the meaning of section 1 (b) of the Walsh-Healey Public Contracts Act.

The notice of opportunity to show cause was sent to known members of the industry, trade unions, trade publications, and to trade associations. Notice was also given to interested parties through the national press and by publication in the FEDERAL REGISTER (6 F.R. 3994). No objection or protest to the proposed extension and amendment has been filed.

Upon consideration of the foregoing and all of the facts and circumstances, I hereby determine:

§ 202.28 *Drug and medicine industry.* The minimum wage for employees engaged in the performance of contracts with agencies of the United States, subject to the provisions of the Act of June 30, 1936 (49 Stat. 2036; 41 U.S.C. Sup. III 35), for the manufacture or packaging of any one or more of the following products of the Drug, Medicine, and Toilet Preparations Industry shall be 40 cents per hour or $16.00 per week of forty hours, arrived at either upon a time or piece work basis:

(a) Drugs or medicinal preparations (other than food) intended for internal or external use in the diagnosis, treatment, or prevention of disease in, or to affect the structure or any function of, the body of man or other animals;

(b) Dentifrices, cosmetics, perfume, or other preparations designed or intended for external application to the person for the purpose of cleansing, improving the appearance of, or refreshing the person;

Provided, That the foregoing shall not be deemed to include the manufacture or packaging of shaving cream, shampoo, essential (volatile) oils, glycerine and soap, or the milling or packaging without further processing of crude botanical drugs.

This determination shall be effective and the minimum wage hereby established shall apply to all contracts sub-

---

[6 F.R. 2990.

ject to the aforesaid Act of June 30, 1936, bids for which are solicited or negotiations otherwise commenced on and after September 19, 1941.

Nothing in this determination shall affect such obligations for the payment of minimum wages as an employer may have under the Fair Labor Standards Act of 1938 or any wage order thereunder, or under any other law, or agreement, more favorable to employees than the requirements of this determination.

Dated: September 4, 1941.

NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 4th day of September, A. D. 1941.

Notice is hereby given that the Securities and Exchange Commission adopted an order on the 4th day of September, 1941, directing that a hearing pursuant to section 11 (b) (1) of the Public Utility Holding Company Act of 1935 be held with respect to Denis J. Driscoll and Willard L. Thorp, Trustees of Associated Gas and Electric Corporation, at the offices of the Securities and Exchange Commission, 1778 Pennsylvania Avenue NW., Washington, D. C., at 10 A. M., on the 28th day of October, 1941.

Said order makes respondents in said proceedings Denis J. Driscoll and Willard L. Thorp, as Trustees of Associated Gas and Electric Corporation; and, after describing the holding company system of said respondents, expresses certain tentative conclusions with respect thereto, among which are that the said holding company system is not confined in its operations to those of a single integrated public utility system, together with such additional systems and other businesses as can be retained under the applicable standards of section 11 (b) (1) of said Act.

Said order provides that respondents shall file their answer to the allegations of said order on or before the 17th day of October, 1941, for the purposes and in the manner more fully set out in the order.

On the basis of the tentative conclusions set forth in said notice of and order for hearing, said order provides that a hearing be held at the time and place hereinbefore stated, at which hearing the respondents and any other interested persons shall be given an opportunity to be heard with respect to the matters therein set forth, and with respect to any issues raised in and matters presented by respondents' answer, and at which hearing the respondents are directed to show cause why an order or orders should not be entered, pursuant to section 11 (b) (1) of said Act, requiring the divestment of properties, securities and other assets for the purpose of limiting the operations of respondents' holding company system as required by the standards of section 11 (b) (1) of said Act, and for the purpose of determining what steps and what action is necessary for that purpose.

Said order further provides that:

(1) At the outset of said hearing respondents shall show cause why an immediate order should not be entered requiring the divestment by the respondents of all their interests in those companies operating in states other than New York, Pennsylvania and New Jersey, which companies are more fully set forth by states in paragraph 6 of said order;

(2) Thereafter there will be considered what evidence should be adduced, what findings should be made and what order or orders should be entered by the Commission, either pursuant to the statements made in respondents' answer or otherwise, in order to limit the operations of the holding company system of the respondents with respect to the properties located in the States of New York, Pennsylvania and New Jersey, which may be retained under the applicable standards of section 11 (b) (1) of the Act, including specifically a determination: (a) of the number of integrated public utility systems, if any, under the control of respondents within the States of New York, Pennsylvania and New Jersey, (b) as to which of such integrated public utility systems, if any, is to be considered as the "single integrated public utility system" retainable under section 11 (b) (1) of said Act, and (c) of the extent, if any, to which additional integrated public utility systems and other businesses may, upon a proper showing, be retained under common con-

trol with any such single integrated public utility system under the applicable standards of section 11 (b) (1) of the Act.

(3) Consideration will also be given, and the respondents and other interested persons shall have an opportunity to be heard, with respect to the time and manner for disposition of any other issues which may be presented in these proceedings, particularly with respect to the appropriate procedure for expediting the determination of the issues herein.

Reference is made to said notice of and order for hearing for a more complete statement of the various matters therein set forth, and a copy of said notice of and order for hearing is on file and open to public inspection at the office of the Securities and Exchange Commission in Washington, D. C., and a copy of said notice of and order for hearing may be had upon written request to the Secretary of said Commission, and said notice of and order for hearing is hereby made a part of this notice as if completely set forth herein.

Notice of said hearing is hereby given to the respondents, each of their subsidiaries and each of the companies in which said respondents have an interest and which are specifically named in the order, and to all other persons including security holders of Associated Gas and Electric Corporation, of its subsidiaries, all States, municipalities, and political subdivisions of States within which are located any utility assets owned or operated by any of the subsidiaries of said respondents, or companies in which respondents have some interest and which are named in the order, and all State Commissions, State securities commissions and all agencies, authorities or instrumentalities of one or more states, municipalities or other political subdivisions having jurisdiction over the respondents or over any of the businesses, affairs or operations of any of the subsidiary or affiliated companies of respondents.

Said order further provides that any person proposing to intervene in said proceedings shall file with the Secretary of the Securities and Exchange Commission on or before the 17th day of October, 1941, his request or application therefor as provided by Rule XVII of the Rules of Practice of the said Securities and Exchange Commission, and any such request or application may state the position of such proposed intervener with respect to the allegations and tentative conclusions set forth in the order. The order provides that nothing therein is to be deemed to require any interested person to intervene as a prerequisite to being heard on matters affecting his interests.

By order of the Securities and Exchange Commission this 4th day of September 1941.

[SEAL] ORVAL L. DUBOIS,
Recording Secretary.

[Wheat 507, Supp. No. 2[1]]

PART 728—WHEAT

SUBPART C—1941

Regulations Pertaining to Wheat Marketing Quotas for the 1941 Crop of Wheat

By virtue of the authority vested in the Secretary of Agriculture by Title III of the Agricultural Adjustment Act of 1938 (Public Law No. 430, 75th Congress, approved February 16, 1938; 52 Stat. 31; 7 U.S.C. 1301 *et seq.*), as amended, and Public Law No. 74, 77th Congress, approved May 26, 1941, the regulations pertaining to wheat marketing quotas for the 1941 crop year (form Wheat 507) are amended as follows:

Paragraph (a), § 728.251[2] is amended to read as follows:

§ 728.251 *Payment of penalties by producers*—(a) *Producers liable for payment of penalties.* Each producer having an interest in the wheat produced in 1941 on any farm for which a farm marketing excess is determined shall be liable to pay the amount of the penalty on the farm marketing excess. The amount of the penalty which any producer shall pay shall nevertheless be reduced by the amount of the penalty which is paid by another producer or a buyer of wheat produced on the farm. The amount of the penalty for which any producer shall remain liable shall be reduced to that proportion of the entire penalty on the farm marketing excess which his share in the 1941 crop of wheat on the farm bears to the total 1941 crop of wheat on the farm where it is determined that (1) the share of such producer in the wheat crop will be handled by or for him separately from the share of any other producer on the farm and (2) the producer, although able and willing to pay his proportionate share of the penalty or, in accordance with § 728.256 or § 728.257, to store or to deliver to the Secretary of Agriculture the number of bushels required to postpone or avoid the payment of such proportionate share, is unable to arrange with the other wheat producers on the farm, within thirty calendar days after the threshing of the 1941 crop of wheat on the farm is completed, for the payment of the penalty on the entire farm marketing excess or the disposition of such farm marketing excess.

Section 728.265 is amended to read as follows:

§ 728.265 *Records to be kept and reports to be made by producers.* Each person who in 1941 harvests wheat which is subject to the provisions of these regulations shall, in conformity with section 373 (b) of the Act, keep the records and make the reports prescribed by this section, which the Secretary of Agriculture hereby finds to be necessary to enable him to carry out, with respect to wheat, the provisions of Title III of the Act and of the Resolution. The operator of each farm in connection with which a farm marketing excess is determined and for which a marketing card is not issued under § 728.240 or § 728.271 or § 728.272 shall file with the treasurer of the county committee for the county in which the farm is located a report on form Wheat 519 showing for the farm the following information: (a) the total number of bushels of wheat produced thereon in 1941, (b) the name and address of each buyer or transferee of any wheat, (c) the amount of wheat marketed to him, (d) the amount equivalent to the penalty which was deducted from the price or consideration received for the wheat, (e) the amount of unmarketed wheat of the 1941 crop on hand, and (f) the acreage of wheat. The report in connection with any such farm shall be made not later than sixty calendar days next succeeding the day on which the threshing of wheat produced on the farm is completed, or December 31, 1941, whichever is the earlier. Upon the request of the county committee, the operator of any other farm shall make a similar report within 15 days after the request therefor is made. (Sec. 373 (b), 52 Stat. 65, 7 U.S.C. 1373 (b))

Done at Washington, D. C., this 8th day of September, 1941. Witness my hand and the seal of the Department of Agriculture.

CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

[Amendments to Price Schedule No. 8]

PART 1308—SCRAP AND SECONDARY MATERIALS CONTAINING NICKEL

Sections 1308.9, 1308.10 and 1308.11 of Price Schedule No. 8[1] are hereby amended to read as follows:

§ 1308.9 *Definitions.* When used in this Schedule, the term

(a) "Person" includes an individual, partnership, association, corporation or other business entity.

(b) "Maker" of the scrap materials set forth in Appendix A, paragraph (a), of this Schedule means the person who first sells, offers for sale, or delivers such scrap materials such as (1) any manufacturer or fabricator, who, as an incident to his manufacturing process, fabricating or other industrial uses, produces such scrap materials, or (2) any person who, in his business or as an incident to his business, demolishes or dismantles structures, machinery, vehicles or equipment and removes such scrap materials therefrom for the purpose of sale. (Executive Order No. 8734)

§ 1308.10 *Appendix A — Maximum prices for pure nickel scrap, monel metal scrap, nickel steel scrap, stainless steel scrap, and other scrap materials containing nickel.*

INTRODUCTORY

Maximum prices herein established are for the principal kinds or grades of the scrap materials. All other kinds or grades, which are not specified, should be sold at their normal differentials from such principal kinds or grades. Moreover, the maximum prices are established for scrap which meets generally accepted maximum standards in the trade—as, for instance, the Standard Classification for Old Metals of the National Association of Waste Material Dealers, Inc., contained in its Circular O, effective as of June 1, 1940. Scrap which fails to meet such standards should be sold at their normal differentials *below* the established maximum prices.

(a) *Pure nickel scrap, ferro-nickel-chrome-iron scrap, ferro-nickel-iron scrap, monel metal scrap and cupro-nickel alloy scrap.* The maximum prices established for the kinds and grades of scrap materials set forth in this paragraph, apply on sales of scrap, unsuitable and unprepared for industrial consumption. A converter of such scrap materials, as hereinafter defined, may receive, in addition to the maximum prices set forth below, a stated maximum premium for scrap which he has converted. A "converter" of such scrap materials is defined for the purposes of this Price Schedule, as any person, other than a maker of such scrap materials, who:

(1) Sells scrap directly to a consumer thereof; and,

(2) By chemical test or assay, determines the metal constituents of the scrap; and,

(3) On that basis, sorts, grades, treats, packages or briquettes by power press, and otherwise prepares, the scrap, making it suitable for direct industrial consumption; and

(4) Guarantees the delivery of scrap in an agreed amount and analysis.

Unless such person satisfies the four criteria, set forth above, he may not receive a converter's premium. His scrap must not be sold at a price higher than the maximum prices set forth below.

Furthermore, a converter or any other person may receive, in addition to the maximum prices set forth below, a premium of a stated maximum amount on shipments of a specified quanity of material.

Such quantity may be made up of any kind or grade of stainless steel scrap, including both the chrome-nickel and the straight-chrome types. If delivery is made by truck, a carload lot shipment will be considered to have been made, for the purposes of this Schedule, if the minimum quantity making up the carload lot is delivered to the buyer within two days after the first shipment of the lot is picked up by truck.

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U.S.C. 1), the following regulations are hereby prescribed to govern the use and navigation of the waters of the Gulf of Mexico, in an area between Anclote Keys and Cedar Keys, Florida, comprising an aerial gunnery target range for army aircraft.

§ 204.88a *Waters of Gulf of Mexico; U. S. Army Air Corps, Aerial Gunnery Target Range between Anclote Keys and Cedar Keys, Fla.*

DANGER ZONE

(a) The target range forms a parallelogram about 40 miles wide extending 60 miles along the west coast of Florida with its eastern boundary marked by a line between Anclote Keys Light and Seahorse Reef Light. The geographic positions locating the corners of the range are as follows:

	Latitude N.	*Longitude W.*
NE corner	28°59′	83°10′
NW corner	28°59′	83°50′
SW corner	28°10′	83°31′
SE corner	28°10′	82°51′

REGULATIONS

(b) (1) The fact that aerial target practice is to take place over this designated area shall be advertised to the public through the usual media for the dissemination of information. Inasmuch as such practice is likely to be engaged in throughout the year without regard to season, such advertising of firing shall be repeated at frequent intervals which shall not exceed three months and which shall be more frequent when, in the opinion of the Commanding Officer responsible for the use of the range, such

[1] § 204.88a is added.

frequent repetition is necessary in the interests of public safety.

(2) Prior to the conducting of each target practice the area shall be patrolled by Army Aircraft to insure that no watercraft are within the dangerous area and any such watercraft seen in the vicinity shall be warned by means of signals that target practice is about to take place. The patrol aircraft shall employ the method of warning known as "buzzing" which consists of low flight by the airplane and repeated opening and closing of the throttle.

(3) Any such watercraft shall, upon being so warned, immediately vacate the area designated and shall, until the conclusion of the practice, remain at such a distance that it will be safe from falling projectiles.

(4) The foregoing regulations shall not deny access to or egress from harbors contiguous to this danger area in the case of regular cargo-carrying vessels proceeding to or from such harbors. In case of the presence of any such vessel in the danger area the officer in charge shall cause the cessation or postponement of fire until the vessel shall have cleared the part of the area in which it might be endangered by falling projectiles. The vessel shall proceed on its normal course and shall not delay its progress unnecessarily.

(5) All aircraft and watercraft shall be presumed to know their whereabouts by distances and directions from land marks or other topographical features along the shore.

(6) These regulations shall be enforced by the Commanding Officer, MacDill Field, Florida, and such agencies as he may designate. (Sec. 7, River and Harbor Act, Aug 8, 1917, 40 Stat. 266; 33 U.S.C. 1) [Regs. Aug. 26, 1941 (E.D. 7195 (Mexico, Gulf of)—17/5)]

TITLE 41—PUBLIC CONTRACTS

CHAPTER II—DIVISION OF PUBLIC CONTRACTS

PART 202—MINIMUM WAGE DETERMINATIONS

IN THE MATTER OF THE DETERMINATION OF THE PREVAILING MINIMUM WAGES IN THE SCIENTIFIC INDUSTRIAL AND LABORATORY INSTRUMENTS INDUSTRY, SURGICAL INSTRUMENTS AND APPARATUS INDUSTRY, AND DENTAL GOODS AND EQUIPMENT MANUFACTURING INDUSTRY

These matters are before me pursuant to section 1 (b) of the Act of June 30, 1936 (49 Stat. 2036; 41 U.S.C., Sup. III 35), entitled "An Act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes", otherwise known as the Walsh-Healey Public Contracts Act.

At my direction the Public Contracts Board, created in accordance with the provisions of Section 4 of said Act by Administrative Order dated October 6, 1936, held public hearings in the matters of the prevailing minimum wages in the above named industries. Each industry was the subject of a separate hearing. Notice of the hearings in each case was sent to all members of the industry as listed in recognized commercial registers, to interested labor organizations, trade associations, and all other known interested parties. Invitation to attend the hearings was also extended through the national press and by publication in the FEDERAL REGISTER (4 F.R. 4810; 5 F.R. 333; 5 F.R. 2640).

On the basis of the evidence presented at the hearings, the Board made and submitted its findings and recommendations, severally as to each industry, which were circularized by the Administrator of the Division of Public Contracts to afford interested parties an opportunity to register objection or approval before a decision was made by me.

Having been until now the subject of separate hearings and proceedings, the three industries are being consolidated as a group for the purposes of this determination, primarily because of the relationship of their products and the similarity of their wage structures as revealed by the evidence of record, including the testimony and exhibits introduced at the hearings, the findings and recommendations of the Public Contracts Board, and the communications and briefs received in response to the notices circularizing the Board's findings and recommendations. This determination otherwise is intended to preserve the identities of the respective industries.

Scientific Industrial and Laboratory Instruments Industry

The Public Contracts Board has found, and it so appears from the record, that a substantial number of workers in the low wage category of this industry perform relatively simple repetitive tasks and that there is uniformity in the minimum wage structure of the industry throughout the United States, with the first significant concentration appearing at 40 cents an hour.

Since the findings and recommendations of the Board were circularized, representatives of the industry have made a showing of the necessity for permitting the employment of learners, in a number not to exceed 10 percent of the factory payroll, for a period of sixty days at not less than 35 cents an hour. Accordingly, and the Board having so recommended, provision for the employment of learners within the limitations mentioned is hereinafter made, as well as for the employment of apprentices at wages below the determined minimum wage for the industry, if their employment conforms to the standards of the Federal Committee on Apprenticeship.

Surgical Instruments and Apparatus Industry

Objections have been filed by representatives of both industry and labor to the findings and recommendations of the Board as circularized by the Administrator of the Division of Public Contracts. The Wholesale Surgical Trade Association, representative of the industry, objected to the Board's finding of 40 cents per hour as the prevailing minimum wage in the industry and contended that the wage data on which the Board based its finding justify a finding of no more than 35 cents an hour.

An analysis of the testimony given at the hearing by representatives of individual members of the industry indicates quite clearly that the larger number of employees receiving below 40 cents an hour are employed in occupations which receive over 40 cents an hour after the expiration of a learning period. Undoubtedly in recognition of this fact and of the need for special consideration for learners, following receipt of the objections filed by the Association, the Board modified its previous recommendation to the extent of suggesting provision for a learner tolerance in the same terms as in the case of the Scientific Industrial and Laboratory Instruments Industry.

The objections filed on behalf of labor at the outset presupposes that the scope of the industry under consideration includes orthopedic appliances, such as trusses and elastic belts, the production of which is said to require a minimum of skilled labor and mostly unskilled labor at relatively low wage rates. The objections then proceed to point out why such appliances should be considered separately and to seek protection for the highly skilled workers employed in the production of surgical instruments.

At no time in the course of the proceeding in this matter has it been the intention to include orthopedic appliances, although use of the term "appliances" in the notice of hearing and subsequent publications might well have given cause for misunderstanding. The term consequently has been deleted from the title of the industry and the appliances in question specifically excluded from the coverage of this determination.

In regard to a determination of a minimum wage rate for the industry's skilled employees my determinations under the Walsh-Healey Public Contracts Act have been limited to consideration of the basic minimum wage prevailing in a given industry in the locality in which the contract materials and supplies are to be manufactured or furnished.

Upon the evidence, and it appearing that there are no substantial variations in the wage level of the industry throughout the country, I concur in and adopt the recommendations of the Board as modified.

Dental Goods and Equipment Manufacturing Industry

Taking into account the wage differential existing in the manufacture of consumable and durable goods, both of which are embraced in the definition of the industry for the purposes of this proceeding, the Board has recommended that the prevailing minimum wage for the manufacture of durable goods be determined at 40 cents per hour and for the manufacture of consumable goods at 35 cents per hour.

Two representatives of labor have filed responses to the recommendations of the Board. One urges that there should be separate minima determined for men and women, of from 50 to 55 cents per hour for the former, and from 35 to 40 cents for the latter. The determination of the prevailing minimum wage for a given industry has not been interpreted as permitting consideration of the distinction in sex of the workers engaged in the industry, any more than it does consideration of the wage rates paid to skilled employees as distinguished from unskilled or the minimum wage workers in the industry. The request for the sex differential might be prompted by the fact that higher percentages of female workers are employed by manufacturers of consumable goods, and what is actually sought is the determination of a higher rate for employees of durable goods manufacturers. This, of course, requires a review of the wage data included in the record for justification of the higher rate. The other representative of labor definitely protested the Board's finding of 40 cents for the durable goods branch of the industry as too low.

In consideration of the wage data of record for this industry, and in consideration of the overlapping aspects of the three industries named herein, I have come to the conclusion that the prevailing minimum wage for durable dental goods should be determined at the same level as for the two industries hereinbefore considered, including the provision for learners. A study of the wage data warrants the further conclusion that local variations in wage structure throughout the Dental Goods and Equipment Manufacturing Industry are of insufficient weight to destroy the general uniformity of the lower levels of the wage structure of the industry as a whole.

Upon consideration of all the facts and circumstances, I hereby determine:

§ 202.39 *Scientific industrial and laboratory instruments, surgical instruments and apparatus, and dental goods and equipment manufacturing industries.* (a) The minimum wage for employees engaged in the performance of contracts with agencies of the United States Government, subject to the provisions of the Act of June 30, 1936 (49 Stat. 2036; 41 U.S.C. Sup. [Dockets No. A-721, A-721—Part II]

PETITION OF DISTRICT BOARD 3 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 3; AND FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF MINE INDEX NO. 1193 OF DISTRICT NO. 3

ORDER REOPENING PROCEEDINGS AS TO MINE INDEX NO. 1193; SEVERING PORTION OF DOCKET NO. A-721 RELATING TO MINE INDEX NO. 1193 AND DESIGNATING SAME AS DOCKET NO. A-721—PART II; AND NOTICE OF AND ORDER FOR HEARING IN DOCKET NO. A-721—PART II

An original petition, requesting temporary and permanent relief, was duly filed with this Division in Docket No. A-721, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937; and

The Director issued an Order in Docket No. A-721 on March 25, 1941, 6 F.R. 1887, granting temporary relief and conditionally providing that such temporary relief should become final sixty (60) days from the date thereof unless the Director should otherwise order, which Order, *Inter alia*, established temporary and conditionally final prices for the Duffey Mine of A. B. Holcomb (Mine Index No. 1193);

On May 8, 1941, Eugene L. Campbell, J. H. Baker, R. C. Catlette, Bruce Wiseman, J. A. Neal, Lee Matheny, T. C. O'Dell and F. C. Perkins, code members in District No. 3, filed with the Division a petition alleging that they were dissatisfied with the minimum prices for truck shipments provided by the aforesaid Order for coals produced at the Duffey Mine (Mine Index No. 1193) of A. B. Holcomb and requesting a hearing with respect thereto.

As more than sixty (60) days have elapsed since the entry of the Order of the Director granting temporary and conditionally final relief herein, the minimum prices established by the Order of March 25, 1941, 6 F.R. 1887, for the coals of the Duffey Mine (Mine Index No. 1193) of A. B. Holcomb, for truck shipment, have become final. However, it appearing that good cause has been shown for the reopening of this proceeding and for a hearing with respect to revision of the minimum prices for truck shipment of the coals produced at the Duffey Mine (Mine Index No. 1193);

Now, therefore, it is ordered, That the portion of Docket No. A-721 relating to Mine Index No. 1193 be severed from the balance of the subject matter thereof and be designated as Docket No. A-721-Part II.

It is further ordered, That the relief heretofore granted in the Order of the Director in Docket No. A-721, dated March 25, 1941, 6 F.R. 1887, for Mine Index No. 1193 shall remain effective pending further proceedings in Docket No. A-721-Part II.

It is further ordered, That a hearing on the prayer for permanent relief in Docket No. A-721-Part II be held, under the applicable provisions of the Act and the Rules and Regulations of the Division, on October 2, 1941, at 10 o'clock in the forenoon of that day at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room in which such hearing shall be held.

It is further ordered, That Scott A. Dahlquist or any other officer or officers of the Division duly designated for that purpose shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit to the Director proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises, and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in these proceedings and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition, or in the petition of Eugene L. Campbell, J. H. Baker, R. C. Catlette, Bruce Wiseman, J. A. Neal, Lee Matheny, T. C. O'Dell, and F. C. Perkins, is supported or opposed or on the basis of which other relief is sought. Such petitions of intervention shall be filed with the Bituminous Coal Division on or before September 26, 1941.

All persons are hereby notified that the hearing in the above-entitled matter, and any orders entered therein, may concern, in addition to the matters specifically alleged in the petitions, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of interveners or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the revision of the minimum prices established in Docket No. A-721 for coals produced at the Duffey Mine (Mine Index No. 1193) of A. B. Holcomb for truck shipment by raising the minimum price of coals in Size Group 2 from $2.38 to $2.48, in Size Group 5 from $2.03 to $2.23, and in Size Group 7 from $1.73 to $2.03.

[P. & S. Docket No. 311]

IN THE MATTER OF L. B. ANDREWS, DOING BUSINESS AS L. B. ANDREWS LIVESTOCK COMMISSION COMPANY ET AL., PETITIONERS

ORDER AND NOTICE OF REOPENING OF PROCEEDING UPON PETITION FOR MODIFICATION

By an order dated October 14, 1937, the Secretary of Agriculture prescribed reasonable rates and charges for selling livestock at the Kansas City Stock Yards, Kansas City, Missouri. On July 30, 1941, the petitioners, members of the Kansas City Live Stock Exchange, doing business at the Kansas City Stock Yards, Kansas City, Missouri, filed a petition seeking a modification of that order so as to permit the petitioners to increase their rates and charges for their services of selling livestock. The reasons alleged by the petitioners for the modification are, in substance, as follows:

1. Improved employment and military training of men has cut into our trained personnel. Higher wages in other industries has depleted our ranks. Low salaries paid in the past are no longer satisfactory to our men. Demands are being made for increased pay due to increased costs of rent and living expenses.

2. We are confronted with increased taxes of every kind, even Social Security levies. Labor and material costs will reflect these ever increasing and unknown factors to an extent that will jeopardize our financial structure.

3. There exists sharp inequalities in the salaries paid by our organization when compared with other industry requiring less skill. There has been a decided improvement in wage incomes in general.

4. Price inflation, increased rents, higher living costs and taxes places undeserved hardships on fixed income employees, such as our non-owner group.

5. We are daily confronted with the competition of country sales rings operating in localities of low expenses. Our rates will no longer afford proper means of meeting such competition and maintaining the high level of service to the producers that the central market must provide. We must maintain ample forces of trained employees to handle the fluctuating volume of business over which we have no control.

6. Ten firms have been selected for the purpose of testing costs. We have endeavored to show costs for the future inasmuch as we have added 10 percent to the salary expense of non-owner employees. No additions have been made for material increases or for taxes.

It appears that an opportunity for a hearing should be afforded to the petitioners and to all other interested persons including the patrons of the petitioners, for the purpose of determining whether the orders heretofore made in this proceeding should be modified.

It is, therefore, ordered That P. & S. Docket No. 311 be reopened for the purpose of affording the petitioners and all other interested persons, including patrons of the petitioners, an opportunity to appear and present such evidence as may be relevant and material to the matters alleged in the petition.

It is further ordered, That all interested persons who desire to be heard shall give notice thereof by filing a petition with the Hearing Clerk of the Office of the Solicitor, United States Department of Agriculture, Washington, D. C.

It is further ordered, That the matter be set down for public hearing before an examiner at a time and place of which due notice shall be given.

It is further ordered, That this order and notice of hearing shall be published in the FEDERAL REGISTER.

It is further ordered, That a copy of this order and notice of hearing shall be served upon the Kansas City Live Stock Exchange by registered mail.

Done at Washington, D. C., this 6th day of September, 1941. Witness my hand and the seal of the Department of Agriculture.

PUBLIC ANNOUNCEMENT WITH RESPECT TO THE EXPANSION OF PRODUCTION OF NON-BASIC AGRICULTURAL COMMODITIES

Section 4 of the Act approved July 1, 1941 (Public Law 147—77th Congress) provides as follows:

(a) Whenever during the existing emergency the Secretary of Agriculture finds it necessary to encourage the expansion of production of any non-basic agricultural commodity, he shall make public announcement thereof and he shall so use the funds made available under section 3 of this Act or otherwise made available to him for the disposal of agricultural commodities, through a commodity loan, purchase, or other operation, taking into account the total funds available for such purpose for all commodities, so as to support a price for the producers of any such commodity with respect to which such announcement was made of not less than 85 per centum of the parity or comparable price therefor. The comparable price for any such commodity shall be determined and used by the Secretary for the purposes of this section if the production or consumption of such commodity has so changed in extent or character since the base period as to result in a price out of line with parity prices for basic commodities. Any such commodity loan, purchase, or other operation which is undertaken shall be continued until the Secretary has given sufficient public announcement to permit the producers of such commodity to make a readjustment in the production of the commodity. For the purposes of this section, commodities other than cotton, corn, wheat, tobacco, and rice shall be deemed to be non-basic commodities.

Pursuant to the foregoing provisions of law, public announcement is hereby made that I have found it necessary, as a result of the existing emergency, to encourage the expansion of the production of the following commodities: hogs, eggs, evaporated milk, dry skim milk, cheese, and chickens.

In accordance with the provisions of said law, the Department of Agriculture will, through loans, purchases or other operations, support a price for the producers of these commodities of not less than 85 percent of the parity or comparable price therefor during the period ending December 31, 1942.

Done at Washington, D. C., this 29th day of August 1941. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CLAUDE R. WICKARD,
Secretary of Agriculture.

RESOLUTION OF THE SOCIAL SECURITY BOARD WITH RESPECT TO THE UNEMPLOYMENT COMPENSATION LAW OF THE STATE OF MINNESOTA

Whereas after reasonable notice and opportunity for hearing [1] was provided on the fourth day of August, 1941, to the Division of Employment and Security in the Department of Social Security of the State of Minnesota on the question of whether or not the unemployment compensation law of the State of Minnesota as amended by chapter 554, Minnesota laws of 1941, no longer contains the provisions specified in subsection (a) of section 1602 of the Internal Revenue Code; and

Whereas the Board has considered the evidence adduced at said hearing and such other evidence as was presented to the Board by the State,

Now, therefore, upon the basis of such evidence the Social Security Board hereby finds that the unemployment compensation law of the State of Minnesota as amended by said chapter 554 of the Minnesota laws of 1941, has not been so changed that it no longer contains the provisions specified in subsection (a) of section 1602 of the Internal Revenue Code.

By direction of the Social Security Board.

Acting Secretary to the Board.

IN THE MATTER OF DERBY GAS & ELECTRIC CORPORATION AND OGDEN CORPORATION

SUPPLEMENTAL FINDINGS AND OPINION AND ORDER OF THE COMMISSION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 4th day of September, A. D. 1941.

In our findings and opinion herein [1] we pointed out certain respects in which the plan for corporate simplification filed by Derby Gas & Electric Corporation pursuant to section 11 (e) of the Holding Company Act should be amended in order to conform, in our judgment, to the standards of the Act. Amendments conforming to the requirements set forth in the opinion have since been made.

In view of the extended discussion in our opinion no comprehensive description of the changes made is necessary here. A few comments seem called for. For the purpose of meeting the views which we expressed in our opinion under the caption "G. Accounting Entries", the revised balance sheet filed pursuant to the opinion sets up as a valuation reserve, on the asset side, an item in the amount of $1,358,023, and the balance of the amount referred to in our opinion as "Reserve Available for Revaluation of Investments" is reflected in the revised balance sheet as Capital Surplus in the amount of $464,258. This treatment gives effect in substance to the requirements which our opinion made in this regard, and the reservation of jurisdiction which we stated in the opinion would be applicable with regard to any balance remaining in the "Reserve Available for Revaluation of Investments" will be applicable with regard to such item of capital surplus. However, losses resulting upon sales of assets are ordinarily chargeable to earned surplus rather than capital surplus. Here, if the reserve of $1,358,023 proves insufficient and it is established that the losses were inherent at the time of the reorganization they may, with our approval, be charged against the capital surplus item of $464,258. We think the balance sheet should carry a footnote to indicate the somewhat peculiar nature of the capital surplus item. We shall impose an appropriate condition accordingly.

It will be observed that the aggregate of the valuation reserve and the item of capital surplus is $1,822,281, instead of the figure of $1,780,810 mentioned in our opinion. This difference of $41,471 is due to augmentation of the capital surplus item by $56,820 by reason of the reduction, in accordance with our opinion, of the amount of new common stock allocated to Ogden Corporation under the plan, and, to diminution of such item by $15,349 because of an increase in that amount in the earned surplus deficit of Derby between July 31, 1940 and May 31, 1941.

The application as now amended estimates total fees and expenses at $156,037 instead of the figure of $131,795 mentioned in our opinion. However, the question of fees and expenses is one of the matters as to which we will reserve jurisdiction.

With regard to the acquisition by Ogden Corporation of the 84,000 shares of new common stock of Derby Gas & Electric Corporation which it is to receive under the plan, subject to our reservation of jurisdiction as to fees and expenses, we find that the standards of Section 10 are complied with.

[1] Holding Company Act Release No. 2875.

The applicants have filed revised solicitation material which is satisfactory.

We now find that the plan as amended is necessary to effectuate the provisions of subsection (b) of section 11 of the Act and is fair and equitable to the persons affected thereby, and, that the transactions contemplated by the plan as amended comply with the applicable sections of the Act and the rules and regulations promulgated thereunder; subject, however, to the conditions and reservations hereinafter expressed.

It is therefore ordered, That the plan as amended be and hereby is approved pursuant to section 11 (e) of the Act, and, that the application as amended be and hereby is granted; subject, however, to the following conditions and reservations:

(a) The conditions prescribed by Rule U-24.

(b) The plan shall not be submitted to the stockholders until a further amendment shall have been filed with us containing a pro forma balance sheet as revised following conference with our staff and three days shall have elapsed without our having notified the applicants that such revised balance sheet is unsatisfactory.

(c) No fees or expenses incurred or to be incurred in connection with the plan may be paid until thirty (30) days after applicants file a notification with this Commission as to the proposed amount of such fees and expenses, with a detailed statement as to the services and expenses for which any such amounts are to be paid. Similar statements shall be filed as to all such fees and expenses which have already been paid. Jurisdiction is reserved as to all fees and expenses, and further hearings thereon may be required prior to approval of payment if such action is deemed by this Commission necessary or appropriate in the public interest or for the protection of investors or consumers.

(d) No charges shall be made to the capital surplus account which will be created pursuant to the plan of reorganization unless notice be given to this Commission thirty (30) days prior to the making of such charge. In the event that the Commission shall notify Derby (or the reorganized corporation) within such thirty (30) days to show cause why such charge should not be disapproved, the charge in question shall not be made unless and until expressly authorized by order of the Commission, and jurisdiction is hereby reserved accordingly.

(e) Jurisdiction is reserved to entertain such further proceedings, to make such other findings and to take such other action as may be appropriate in the premises in connection with the plan or the various steps required to execute the plan.

By the Commission (Commissioners Healy, Purcell and Burke), Chairman Eicher and Commissioner Pike not participating.

WHITE-FRINGED BEETLE ADMINISTRATIVE INSTRUCTIONS MODIFIED

Introductory Note

Effective September 11, 1941.

Instructions as to various methods of treatment of plants in pots, or in soil balls, and of potting soil, as previously authorized in Circulars B.E.P.Q. 486, 489, and 503, are brought together in the present revision of this circular. In addition, the instructions as to treatment of balled nursery stock by methyl bromide solution as specified in paragraph (ii) of subsection (b) are somewhat modified as to treatments within the regulated areas other than New Orleans and vicinity. All treatments apply to both species of white-fringed beetles, *Pantomorus leucoloma* Boh. and *P. peregrinus* Buch., and are uniformly applicable to all regulated areas except the methyl bromide solution treatment of balled nursery stock, the specifications of which vary for the New Orleans area because of the type of soil in that locality. This circular supersedes all instructions in Circulars B.E.P.Q. 486, and 489, and previous issue of 503.

(ii) Such fumigation shall apply only to those plants in 3-inch pots or smaller, or in soil balls not greater than 3 inches in diameter when spherical or thicker than 3 inches if not spherical, and the plants shall be stacked on racks so that the gas mixture can have access to all sides of the pots or the soil balls.

(iii) The fumigation shall be done in a tight chamber with gas-tight doors.

(iv) After the chamber is loaded and closed, the appropriate amount of methyl bromide shall be volatilized therein, and the air-gas mixture shall be circulated by means of a fan or blower throughout the entire 4-hour fumigation period.

(v) The use of a fumigation chamber, lined with sheet metal throughout and with a metal-covered door closing against gaskets and held tightly in place by refrigerator door fasteners, is recommended.

(2) *Methyl bromide fumigation under partial vacuum.* (i) Fumigation under partial vacuum equivalent to at least 24.5 inches of mercury must be done with a dosage of 4 pounds of methyl bromide per 1,000 cubic feet of chamber space, including the space occupied by the commodity, with an exposure of 1½ hours, the vacuum to be maintained throughout the entire period.

(ii) The temperature of the soil balls shall be 75° F. or above, and the diameter of the soil balls shall be not greater than 11 inches if spherical, or thicker than 11 inches if not spherical.

(iii) The fumigant-air mixture shall be circulated in the fumigation chamber by means of a fan the first 15 minutes of the exposure period to mix the vaporized fumigant thoroughly with the air in the chamber and bring it in contact with the surface of the soil balls. The soil balls shall be washed with one or more changes of air at the end of the exposure period.

(iv) A standard vacuum fumigation chamber which can be closed tight and will withstand an external pressure of at least one atmosphere is required. A vacuum pump of sufficient capacity to reduce the pressure within the vacuum chamber to the equivalent of 3 inches of mercury (a 27-inch vacuum at sea level) in not more than 20 minutes is necessary.

(3) *Methyl bromide solution*—(i) *Treatment method.* (Applicable to all regulated areas).

(a) The soil balls around the roots of plants must be buried in sand and plunged in boxes or trays which are watertight and approximately 1 foot deep.

(b) A 2-inch space filled with sand shall be provided between the soil balls, also above and beneath them.

(c) Such soil balls shall be treated with a solution of methyl bromide and alcohol at a concentration of 0.3 percent methyl bromide and 0.6 percent denatured ethyl alcohol by volume in water. The solution is to be prepared by first mixing the methyl bromide and alcohol together and then adding this mixture to the water and mixing thoroughly.

(d) The aqueous solution of methyl bromide and alcohol shall then be applied evenly over the surface of the sand around the plants at the rate of 40 gallons per 100 square feet of surface area by means of a sprinkling can or sprayer.

(ii) *Type of material, exposure, and temperature.* (a) In Orleans Parish, including the city of New Orleans, Saint Bernard Parish, and regulated parts of Jefferson and Plaquemines Parishes, La., the treatment shall be applied only to plants in soil balls not greater than 7 inches in diameter, nor greater than 7 inches in thickness when not spherical. After the required dosage has been applied, the soil balls shall remain embedded in the sand for a period of 8 hours. The temperature of the soil balls during the treatment shall not be lower than 65° F.

(b) In all regulated areas other than Orleans Parish, including the City of New Orleans, Saint Bernard Parish, and regulated parts of Jefferson and Plaquemines Parishes, La., the treatment shall be applied to soil balls not greater than 8 inches in diameter nor greater than 8 inches in thickness when not spherical. After the required dosage has been applied, the soil balls shall remain embedded in the sand for a period of 6 hours. The temperature of the soil balls during the treatment shall not be lower than 62° F.

(b) *Potting soil*—(1) *Carbon disulphide fumigation.* (i) Potting soil shall be treated in a container with carbon disulphide at a dosage of 2 pounds per cubic yard of soil for a period of 48 hours.

(ii) The grade of carbon disulphide shall be comparable to U. S. P. grade having a specific gravity of 1.25 at 68° F.

(iii) The container shall be tight, preferably lined with sheet metal, and shall have a tarpaulin immediately after the fumigant is applied. The container shall not be more than 36 inches deep.

(iv) The soil shall be friable, and wet soil shall not be treated by this method. The fumigant shall be applied to the soil in holes 3 inches deep, the dosage to be evenly divided among holes 1 foot apart over the surface of the soil, and the fumigant shall be covered with soil as soon as it is applied.

(v) The temperature of the soil shall not be lower than 40° F. during the entire time of treatment.

(vi) The condition of the soil and the apparatus used and the method of application of the fumigant must meet with the approval of the authorized inspector of the United States Department of Agriculture.

(2) *Methyl bromide fumigation.* (i) Potting soil must be treated in a container with methyl bromide in a dosage of 40 cubic centimeters of methyl bromide per cubic yard of soil for a period of 48 hours.

(ii) The sides, bottom, and seams of the container shall be tight, preferably lined with sheet metal, and shall have a tight cover or be covered with a tarpaulin immediately after the fumigant is applied.

(iii) The condition of the soil and the apparatus used and the method of application of the fumigant must meet the approval of an authorized inspector of the United States Department of Agriculture.

(3) *Heat treatment.* (i) Live steam, under pressure of 80 pounds or more per square inch, shall be applied through a grid of perforated pipes at the bottom of the sterlizing box or truck body containing the soil, for a period of 45 minutes or until all parts of the load reach a temperature of 200° F.

(ii) The grids shall be constructed of 1-inch pipes, perforated with holes 1/32 inch in diameter on the upper side and connecting at one end to a manifold into which the steam is introduced.

(iii) The layer of soil in the sterlizing box shall not be more than 2 feet, 6 inches deep.

(c) *Disclaimer.* There has been opportunity to test these treatments on only relatively few varieties of plants and in authorizing the movement of potted plants, nursery stock, or potting soil fumigated according to the requirements stated above, it is understood that no liability shall attach either to the United States Department of Agriculture or to any of its employees in the event of injury to either plants or operators.

(d) *Caution*—(1) *Methyl bromide.* Methyl bromide is a gas at ordinary temperatures. It is colorless and practically odorless in concentrations used for fumigation of plants or potting soil. It is a poison and the operators should use approved gas masks when exposed to the gas in concentrations used in fumigation, or while preparing the solution. The plants in the fumigation chamber should be well aerated by blowing air through them, and the room adequately ventilated before it is entered. After fumigating the potting soil by methyl bromide the cover should be removed and the soil allowed to become aerated.

(2) *Carbon disulphide.* Carbon disulphide is a blood poison, but poisoning by this chemical is rare. Exposure to the vapor may cause giddiness and headache. When these symptoms develop, the individual should get into the open air.

TITLE 41—PUBLIC CONTRACTS

CHAPTER II—DIVISION OF PUBLIC CONTRACTS

PART 202—MINIMUM WAGE DETERMINATIONS

IN THE MATTER OF AN AMENDMENT TO THE DETERMINATION OF THE PREVAILING MINIMUM WAGES IN THE TAG INDUSTRY

This matter is before me pursuant to section 1 (b) of the Act of June 30, 1936 (49 Stat. 2036; 41 U.S.C. Sup. III 35), entitled "An Act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes", otherwise known as the Walsh-Healey Public Contracts Act.

On July 12, 1941, the Administrator of the Division of Public Contracts issued a notice of opportunity to show cause (6 F.R. 3614) why the decision dated October 19, 1938 (3 F.R. 2539) In the Matter of the Determination of the Prevailing Minimum Wages in the Tag Industry, should not be amended by increasing the prevailing minimum wage as determined therein from 33 cents to 40 cents per hour.

The proposed amendment was based upon the belief, supported by a showing of the interstate character of the industry, that the prevailing minimum wage in the industry had increased to 40 cents per hour by reason of the establishment of 40 cents per hour as the minimum wage required to be paid by tag manufacturers subject to the provisions of the Fair Labor Standards Act of 1938 (Wage Order of the Administrator, Wage and Hour Division, U. S. Department of Labor, establishing minimum wage rates in the Converted Paper Products Industry, signed May 29, 1941, effective June 30, 1941, 6 F.R. 2744).

The notice of opportunity to show cause was sent to all known members of the industry, trade unions, trade publications, and to trade associations. Notice was given to other interested parties by publication in the FEDERAL REGISTER (6 F.R. 3614). No objections to the proposed amendment were filed. One response to the notice was received from a member of the industry expressing approval of the amendment.

Upon consideration of the foregoing and all of the facts and circumstances, I hereby determine:

§ 202.22 *Tag industry.* The minimum wage for employees engaged in the performance of contracts with agencies of the United States, subject to the provisions of the Act of June 30, 1936 (49 Stat. 2036; 41 U.S.C. Sup. III 35), for the manufacture or supply of tags, shall be 40 cents an hour or $16.00 per week of forty hours, arrived at either upon a time or piece work basis.

This determination shall be effective and the minimum wage hereby established shall apply to all such contracts for which contracting agencies of the United States have initiated negotiations or solicited bids, as the case may be, on and after September 23, 1941.

Nothing in this determination shall affect such obligations for the payment of minimum wages as an employer may have under the Fair Labor Standards Act of 1938 or any wage order thereunder, or under any other law, or agreement, more favorable to employees than the requirements of this determination.

CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

[Price Schedule No. 26]

PART 1312—LUMBER AND LUMBER PRODUCTS

PRICE SCHEDULE FOR DOUGLAS FIR LUMBER

Douglas fir lumber, a Pacific Coast product, is often employed co-extensively and to some extent interchangeably with Southern pine lumber. It is widely used in the construction industry for exterior and interior finish, framing, mill work, sheathings, floorings, and sub-floorings, and in the manufacture of crates, utility furniture, and household and farm appliances. In the defense program it has been extensively employed in the construction of cantonments, defense housing projects, and factories, and in the production of ships and airplanes. The increased need for Douglas Fir lumber has prompted government efforts to secure expanded production, but the supply has failed to keep pace with the augmented demand stemming from the defense program and the accompanying economic expansion. As a consequence, inflationary pressure has caused prices to rise greatly in excess of previously existing industry levels. Such price increases have markedly outstripped cost advances. Issuance of a Price Schedule is therefore necessary to protect consumers and those members of the industry who are attempting to keep prices down.

Accordingly, under the authority vested in me by Executive Order No. 8734,[1] it is hereby directed that:

§ 1312.51 *Maximum prices for Douglas fir lumber.* On and after October 1, 1941, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver, or transfer, for domestic or export use, any Douglas fir lumber, where the shipment originates at the mill rather than at a distribution yard, at prices higher than the maximum prices set forth in Appendix A, incorporated herein as § 1312.59: *Provided*, That such maximum prices shall not apply where actual delivery has been made by the mill to a purchaser, or to a carrier for delivery to a purchaser, prior to October 1, 1941.*

*§§ 1312.51 to 1312.59, inclusive, issued pursuant to the authority contained in Executive Order No. 8734.

§ 1312.52 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid, or offered.*

§ 1312.53 *Evasion.* The price limitations set forth in this Schedule shall not be evaded by unusual charges for extending credit or for early delivery, by charges for delivery which exceed the actual cost of such delivery, except as otherwise provided in § 1312.59 (d), by unnecessarily routing lumber through a distribution yard, or by other direct or indirect methods. The seller shall in all cases give the purchaser the option of making his own transportation arrangements.*

§ 1312.54 *Records and reports.* Every person who, during any calendar month, shall sell 34,000 pounds or more of Douglas fir lumber for shipment originating at the mill shall keep for inspection by the Office of Price Administration, for a period of not less than one year, complete and accurate records of every sale of such lumber made during such month, showing the date thereof, the name of the buyer, the prices, and grades sold. Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may from time to time require.*

§ 1312.55 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will make every effort to assure (a) that the Congress and the public are fully informed thereof, (b) that the powers of the Government are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule, and (c) that the procurement services of the Government are requested to refrain from purchasing Douglas fir lumber from those persons who fail to comply with this Schedule. Persons who have evidence of any offer, receipt, demand, or payment of prices higher than the maximum prices, or of any evasion or effort to evade provisions hereof, or of speculation, or of manipulation of prices of Douglas fir lumber, or of the hoarding or accumulating of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1312.56 *Modification of the schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception therefrom.*

§ 1312.57 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, association, partnership, corporation, or other business entity. The term includes, without restricting the generality of the foregoing, any mill operator, manufacturer, commission salesman, manufacturer's representative, concentration yard operator, wholesaler, wholesale distributor, wholesaler's agent, or retailer.

(b) "Douglas fir" means the botanical species of Pseudotsuga taxifolia produced in those parts of Oregon and Washington lying west of the crest of the Cascade Mountains.

(c) "Mill" means a manufacturing plant, concentration yard, or other establishment which processes, by sawing, or by planing or other comparable method, at least 25 per cent of the volume of Douglas fir logs or lumber purchased or received by it.

(d) "Distribution yard" means a wholesale or retail lumber yard which purchases or receives Douglas fir logs or lumber from a producer, a mill, or another distribution yard for purposes of unloading, sorting, and resale or redistribution, which regularly maintains a stock of lumber, and which processes, by sawing, or by planing or other comparable method, less than 25 per cent of the volume of such logs or lumber so purchased or received by it.

(e) "Volume" means the board foot volume of lumber processed from logs, processed from other lumber, or sold, as the case may be, within the six months immediately prior to the transaction subject to this Schedule.*

§ 1312.58 *Effective date of the schedule.* This Schedule shall become effective October 1, 1941.*

TITLE 46—SHIPPING

CHAPTER I—BUREAU OF MARINE INSPECTION AND NAVIGATION

[Order No. 146]

SUBCHAPTER N—EXPLOSIVES OR OTHER DANGEROUS ARTICLES OR SUBSTANCES, AND COMBUSTIBLE LIQUIDS ON BOARD VESSELS

PART 146—TRANSPORTATION OR STORAGE OF EXPLOSIVES OR OTHER DANGEROUS ARTICLES OR SUBSTANCES, AND COMBUSTIBLE LIQUIDS ON BOARD VESSELS

Pursuant to the authority vested in the Secretary of Commerce by section 4472 of the Revised Statutes, as amended (Act of October 9, 1940, Public 809—76th Congress; 54 Stat. 1023), the following finding relative to the transportation of sisal and an exemption from certain provisions of the regulations for the safe carriage of explosives or other dangerous articles or substances, and combustible liquids, effective April 9, 1941, applicable to vessels qualifying under the conditions of the exemption; are hereby promulgated, effective September 10, 1941. The exemption granted herein shall continue in effect until further notice.

I find that vessels, having a wooden bulkhead constructed in the cargo carrying compartment at least eight (8) inches off a boiler room, an engine room, a coal bunker or a galley bulkhead, when any such bulkhead forms a boundary to said cargo carrying compartment, and engaged in transporting a substantially full cargo of sisal or other vegetable fibers (except cotton) stowed "Tween decks" or "Under deck away from heat" render the application of certain of the provisions of § 146.03-34 (g) of the regulations of the Secretary of Commerce governing the transportation of explosives or other dangerous articles on board vessels relative to the stowage of sisal or other vegetable fibers (except cotton) unnecessary for the purposes of safety.

Because of the present National Emergency it is essential to our National Defense to take immediate action to expedite the use of vessels for the purpose of transporting sisal or other vegetable fibers (except cotton) necessary to the manufacture of materials for National Defense; Therefore it is ordered under the authority contained in subsection (11), and under the emergency provisions of said subsection of R.S. 4472, as amended, that any vessel having a wooden bulkhead constructed at least eight (8) inches off a boiler room, engine room, coal bunker or galley bulkhead, when one of these bulkheads forms a boundary of a cargo carrying compartment, and transporting a substantially full cargo of sisal or other vegetable fibers (except cotton), and such portion of the sisal or other vegetable fibers cargo (except cotton) as is stowed "Tween decks" or "Under deck away from heat" are exempt from that provision of § 146.03-34 (g) of the regulations of the Secretary of Commerce governing the transportation of explosives or other dangerous articles on board vessels which requires that such substances be stowed at least twenty (20) feet away from boiler room, engine room, coal bunker or galley bulkhead.

All other provisions of the regulations applying to sisal or other vegetable fibers

(except cotton) and all other applicable provisions of the general and detail regulations shall be observed. (R.S. 4472, as amended; act of October 9, 1940, Public 809—76th Congress; 54 Stat. 1023; 46 U.S.C. 170)

Section 6 of Civil Service Rule II is amended to read as follows:

6. *Excepted employees—when classified.* Except as provided in section 7 of this rule, a person holding a position when it is placed in the classified (competitive) service or otherwise is made subject to competitive examination shall, upon recommendation to the Commission by the head of the department or agency in which he is employed, have all the rights which he would have acquired if appointed thereto by competitive examination: *Provided:*

(a) That he has rendered six months of satisfactory active service in such position or in the civilian executive branch of the Federal Government immediately prior to the effective date of the change in status of the position, and continues to serve in such position for sixty days thereafter;

(b) That he shall pass such appropriate noncompetitive tests of fitness as the Commission may prescribe;

(c) That he is not disqualified by any provision of section 3 of Civil Service Rule V or of any other civil service rule or by any provision of the Civil Service Act or any other statute or executive order:

Provided further, that in conferring a classified competitive status upon any

employee under this or any other rule or any statute or executive order, the Commission:

(a) May, in its discretion, exempt from the physical requirements established for any position any employee who has rendered long and faithful service in a civil capacity for the Government;

(b) May consider a person whose name is carried on the compensation rolls of the Employees' Compensation Commission as having rendered satisfactory active service in the position in which he last served for the period which his name is carried on such rolls:

Provided further, that any person who in order to perform active service with the military or naval forces of the United States has left, or leaves, a position (other than a temporary position) which is covered into the classified civil service under this rule, may, upon being reinstated thereto, acquire a classified civil service status: Provided, That he is recommended by the head of the department or agency concerned within one year of his reinstatement and certified as having served with merit for at least six months and that he meets the requirements of clauses (b) and (c) of the first proviso of this section.

Any person who fails to meet the above-stated requirements of this section may, in the discretion of the head of the agency concerned, be retained in the position in which he is serving without acquiring a classified (competitive) status, but such employee may not be promoted, transferred, or assigned to any other classified (competitive) position.

first or second pilot has not made at least two take-offs and landings in scheduled air transportation in aircraft of a particular make and model, such person shall not thereafter serve or be employed to serve as a first or second pilot in aircraft of that make and model in such transportation without having made at least three take-offs and landings in such aircraft with one-half to three-fourths useful load, and, if he is to serve in such transportation at night, without having made at least one of the three take-offs and landings at night. No persons shall be carried during such three take-offs and landings other than personnel of the air carrier or other air carriers and inspectors of the Administrator.

§ 61.532 (Unassigned.)

9. By amending § 61.7020 (a) to read as follows:

§ 61.7020 (a) *Visual-contact operation (day or night).* No air carrier aircraft shall be dispatched or shall take off without fuel and oil sufficient, oonsidering the wind and other weather conditions to be encountered during the course of the flight, to complete flight to the first point of landing specified in the clearance, and thereafter to fly for a period of at least 45 minutes at normal cruising consumption for the flight.

10. By amending § 61.7021 (b) to read as follows:

§ 61.7021 (b) *Instrument or over-the-top operation (day or night).* No air carrier aircraft shall be dispatched or shall take off without fuel and oil sufficient, considering the wind and other weather conditions to be encountered during the course of the flight, to complete such flight to the next point of landing specified in the clearance; and thereafter.

(a) To fly to and land at the alternate airport for such point designated in the clearance which is most distant from such point, and thereafter

(b) To fly for a period of at least 45 minutes at normal cruising consumption for the flight.

11. By striking §§ 61.7109, 61.71090 (a), 61.71091 (b), 61.71092 (c), 61.71093 (d), 61.71094 (e), 61.71095 (f), and 61.71096 (g), and inserting in lieu thereof the following new sections:

§ 61.7109 *Instrument or over-the-top clearance.* The following rules with respect to weather conditions shall govern the dispatch of air carrier aircraft in air transportation for instrument or over-the-top flight:

§ 61.71090 *Weather conditions at terminal or intermediate airports.* Air carrier aircraft shall not be dispatched in air transportation unless:

(a) The observed weather information and current weather forecasts, pertaining to all landing points specified in the clearance, give sufficient indication at the time of clearance that the ceilings and visibilities are, or will be, when the flight would arrive at such point or points, at or above the minimums specified in the weather competency letter for letting-down-through; and

(b) The alternate airports required by § 61.71091 are specified.

§ 61.71091 *Alternate airport requirement.* (a) When the observed weather information and current weather forecasts pertaining to a landing point specified in the clearance indicate, at the time of clearance, that the ceiling and visibility are, and will remain until the flight would arrive at such point, at or above the minimums specified in the weather competency letter for letting-down-through, there shall be at least one alternate airport specified on the appropriate flight clearance for such point.

(b) When, at the time of clearance, the ceiling or visibility at a landing point specified in the clearance is below the minimums specified in the weather competency letter for letting-down-through, but the weather reports pertaining to such point at the time of clearance show a trend, by the hourly sequence and current forecasts, that indicates that the weather conditions will improve to or above such minimums upon arrival of the flight at such point, two alternate airports shall be specified in the appropriate flight clearance for such point.

§ 61.71092 *Types of alternate airports.* (a) If an alternate referred to in § 61.71091 is equipped with a radio range, the weather conditions existing thereat at the time of clearance must be equal to, or above, the ceilings and visibilities specified in the weather competency letter for letting-down-through at such airport when using it as an alternate airport and the hourly weather report sequence and current forecasts shall show a trend that indicates that such weather conditions will continue or improve at such alternate airport until the flight shall arrive thereat. The weather minimums at such alternate airport shall in no case be less than one of the following:

(1) A ceiling of 1,000 feet and visibility of 1 mile;

(2) A ceiling of 900 feet with a visibility of 1½ miles; or

(3) A ceiling of 800 feet with a visibility of 2 miles.

(b) If an alternate referred to in § 61.71091 is not equipped with a radio range, the weather conditions existing thereat, at the time of clearance, must be equal to, or better than, broken clouds and a ceiling of 1,000 feet and a visibility of 2 miles, and the hourly weather report sequence and forecasts shall show a trend that gives sufficient indication of weather conditions continuing or improving until the flight shall arrive thereat: *Provided*, That the Administrator may, in the interest of safety, prescribe higher minimums at individual airports.

12. By amending § 61.7100 to read as follows:

§ 61.7100 *Necessity for dispatching authorization.* No scheduled air carrier flight shall be started except on the authority of an aircraft dispatcher whose name appears in the airman competency letter as qualified for the route, or part thereof, on which the flight takes off. No such authority is required for take-offs from an intermediate stop between points specified in the original clearance unless the flight has been delayed for any reason more than 30 minutes. (See § 61.7103 for new flight clearance).

[18] A "workday" with respect to any employee shall be any consecutive twenty-four hours. If the employee works less than 12 hours a day, notation of the beginning and ending time of each compensable workperiod during the day will suffice. For the basis on which deductions or additions for board, lodging, or other facilities may be made and their cost to the employer determined, attention is called to Regulations Part 531, "*Regulations, Determining the Reasonable Cost of Board, Lodging, and Other Facilities.*"

If the additions to or deductions from wages paid (1) so affect the total cash wages due in any workweek (even though the employee actually is paid semi-monthly) as to result in the employee receiving less *in cash* than the minimum hourly wage provided in section 6 or in an applicable Wage Order, or (2) if the employee works in excess of 12 hours a day or 56 hours a week and (a) any additions to the wages paid are a part of that employee's wages or (b) any deductions made are claimed as allowable deductions under section 3 (m) of the Act, the employer shall then maintain records showing those additions to or deductions from wages paid on a workweek basis. [53] As to the effect of additions or deductions upon the regular hourly rate of pay, see Interpretative Bulletin No. 3. For the basis on which deductions or additions for board, lodging, or other facilities may be made and their cost to the employer determined, attention is called to Regulations Part 531, *"Regulations, Determining the Reasonable Cost of Board, Lodging, and Other Facilities."*

If the additions to or deductions from wages paid (1) so affect the total cash wages due in any workweek (even though the employee actually is paid semi-monthly) as to result in the employee receiving less *in cash* than the minimum hourly wage provided in section 6 or in an applicable Wage Order, or (2) if during any period the 14 workweek overtime exemption is not applicable the employee works in excess of 40 hours a week and (a) any additions to the wages paid are a part of that employee's wages, or (b) any deductions made are claimed as allowable deductions under section 3 (m) of the Act, the employer shall then maintain records showing those additions to or deductions from wages paid, on a workweek basis. (For legal deductions not claimed under Section 3 (m) and which need not be maintained on a workweek basis, see Paragraphs 15 through 17 of the Interpretative Bulletin No. 3 Rev. October 1940).

Every employer making additions or deductions shall also maintain in individual employee accounts a record of those types of items, and their separate credited or debited amounts, which compose the additions to or deductions from wages paid as well as specifying dates involved. For example:

6/5—coal, one half ton	$4.00
6/9—groceries	4.48
6/12—meat	1.20
6/16–6/22—house rent (wk.)	3.50
6/16–6/22—board and lodging (wk.)	6.00

For the period these and other records pertaining to debits and credits shall be preserved, see § 516.15 (c).

[54] This section relates to the record data and information required to be kept by employers on employees to whom is applicable:

(1) *That part of section 7 (c) reading:* "In the case of an employer engaged in the first processing of milk, whey, skimmed milk, or cream into dairy products, or in the ginning and compressing of cotton, or in the processing of cottonseed, or in the processing of sugar beets, sugar beet molasses, sugarcane, or maple sap, into sugar (but not refined sugar) or into syrup, the provisions of subsection 7 (a) shall not apply to his employees in any place of employment where he is so engaged," or

(2) Section 13 (b) (1) or 13 (b) (2) of the Act. (For an explanation of section 13 (b) (1) insofar as certain employees of Motor Carriers are concerned, see Interpretative Bulletin No. 9.)

[55] For the period records must be preserved, see §§ 516.14 and 516.15.

[56] For additional requirements on *Certain types of employees covered by more than one minimum hourly wage set by one or more Wage Orders*, see § 516.8.

For additional requirements on *Learners, apprentices, messengers, and handicapped workers under special certificates*, see § 516.9.

For additional requirements on *Employees dependent upon tips or gratuities as a part of wages*, see § 516.10.

[57] This shall be the same name as that used for Social Security record purposes.

[58] If the employee is a part of a workforce or employed in or by an establishment all of whose workers have a workweek beginning at the same time on the same day, a single notation of the time of the day and beginning day of the workweek for the whole workforce or establishment will suffice. If, however, any employee or group of employees has a workweek beginning and ending at a different time, a separate notation shall then be kept for that employee or group of employees.

PART 321—MINIMUM PRICE SCHEDULE, DISTRICT NO. 1

ORDER GRANTING TEMPORARY RELIEF AND CONDITIONALLY PROVIDING FOR FINAL RELIEF IN THE MATTER OF THE PETITION OF DISTRICT BOARD NO. 1 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 1

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 1; and

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

It appearing that this action is necessary in order to effectuate the purposes of the Act;

Now, therefore, it is ordered, That, pending final disposition of the above-entitled matter, temporary relief be, and the same hereby is, granted as follows: Commencing forthwith, § 321.7 (*Alphabetical list of code members*) is amended by adding thereto Supplement R, and § 321.24 (*General prices*) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

No price classifications and minimum prices are established herein for the Swanton Big Vein Mine (Mine Index No. 837) of the Swanton Big Vein Coal Company since temporary prices of coals of this mine for all shipments except truck and for truck shipments have been previously established in Docket No. A-964. The Swanton Big Vein Mine (Mine Index No. 837) is the same mine shown in Docket No. A-964 as the Swanton No. 1 Mine. Public hearing has been assigned in Docket No. A-964 on August 29, 1941 with respect to permanent price classifications and minimum prices for all coals of this mine.

Price classifications and minimum prices for the New Mine (Mine Index No. 857) of W. A. Francisco and for the Knight No. 2 Mine (Mine Index No. 829) of Thomas R. Knight were proposed on the basis of the temporary prices established on February 15, 1941, 6 F.R. 1040, in Docket No. A-356. Price classifications and minimum prices for these two mines have been established herein in conformity with the permanent price classifications and minimum prices established by the final Order in Docket No. A-356.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this Order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this Order, unless the Director shall otherwise order.

Dated: August 22, 1941.

CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

PART 1340—FUEL

PRICE SCHEDULE NO. 27—ANTHRACITE

Anthracite is used for space heating and for power production. It is essential to the health and efficiency of a multitude of consumers. Its principal market is the Middle Atlantic and New England states, where numerous workers in defense industries reside. Increases in the price of anthracite directly affect the cost of living.

On May 20 the prices of the smaller sizes of anthracite were advanced 15¢ and 25¢, for different sizes, and the prices of the domestic sizes were increased 10¢ on June 16 and again 10¢ on July 15.

Two conferences were then held with representatives of the mining companies and certain data were submitted by them to justify the price increases. On the basis of this and other available information, the representatives were requested to defer additional price increases announced for August 15 and September 15, pending submission of further information and its review by the Office of Price Administration and Civilian Supply. This request was not complied with, and on August 15 the prices of all domestic sizes were raised 15¢.

Every reasonable effort has been made to obtain sufficient information from the anthracite industry in order that the Office of Price Administration might determine the necessity for the proposed September 15 increase of 15¢ on domestic sizes. On August 22 the Office of Price Administration and Civilian Supply addressed a short questionnaire to the individual anthracite companies producing 100,000 tons of coal or more annually, and requested that the questionnaires be filled out and returned on or before September 2.

As of September 2 not more than two or three questionnaires had been returned. The Administrator on September 5 addressed a telegram to the companies asking that they submit individual replies by September 8.

The major companies have thus far failed to furnish the information requested. On September 8, eight major anthracite producing companies submitted a consolidated statement. This consolidated statement failed to disclose the operating position of individual producers; it did not set forth information requested by the questionnaire and thus further precluded adequate analysis of substantial items of purported expense. The need for such information from individual companies had been clearly stated at the conferences and in subsequent telegrams to the major companies. Some thirty questionnaires have been returned by smaller companies within the last few days.

The anthracite industry, although unprofitable since 1923 according to its records, has substantially improved its position since 1939. The industry overall profit for 1940 will almost certainly be increased for 1941.

The industry contends that the September 15 price increase, along with the earlier price advances made this year, is necessary to cover the increased labor and other costs that have occurred in 1941. The nature of the price and cost situation is not clearly indicated in the data so far submitted by the industry.

It is apparent that the Office of Price Administration must have further information to determine the necessity for the proposed September 15 increase. This Office in carrying out its responsibility for preventing inflationary prices must be furnished with such data and information as may be necessary for a fair and intelligent determination of the necessity for price increases. This Price Schedule, therefore, continues the August 15 circular prices in effect as maximum prices for the time being. The Office will give prompt attention to the requested data and any other information the companies may offer as soon as they are presented. If an appropriate showing is made, this Price Schedule will be amended or revoked.

Accordingly, under the authority vested in me by Executive Order No. 8734, it is hereby directed that:

§ 1340.71 *Maximum prices for anthracite coal.* On and after September 12, 1941, regardless of the terms of any contract of sale or purchase, or other commitment, no person shall sell, offer to sell, deliver or transfer anthracite coal at prices higher than the maximum prices f. o. b. mine set forth in Appendix A, incorporated herein as § 1340.79.*

*§§ 1340.71 to 1340.79, inclusive, issued pursuant to the authority contained in Executive Order No. 8734.

§ 1340.72 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid, or offered.*

§ 1340.73 *Evasion.* The maximum prices set forth in this Schedule shall not be evaded by additional charges of any kind, or by any other direct or indirect methods.*

§ 1340.74 *Enforcement.* In the event of refusal or failure to abide by the price limitations and other provisions contained in this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will make every effort to assure (a) that the Congress and the public are fully informed thereof, and (b) that the powers of the Government are fully exerted in order to protect the public interest and the interests of those persons who comply with this Schedule. Persons who have evidence of the demand or receipt of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, are urged to communicate with the Office of Price Administration.*

§ 1340.75 *Records and reports.* Every anthracite producer making sales of anthracite after September 12, 1941 shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such sale, showing the date thereof, the name and address of the buyer, the price received, and the quantity of each size sold.

Persons affected by this Schedule shall submit such reports to the Office of Price Administration as it may, from time to time, require.*

§ 1340.76 *Modification of the schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof or exception thereto.*

§ 1340.77 *Definitions.* When used in this Schedule, the term:

(a) "Person" means an individual, partnership, association, corporation, or other business entity;

(b) "Anthracite" means anthracite coal produced in the State of Pennsylvania.*

§ 1340.78 *Effective date of the schedule.* This Schedule shall become effective September 12, 1941.*

[Docket No. A-833]

PETITION OF DISTRICT BOARD 7 FOR AMENDMENT OF THE MARKETING RULES AND REGULATIONS INCIDENTAL TO THE SALE AND DISTRIBUTION OF COALS BY CODE MEMBERS WITHIN ALL DISTRICTS

MEMORANDUM OPINION AND ORDER DENYING PETITION FOR VACATION OF ORDER OF THE DIRECTOR DENYING RELIEF

On April 21, 1941, a petition was filed by District Board 7 with the Bituminous Coal Division, pursuant to the provisions of section 4 II (d) of the Bituminous Coal Act of 1937, requesting the amendment of the Marketing Rules and Regulations so as to provide that a discount shall be allowed on coal sold to registered distributors doing business in Canada for resale in the Dominion of Canada only if the coal is resold at a price not less than the minimum price at which such coal might be sold directly to Canadian consumers by the code member or his agent or distributor doing business in the United States.

On August 16, 1941, the Director issued his Findings of Fact in this matter and, on the basis of the conclusions drawn therefrom, denied the requested relief.

The petitioner has requested in a petition filed on August 30, 1941, that the Order of the Director entered in this proceeding on August 16, 1941 denying relief be reconsidered. Petitioner contends that the Director has taken the position in this matter that no strain on the minimum price structure is evident when the demand for coal is so great that it cannot be satisfied; and that if such a position were carried to its logical conclusion, all petitions for changes in the minimum price structure should be denied when the coal involved is being sold at levels above the effective minimum prices.

Such a contention fails to appreciate the various factors considered by the Director. The Director found, on the basis of the record in this matter, that the only advantage of the Canadian distributor in the sale of coal to Canadian consumers was due to the existence of a War Revenue Tax imposed by the Dominion of Canada. Such revenue tax is a special measure, invoked under war-time conditions as an exception to the so-called Reciprocal Tariff Agreement of 1939. Its adverse effect on the ability of the United States producers selling direct to Canadian consumers to maintain their existing fair competitive opportunities as nearly as possible is obviated by an abnormal demand encouraged by the very same war-time factors that led to its passage. Under normal conditions American producers and distributors are not under any disadvantage in the sale of coal to Canadian consumers. Presumably upon the return of normal conditions, the War Tax will be withdrawn and competitive equality will once again be restored. In the meanwhile there appears no need to grant relief for petitioner has failed to show that the tax, considered in the light of all the circumstances, was forcing United States producers who have sold coal direct to Canadian consumers to change their method of distribution. The Director concludes, therefore, that there is no cause to grant the requested change in the Marketing Rules and Regulations.

Now, therefore, it is ordered, That the petition of District Board 7 herein requesting that the Order of the Director denying relief in this matter be vacated is hereby denied.

Dated: September 10, 1941.

PETITION OF GEORGE VANDE VEN, A CODE MEMBER IN DISTRICT NO. 22, FOR MODIFICATION OF THE EFFECTIVE MINIMUM PRICE FOR CERTAIN COALS PRODUCED AT MINE INDEX NO. 256 IN THAT DISTRICT

ORDER DISMISSING PETITION

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, was filed with this Division in the above-entitled matter by George Vande Ven, a code member in District 22.

A formal hearing in the matter was originally set for June 2, 1941, in Washington, D. C. At the request of District Board No. 22, an intervener therein, and with the consent of the original petitioner, the hearing was continued to July 7, 1941, and thereafter continued to August 18, 1941, at a hearing room of the Division at Billings, Montana.

The original petitioner failed to appear or offer evidence in support of his petition when the hearing convened at Billings, Montana. Thereupon, District Board No. 22 moved that the original petition be dismissed, with prejudice. In that motion there concurred Messrs. G. S. Sargent and Spencer Perkins, code members in District No. 22, who appeared at the hearing as interested persons, opposing the granting of the relief requested in the original petition. The hearing was thereupon concluded, and the motion was referred by the trial examiner to the Director for determination.

Good cause therefor having been shown, and no objection thereto appearing,

It is hereby ordered, That the original petition filed in the above-entitled matter be, and it hereby is, dismissed without prejudice.

Dated: September 11, 1941.

PETITION OF DISTRICT BOARD NO. 12 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF CERTAIN MINES IN DISTRICT NO. 12

[Docket No. A-1018 Part II]

PETITION OF DISTRICT BOARD NO. 12 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF MINE INDEX NOS. 742, 764, 753, 754 AND 755 IN DISTRICT NO. 12, FOR TRUCK SHIPMENTS

MEMORANDUM OPINION AND ORDER SEVERING DOCKET NO. A-1018 PART II FROM DOCKET NO. A-1018, GRANTING TEMPORARY RELIEF IN DOCKET NO. A-1018 PART II, AND NOTICE OF AND ORDER FOR HEARING IN DOCKET NO. A-1081 PART II

The original petition in the above-entitled matter filed with this Division on August 19, 1941, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, prays for the establishment of temporary and permanent price classifications and minimum prices for the coals of certain mines in District No. 12.

As indicated in a separate Order issued in Docket No. A-1018, a reasonable showing of necessity has been made for the granting of the relief prayed for by petitioner except with respect to the establishment of permanent price classifications and minimum prices for truck shipments for the coals of the Delpierre-Davis Mine (Mine Index No. 742), the Blue Goose Mine (Mine Index No. 764), the Curtis Coal Co. Mine (Mine Index No. 753), the Howell Coal Co. Mine (Mine Index No. 754), and the Peewee No. 2 Mine (Mine Index No. 755).

While it appears that temporary relief for the coals of the above-enumerated mines should be granted, the Director is of the opinion that the original petition does not set forth facts sufficient to warrant the establishment of the price clas-

sifications and minimum prices requested therein for such coals without a hearing.

Now, therefore, it is ordered, That the portion of Docket No. A–1018 relating to the establishment of price classifications and minimum prices for truck shipments for the coals of Mine Index Nos. 742, 764, 753, 754 and 755 be, and the same hereby is, severed from the remainder of Docket No. A–1018 and designated as Docket No. A–1018 Part II.

It is further ordered, That a hearing in Docket No. A–1018 Part II, under the applicable provisions of said Act, and the rules and regulations of the Division, be held on September 29, 1941, at 10 o'clock in the forenoon of that day, at a hearing room of the Bituminous Coal Division, 734 Fifteenth Street NW., Washington, D. C. On such day the Chief of the Records Section in Room 502 will advise as to the room in which such hearing will be held.

It is further ordered, That Charles O. Fowler or any other officer or officers of the Division duly designated for that purpose, shall preside at the hearing in such matter. The officers so designated to preside at such hearing are hereby authorized to conduct said hearing, to administer oaths and affirmations, examine witnesses, subpoena witnesses, compel their attendance, take evidence, require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, to continue said hearing from time to time, and to prepare and submit to the Director proposed findings of fact and conclusions and the recommendation of an appropriate order in the premises and to perform all other duties in connection therewith authorized by law.

Notice of such hearing is hereby given to all parties herein and to persons or entities having an interest in these proceedings and eligible to become a party herein. Any person desiring to be admitted as a party to this proceeding may file a petition of intervention in accordance with the rules and regulations of the Bituminous Coal Division for proceedings instituted pursuant to section 4 II (d) of the Act, setting forth the facts on the basis of which the relief in the original petition is supported or opposed or on the basis of which other relief is sought. Such petition of intervention shall be filed with the Bituminous Coal Division on or before September 24, 1941.

All persons are hereby notified that the hearing in the above-entitled matter and any orders entered therein may concern, in addition to the matters specifically alleged in the petition, other matters necessarily incidental and related thereto, which may be raised by amendment to the petition, petitions of interveners or otherwise, or which may be necessary corollaries to the relief, if any, granted on the basis of this petition.

The matter concerned herewith is in regard to the petition of District Board No. 12 for the establishment of price classifications and minimum prices for truck shipments for the coals of the Delpierre-Davis Mine (Mine Index No. 742), the Blue Goose Mine (Mine Index No. 764), the Curtis Coal Co. Mine (Mine Index No. 753), the Howell Coal Co. Mine (Mine Index No. 754), and the Pewee No. 2 Mine (Mine Index No. 755).

It is further ordered, That, commencing forthwith, temporary relief, pending final disposition of the matter designated Docket No. A–1018 Part II, be and it hereby is granted as follows:

DEPARTMENT OF AGRICULTURE.

Agricultural Marketing Service.

[P. & S. Docket No. 402]

IN THE MATTER OF C. H. ACKER, DOING BUSINESS AS C. H. ACKER & COMPANY ET AL., PETITIONERS

NOTICE OF PETITIONS FOR MODIFICATION

By orders dated January 8, 1934, and March 12, 1934, made pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U.S.C. secs. 181–231), the Secretary of Agriculture prescribed maximum rates and charges for selling and buying livestock at the Union Stock Yards, Chicago, Illinois. By an order dated June 28, 1941, pursuant to a petition filed by the members of the Chicago Live Stock Exchange, the Assistant Secretary of Agriculture, with the consent of the petitioners, modified the order of March 12, 1934, and prescribed a higher schedule of rates for selling and buying livestock. Under the order, as modified, the rates for buying livestock are fixed at the same level as the rates for selling livestock. The new schedule of rates was made effective for a trial period of one year. Pursuant to petitions filed by the Chicago Producers Commission Association and the Farmers Union Live Stock Commission, the same rates, by subsequent consent orders, were made applicable to the business handled by those two concerns.

On or about August 22, 1941, the members of the Chicago Live Stock Exchange, the Chicago Producers Commission Association, the Farmers Union Live Stock Commission and the members of the Chicago Traders Live Stock Exchange, hereinafter referred to as the petitioners, filed petitions seeking a further modification of the orders of January 8, 1934, and March 12, 1934, as modified by the order of June 28, 1941. The petitioners seek a modification in the buying charges. The modification sought would reduce the charges for buying livestock assessed by all the petitioners except the members of the Chicago Traders Live Stock Exchange. As to the members of that Exchange, the proposed modification would effectuate an increase in their rates for buying livestock. The reasons alleged by the Chicago Live Stock Exchange, the Chicago Producers Commission Association and the Farmers Union Live Stock Commission for a decrease in buying rates, in substance, are as follows:

1. Previous to the establishment of Tariff No. 4, your petitioners had published and assessed charges for buying lower than the charges assessed for selling the same livestock.

2. The buying operations of the petitioners are confined almost exclusively to the purchase of feeder cattle, sheep and lambs for their regular customers for whom, as a rule, they sell fat cattle, sheep and lambs.

3. Some of our members and patrons have complained of the increase in charging for buying cattle.

4. We believe that it is justifiable to have the buying charges less than the selling charges especially in the case of maximums and that it fits better into this business both from the standpoint of custom and expense.

5. We find that filling orders for buying livestock incurs less expense than is incurred in selling livestock, particularly is this true in connection with the item for business getting and maintaining.

6. We find that there is at this time a serious lack of uniformity in the buying charges on this market.

The petitioners also seek a change in the tariff provisions relative to maximum carlot charges applicable to mixed cars of livestock so that the maximum charges applicable to mixed consignments in carlots will be applicable to carlot consignments containing only cattle and calves.

It appears that public notice should be given to all interested persons of the request of the petitioners for a further modification of the orders issued in this docket and to afford all interested persons, including patrons of the petitioners, an opportunity to manifest their desire to be heard on the matter.

It is therefore ordered, That this order shall be published in the FEDERAL REGISTER.

It is further ordered, That all interested persons who desire to be heard on this matter shall give notice thereof by filing a written request to be heard with the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, within 15 days from the date of the publication of this order.

It is further ordered, That a copy of this order be served upon the petitioners by registered mail.

Done at Washington, D. C., this 12th day of September 1941. Witness my hand and the seal of the Department of Agriculture.

Acting Secretary of Agriculture.

WHEREAS section 1 of the act of January 28, 1915, 38 Stat. 800 (U. S. C., title 14, sec. 1), as amended by sections 5 and 6 (a) of the act of July 11, 1941 (Public Law 166, 77th Congress), provides:

Such commutation shall be made as of the date such application is received at the headquarters of the deputy commissioner, or such later date as the application may show to be proper. PART 52—AUTHORIZATION OF INSURANCE CARRIERS

Sec.
52.1 Applicants currently authorized to write insurance under other Federal workmen's compensation laws.
52.2 Workmen's compensation endorsement.
52.3 Report by carrier of issuance of policy or endorsement; form.
52.4 Report; by whom sent.
52.5 Agreement to be bound by card report.
52.6 Report by employer operating temporarily in another compensation district.
52.7 Name of one employer only shall be reported on one card.

§ 52.1 *Applicants currently authorized to write insurance under other Federal workmen's compensation laws.* Any applicant currently authorized by the Commission to write insurance under the Longshoremen's and Harbor Workers' Compensation Act (44 Stat. 1424; 33 U.S.C. Chapter 18) or under the District of Columbia workmen's compensation law (45 Stat. 600; 19 D. C. Code, 11, 12) need not support its application with the evidence required by the regulations in Part 32, subchapter C of this Chapter, except the form of policy and endorsement which it proposes to use, unless specifically requested by the Commission, but instead its application may refer to the fact that it has been so authorized.*

*§§ 52.1 to 52.7, inclusive, issued under the authority contained in sec. 39 of the Longshoremen's and Harbor Workers' Compensation Act, 44 Stat. 1442; 33 U.S.C. 939, as made applicable to military, air, and naval bases outside the United States by the Act of August 16, 1941, Public Law 208, 77th Congress.

§ 52.2 *Workmen's compensation endorsement.* (a) The following form of endorsement applicable to the standard workmen's compensation and employers' liability policy shall be used with the form of policy approved by the Commission for use by an authorized carrier:

For attachment to Policy No. ———.

The obligations of paragraph one (a) of the Policy include the Longshoremen's and Harbor Workers' Compensation Act, being Public Law No. 803 of the 69th Congress, approved March 4, 1927, as extended by the provisions of the Act of Congress providing compensation for disability or death resulting from injury to persons employed at military, air, and naval bases and at certain other places, being Public Law No. 208 of the 77th Congress, approved August 16, 1941, and all laws amendatory thereof or supplementary thereto which may be or become effective while this Policy is in force.

The Company will carry out the provisions of section 35 of said Act. Insolvency or bankruptcy of the employer and/or discharge therein shall not relieve the Company from payment of compensation and other benefits lawfully due for disability or death sustained by an employee during the life of the Policy.

The Company agrees to abide by all the provisions of this Act and all lawful rules, regulations, orders, and decisions of the United States Employees' Compensation Commission and of the deputy commissioner, having jurisdiction, unless and until set aside, modified, or reversed by a court having jurisdiction of the parties and the subject matter.

This endorsement shall not be canceled prior to the date specified in this Policy for its expiration until at least thirty days have elapsed after a notice of cancelation has been sent to the Commission, to the Deputy Commissioner, and to this Employer.

All terms, conditions, requirements, and obligations expressed in this Policy or in any other endorsement attached thereto which are not inconsistent with or inapplicable to the provisions of this endorsement are hereby made a part of this endorsement as fully and completely as if wholly written herein.

References to the law of any State in Conditions B and D of this Policy are hereby declared to include for the purpose of this endorsement only, the provisions of the Longshoremen's and Harbor Workers' Compensation Act and the said Act of Congress approved August 16, 1941 (Public Law No. 208, 77th Congress).

(b) The following undesignated paragraphs may at the option of the insurer be included in the form of endorsement which is provided above. No other provision, alteration of any prescribed provision, or alteration of any optional provision shall be made or used in any such endorsement except after submission to the Commission and its specific approval thereof.

If this Employer is a contractor the subject of whose contract includes operations covered by this Policy and he shall subcontract all or any part of such contract to one or more sub-contractors, the remuneration of all the direct employees of all such sub-contractors shall be included in the return of remuneration under the provisions of this Policy upon which premium is computed. Such remuneration so reported shall be considered the remuneration of employees of this Employer and shall in all instances be governed by the same terms, conditions, requirements, and obligations of the Policy as the remuneration of the direct employees of this Employer. The requirements of this paragraph shall not apply as respects any such sub-contractor who has secured compensation for his direct employees as required by the Longshoremen's and Harbor Workers' Compensation Act, but this Employer shall not claim the benefit of this exemption unless and until he shall satisfy the Company by certificate or otherwise that any such sub-contractor has legally secured the payment of compensation to his own direct employees and then only respecting any sub-contractor who has furnished such proof.

If the premium as determined in accordance with the provisions of the Policy is less than $300, there shall be added thereto an Expense Constant of $10, unless such addition shall increase the premium to an amount in excess of $300, in which event only such part of the Expense Constant shall be added as will bring the amount of the premium up to $300. Inclusion of the Expense Constant or any part thereof in the Estimated Advance Premium is subject to final adjustment upon audit, all in accordance with the provisions hereof. The minimum Premium of the Policy includes the Expense Constant.

(c) In applying the regulations in Part 32, subchapter C of this Chapter as the regulations issued under this subchapter, all references to the Longshoremen's endorsement shall be construed as having reference to the workmen's compensation endorsement prescribed herein.*

§ 52.3 *Report by carrier of issuance of policy or endorsement; form.* (a) A carrier which has executed the agreement provided for in § 52.5 shall report to the deputy commissioner assigned to a compensation district, each policy and endorsement issued by it to an employer who carries on operations in such compensation district. The report shall be made upon a printed card to be provided by such carrier. Such card shall be 50 percent rag, light yellow, light weight, and 3 by 5 inches. The printing thereon shall be as follows:

(Policy No.) (Dates of beginning and expiration)

Report is made of this issue of approved form of policy and endorsement under Longshoremen's and Harbor Workers' Compensation Act, as extended to military, air and naval bases by the Act of August 16, 1941.

This card to be sent to the Deputy Commissioner of the United States Employees' Compensation Commission in the compensation district indicated by the Employer's address.

(b) Each such carrier will print its name at the place indicated. The note at the bottom designating the place to which the card shall be sent should be in small type, about 6 point, and if desired this designation may be printed on the back of the card. The space below the word "employer" should be sufficient to allow two additional lines for typing below the word "address". The word "employer" should be about ¾ of an inch from the top margin. The line for cancelation date will be filled in only by the office of the deputy commissioner.*

§ 52.4 *Report; by whom sent.* The report of issuance of a policy and endorsement provided for in § 52.3 shall be sent by the home office of the carrier to the deputy commissioner at his headquarters, except that any carrier may authorize its agency or agencies in any compensation district to make such reports to the deputy commissioner, provided the carrier shall notify the deputy commissioner in such district of the agencies so duly authorized. The deputy commissioner in turn shall supply to his sub-offices current lists showing the policies so reported, giving the names and addresses of the employers, with the names of their respective carriers, the policy numbers and the dates of beginning and expiration of the policies. Similar current lists of cancelations shall also be furnished to sub-offices.*

§ 52.5 *Agreement to be bound by card reports.* (a) Except as provided in this section, each employer shall present to the deputy commissioner in the compensation district in which he has operations, the policy which he has procured in compliance with section 32 of the Longshoremen's and Harbor Workers' Compensation Act (44 Stat. 1439; 33 U.S.C. 932), as extended by the Act of August 16, 1941, covering his operations in such district. Any carrier desiring to do so may make such presentation of such policy unnecessary in any particular case by transmitting to the Commission an agreement signed by its President and Secretary (or other authorized officers in case of foreign or mutual companies or State funds), in the following form, and making reports accordingly of the issuance of a policy in such particular case:

The _____ Insurance Company hereby agrees, in consideration of the acceptance by the United States Employees' Compensation Commission and its deputy commissioners of reports of issue of approved form of policy and endorsement under the Longshoremen's and Harbor Workers' Compensation Act as extended to military, air, and naval bases by the Act of August 16, 1941 (Public Law 208, 77th Congress) in the form prescribed by the Commission in section 52.3 of its regulations, that it will be liable and hereby accepts the full liability expressed in the approved form of endorsement under said law in all cases in which it has heretofore and may hereafter use the prescribed form of report to deputy commissioners and transmit the same to the proper deputy commissioner; and it further agrees that such liability shall not be terminated prior to the expiration of the policy, except in case of cancelation, and then at the time and in the manner which is prescribed in said law, in the regulations of said Commission, and in the endorsement referred to.

(b) An insurance carrier desiring to withdraw from such agreement may do so upon giving 30 days notice to the Commission by registered mail.*

§ 52.6 *Report by employer operating temporarily in another compensation district.* Where an employer having operations in one compensation district contemplates engaging in work subject to the said Act of August 16, 1941, in another compensation district, a carrier which has executed the agreement provided for by § 52.5 may submit to the deputy commissioner of such latter district a report on the card form prescribed by § 52.3, containing the address of the employer in the first mentioned district with the additional notation "No present address in ——— compensation district. Certificate requested when address given".*

§ 52.7 *Name of one employer only shall be reported on one card.* A separate report of the issuance of a policy and endorsement, provided for by § 52.3, shall be made for each employer covered by a policy. If a policy is issued insuring more than one employer, a separate card report for each employer so covered shall be sent to the deputy commissioner concerned, with the name of only one employer on each such report.*

The Commission in its discretion may require the applicant to submit such further information or such evidence as the Commission may deem necessary to have in order to enable it to give adequate consideration to such application. Such application shall be signed by the applicant over his typewritten name and if the applicant is not an individual, by the principal officer of the applicant duly authorized to make such application, over his typewritten name and official designation and shall be sworn to by him. If the applicant is a corporation, the corporate seal shall be affixed. The application shall be filed with the Commission. The regulations in this part shall be binding upon each applicant hereunder and the applicant's consent to be bound by all requirements of the said regulations shall be deemed to be included in and a part of the application, as fully as though written therein.*

(2) A sworn statement showing by classifications the pay roll of employees of the self-insurer who are engaged in employments within the purview of the said Act of August 16, 1941.

(3) A sworn statement of payments of compensation in current cases during any specified quarter, showing the nature of injury in each case.

(4) A sworn statement covering the 6 months' period preceding the date of such report, listing by compensation districts all death and injury cases which have occurred during such period, together with a report of the status of all outstanding claims, showing the particulars of each case.

(b) Whenever it deems it to be necessary, the Commission may inspect or examine the books of account, records, and other papers of a self-insurer for the purpose of verifying any financial statement submitted to the Commission by such self-insurer or verifying any information furnished to the Commission in any report required by this section, or any other section of the regulations in this subchapter, and such self-insurer shall permit the Commission or its duly authorized representative to make such an inspection or examination as the Commission shall require. In lieu of this requirement the Commission may in its discretion accept an adequate report of a certified public accountant.*

PART 54—ISSUANCE OF CERTIFICATES OF COMPLIANCE

Sec.
54.1 Issue of certificates of compliance.
54.2 Same; employer operating temporarily in another compensation district.
54.3 Return of certificates of compliance.

§ 54.1 *Issue of certificates of compliance.* (a) Every employer who has secured the payment of compensation by obtaining a policy of insurance as provided by section 32 of the Longshoremen's and Harbor Workers' Compensation Act (44 Stat. 1439; 33 U.S.C. 939) and by Part 52 of the regulations in this subchapter will receive from the deputy commissioner in the compensation district in which he has operations, a certificate that such employer has secured the payment of such compensation. Only one such certificate will be issued to an employer in a compensation district, and it will be valid only during the period for which such employer has secured such payment. An employer so desiring may have photostatic copies of such a certificate made for use in different places within the compensation district. A certificate of compliance will be issued by the deputy commissioner to any employer having operations in his

district (1) upon receipt by the deputy commissioner and acceptance by him of a card report of the issuance of a policy to the employer concerned, as provided by § 52.3, by an authorized insurance carrier which has filed an agreement to be bound by such card report in conformity with § 52.5, or (2) upon presentation to the deputy commissioner by the employer concerned (and not by an insurance carrier, insurance agent, or broker) of the policy of insurance, and endorsement thereon, issued to the employer in conformity with Part 52 by an authorized insurance carrier which has not filed the agreement provided for by § 52.5.

(b) Every employer who has been granted the privilege of self-insurance as provided by section 32 of the Longshoremen's and Harbor Workers' Compensation Act and by Part 53 of the regulations in this subchapter will receive from the deputy commissioner a certificate that he has complied with the said law with respect to the securing of the payment of compensation. Only one such certificate will be issued to an employer and it will be valid only during the period stated in such certificate.

(c) Two forms of such certificates have been provided by the Commission, one form for use where the employer has obtained insurance generally under the regulations in this subchapter and one for use where the employer has been authorized as a self-insurer.*

*§§ 54.1 to 54.3, inclusive, issued under the authority contained in sec. 39 of the Longshoremen's and Harbor Workers' Compensation Act, 44 Stat. 1442; 33 U.S.C. 939, as made applicable to military, air, and naval bases outside the United States by the Act of August 16, 1941, Public Law 208, 77th Congress.

§ 54.2 *Same; employer operating temporarily in another compensation district.* A deputy commissioner receiving a card report of the issue of a policy of insurance with the notation authorized by § 52.6 will file such card report until he receives from the insured employer named therein a request for a certificate of compliance, giving the address of the employer within the compensation district of such deputy commissioner. Upon receipt of such a request the deputy commissioner will send the proper certificate of compliance to such employer at such address.*

§ 54.3 *Return of certificates of compliance.* Upon the termination by expiration, cancelation or otherwise, of a policy of insurance issued under the provisions of said Act of August 16, 1941, and the regulations in this subchapter, or the revocation or termination of the privilege of self-insurance granted by the Commission, all certificates of compliance issued on the basis of such insurance or self-insurance shall be void and shall be returned by the employer to the deputy commissioner issuing them with a statement of the reason for such return. An employer holding a certificate of compliance under an insurance policy which has expired, pending renewal of such insurance need not return such certificate of compliance if such expired insurance is promptly replaced. An employer who has secured renewal of insurance upon the expiration of a policy under said Act or whose self-insurance thereunder is reauthorized without a break in the continuity thereof need not return an expired certificate of compliance.*

PUBLIC CIRCULAR NO. 6 UNDER EXECUTIVE ORDER NO. 8389, APRIL 10, 1940, AS AMENDED, AND REGULATIONS ISSUED PURSUANT THERETO, RELATING TO TRANSACTIONS IN FOREIGN EXCHANGE, ETC.[1]

(1) Any licenses which may be issued permitting the redemption or purchase for sinking fund purposes or other purchase for blocked accounts of bonds, debentures or similar obligations issued by governments of blocked countries, including political subdivisions, or by corporations organized under the laws of any blocked country, will be so limited as to allow such redemption or purchase only of such securities to which Treasury Department Form TFEL–2 has been previously attached or affixed by, or under the direction of, the Treasury Department.

(2) Applications for the attachment of Form TFEL–2 should be filed on Form TFE–2A with the Federal Reserve Bank for the district or with the Governor or High Commissioner of the territory or possession of the United States in which the applicant resides or has his principal office or agency. Copies of Form TFE–2A may be obtained from any such Federal Reserve Bank or Governor or High Commissioner or from the Treasury Department, Washington, D. C.

CHAPTER IX—OFFICE OF PRODUCTION MANAGEMENT

SUBCHAPTER B—PRIORITIES DIVISION

PART 937—ZINC

Interpretation With Respect to General Preference Order No. M–11, as Heretofore Amended

SEPTEMBER 15, 1941.

Amendment to General Preference Order No. M–11,[4] issued by the Director of Priorities June 28, 1941, provides in paragraph (c) (1) that after a Producer of Metallic Zinc, Zinc Oxide and Zinc Dust has set aside an amount determined by the Director of Priorities, he shall ship the balance of his production in such manner that each customer shall receive a percentage of the Producer's commitments to him for the month, including both Defense Orders and non-defense orders equal to the percentage received by every other customer.

Priorities Regulation No. 1,[5] issued August 27, 1941, requires the acceptance of Defense Orders subject to the provisions therein set forth.

If a Producer of Metallic Zinc, Zinc Oxide and Zinc Dust is required to accept Defense Orders it would make it virtually impossible for such Producer to comply with the provisions of paragraph (c) (1) of General Preference Order No. M–11. Accordingly, it is found that Regulation No. 1 is inconsistent with the specific provisions of General Preference Order No. M–11, as amended, to the extent that it would require an acceptance of Defense Orders by Producers of Zinc, Zinc Oxide and Zinc Dust and to this extent Regulation No. 1 is found to be inapplicable to such Producers.

Persons needing Metallic Zinc, Zinc Oxide or Zinc Dust for the fulfillment of Defense Orders and who are unable to obtain the necessary Zinc should make application to the Zinc Branch of the Office of Production Management for the allocation of Zinc as in the past.

Director of Priorities.

PART 958—REPAIRS

Interpretation of Preference Rating Order No. P–22

The following official interpretation is hereby issued by the Director of Priorities with respect to § 958.1, *Preference Rating Order No. P–22*,[6] dated September 9, 1941.

Where an individual, partnership, association, corporation, governmental unit or other organization operates two or more plants, one or more of which is within any of the classifications listed in paragraph (a) (1) (i-xx) of said § 958.1 and the remainder of which are not within such classifications, the Order permits the application of the preference rating only to deliveries of material required for repair purposes in those plants within the classifications specified in said paragraph (a) (1) (i-xx) of said Order. The rating may not be applied to obtain repair material for plants not engaged in the specified activities.

Issued this 15th day of September 1941.

Director of Priorities.

An A–3 preference rating is assigned to this purchase order pursuant to Limited Preference Rating Order P–54. This application of the rating is made by the Producer upon the conditions set forth in said Order, with which we are familiar.

Authorized signature for producer

Such endorsement shall constitute a certification to the Office of Production Management that such Material is required to the extent ordered in order to produce the number of Defense Products within the limits authorized.

(2) A Supplier in order to apply the preference rating to a delivery of Material to him must endorse the following statement on the original and all copies of the purchase order or contract for such Material signed by a responsible official duly designated for such purpose by such Supplier:

Such endorsement shall constitute a certification to the Office of Production Management that such Material is required to the extent ordered in order to fill a purchase order placed by a Producer or Supplier duly rated in accordance herewith. Any such Supplier's purchase order or contract shall be restricted to Material the delivery of which is rated in accordance herewith.

(3) A Producer or Supplier placing any such rated purchase orders or con-

tracts and the Supplier selling the Material covered thereby, must each retain endorsed copies of such purchase orders or contracts segregated from all other purchase orders or contracts for a period of two years from the date thereof for inspection by authorized representatives of the Office of Production Management.

(e) *Restrictions on application of rating.* The preference rating hereby assigned shall not be applied:

(1) *By a producer* to obtain deliveries of materials in excess of the amount needed for the production of the Defense Products, taking into consideration existing inventories of the Producer, and subject to any limitation contained in Limitation Order L–1–a, or in any other Order or direction issued by the Director of Priorities. If a Producer has sufficient Material to produce the authorized number of Defense Products and still have a practicable minimum working inventory, he shall not make use of the rating to obtain delivery of such Material.

(2) *By a supplier* to obtain Material in excess of the amount necessary to make rated deliveries, taking into consideration existing inventories of the Supplier. If a Supplier has sufficient Material to enable him to make his rated deliveries and still have a practicable minimum working inventory, he shall not make use of the rating to obtain delivery of such Materials.

(3) *By a producer or a supplier.* (i) Unless the Material to be delivered cannot be obtained when required without such rating,

(ii) To obtain deliveries earlier than required,

(iii) To deliveries of Materials on purchase orders placed after November 1, 1941,

(iv) To deliveries of materials on purchase orders calling for delivery after November 30, 1941.

PART 976—MOTOR TRUCKS, TRUCK TRAILERS AND PASSENGER CARRIERS

Limitation Order L–1–a to Restrict the Production of Medium Motor Trucks, Truck Trailers, Passenger Carriers and Replacement Parts

Whereas the manufacture of medium motor trucks, truck trailers and passenger carriers requires the utilization of large quantities of aluminum, chromium, copper, nickel, nickel steel, rubber, steel, tin, tungsten and other critical materials, and national defense requirements have created a shortage of these materials for the combined needs of defense, private account and export; action has already been taken to conserve the supply and direct the distribution of such materials to insure deliveries for defense and for essential civilian requirements; and the present supply of these materials will be insufficient for defense and essential civilian requirements unless the manufacture of medium motor trucks, truck trailers and passenger carriers is curtailed and the use of critical materials for such manufacture thereby reduced;

Now therefore, it is hereby ordered, that § 976.1 is amended to read as follows:

§ 976.1 *General limitation order L–1–a*—(a) *Definitions.* For the purposes of this Order.

(1) "Medium Motor Truck" means a complete motor truck or truck-tractor of a rated capacity (as advertised by the Producer prior to August 1, 1941) of one and one-half tons or more, but less than three tons, or the chassis, body or cab therefor.

(2) "Truck-trailer" means a complete semi-trailer or full trailer having a cargo-carrying capacity (as advertised by the Producer prior to August 1, 1941) of five tons or more, designed exclusively for the transportation of property, or the chassis or body therefor.

(3) "Passenger Carrier" means a complete motor or electric coach for passenger transportation, having a seating capacity of not less than 15 persons, or the chassis or body therefor.

(4) "Defined Parts" means only the following functional parts (including components entering into such parts) used for the manufacture or repair of heavy trucks, medium trucks, truck-trailers and passenger carriers; engine, clutch, transmission, propeller shaft, axles, brakes, wheels, hubs, drums, starting apparatus, spring suspension, brackets and shackles; gauges, speedometers, motors, fuses, flares, directional signals, rear-view mirrors, windshield wipers, control mechanisms, steering apparatus, driving gears, coupling devices; also the exhaust, cooling, fuel and electrical systems, including generators, lights, reflectors and batteries; and, but only as to parts for passenger carriers, heating, ventilating and door-opening equipment.

(5) "Producer" means any individual, partnership, association, corporation or other form of business enterprise, engaged in the manufacture of Motor Trucks, Truck-Trailers, Passenger Carriers or Defined Parts.

(b) *General restriction.* During the period commencing September 1, 1941 and ending November 30, 1941:

(1) A Producer shall not manufacture more than one-half the number of Medium Motor Trucks, Truck-Trailers and Passenger Carriers, as the case may be, produced by him during the period from January 1, 1941 to June 30, 1941.

(2) A Producer shall not manufacture, for replacement purposes, more than 60% of that number of Defined Parts sold by him for replacement purposes during the period from January 1, 1941 to June 30, 1941.

(3) The determination of the number of each category of vehicles produced, or of each category of parts sold, during the period from January 1, 1941 to June 30, 1941, shall exclude, and the foregoing limitation upon the number of each category of vehicles or parts which may be produced by any Producer during the three-month period, September 1, 1941 to November 30, 1941, shall not apply to any such vehicles or parts produced under contracts or orders for delivery to or for the account of:

(iii) Any agency of the United States Government for material or equipment to be delivered to, or for the account of, the government of any country listed above, or any other country, including those in the Western Hemisphere, pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States." (Lend-Lease Act.)

(4) Each Producer must comply with such directions and instructions as may be issued from time to time by the Director of Priorities of the Office of Production Management with respect to the reduction or elimination of scarce materials in the production of motor trucks, truck-trailers, passenger carriers and parts or components therefor.

(c) *Records.* All persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production and sales.

(d) *Audit and inspection.* All records required to be kept by this Order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the Office of Production Management.

The Director of Priorities may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35A of the Criminal Code (18 U.S.C. 80).

(g) *Appeal.* Any person affected by this Order who considers that compliance herewith would work an exceptional and unreasonable hardship upon him, may appeal to the Division of Priorities by addressing a letter to the Automotive Branch of the Division of Civilian Supply, Office of Production Management, Washington, D. C., setting forth the pertinent facts and the reasons such person considers that he is entitled to relief. The Director of Priorities may thereupon take such action as he deems appropriate.

(h) *Effective date.* This Order shall take effect upon the date of the issuance thereof and shall continue in effect until revoked by the Director of Priorities subject to such amendments or supplements thereto as may be issued from time to time by the Director of Priorities. (P.D. Reg. 1, Aug. 27, 1941, 6 F.R. 4489; OPM Reg. 3, March 8, 1841, 6 F.R. 1596; E.O. 8629, Jan. 7, 1941, 6 F.R. 191; E.O. 5875, Aug. 28, 1941; 6 F.R. 4483; sec. 2 (a), Public No. 671, 76th Congress, Third Session, as amended by Public No. 89, 77th Congress, First Session; sec. 9, Public No. 783, 76th Congress, Third Session.)

General Limitation Order L–3 To Restrict the Production of Light Motor Trucks

Whereas, the manufacture of light motor trucks requires the utilization of large quantities of copper, nickel, nickel steel, rubber, steel, tin, tungsten and other critical materials, and national defense requirements have created a shortage of these materials for the combined needs of defense, private account and export; action has already been taken to conserve the supply and direct the distribution of such materials to insure deliveries for defense and for essential civilian requirements; and the present supply of these materials will be insufficient for defense and essential civilian requirements unless the current rate of manufacture of light motor trucks is restricted and the use of critical materials for such manufacture thereby reduced;

(d) *Distribution among models, types and series.* So far as practicable, each Producer shall distribute his total production of Light Motor Trucks among various models, series, types and price classes of Light Motor Trucks in the same proportion as he maintained on an average for the three model years terminating in 1941.

(e) *Exemption of production of light motor trucks for governmental use.* Nothing in this Order shall limit, and each Producer is specifically authorized to manufacture in addition to the number of Light Motor Trucks Authorized above, any number of Light Motor Trucks under specific contracts or orders placed by or for the account of:

The Director of Priorities may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35A of the Criminal Code (18 U.S.C. 80).

(k) *Appeal.* Any Producer affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him may appeal to the Director of Priorities by addressing a letter to the Automotive Branch, Office of Production Management, Social Security Building, Washington, D. PART 980—RAYON YARN

General Preference Order M-37 To Conserve the Supply and Direct the Distribution of Rayon Yarn

Whereas because of National Defense requirements drastic restrictions have been placed upon deliveries and processing of raw silk, and such restrictions have operated to increase the demand for rayon yarn and thus create a shortage of such yarn; and

Whereas the total output of the rayon yarn industry is at present insufficient to meet the total of defense needs and existing civilian demand, plus the new civilian demand caused by the substitution of rayon yarn for silk; and

Whereas because of such shortage of rayon yarn, it is necessary and appropriate in the public interest and to promote the national defense to allocate such rayon yarn in the manner and to the extent in this Order provided; and

Whereas the Office of Price Administration and Civilian Supply issued a Civilian Allocation Program for rayon yarn on August 2, 1941, which became effective on August 4, 1941, and has from time to time been modified, and it is advisable to continue and implement said Program as now modified;

Now, therefore, it is hereby ordered, That:

§ 980.1 *General preference order*—(a) *Applicability of Priorities Regulation No. 1.* All of the provisions and definitions of Priorities Regulation No. 1, issued by the Director of Priorities on August 27, 1941, shall be deemed a part of this Order.

(b) *Additional definitions.* For the purposes of this Order

(1) "Rayon yarn" means continuous filament rayon yarn made by the cuprammonium, viscose or acetate process.

(2) "Producer" means and includes any person who manufactures rayon yarn.

(c) *Directions with respect to residual supply*—(1) *Rayon yarn produced by the viscose and cupra-ammonium processes.* (i) After providing for defense orders in accordance with the provisions of Priorities Regulation No. 1, each producer using the viscose or cupra-ammonium processes shall each day hereafter set aside an amount of his rayon yarns so manufactured, of the types set forth in subparagraph (5) below equal to 10% of such producer's total output for that day. In addition, each such producer shall set aside in the month of September an amount of the said rayon yarns of the types set forth below equal to 10% of all stocks of rayon yarn which such producer had on hand on August 4, 1941, together with 10% of such producer's total output of the said rayon yarns during the period from August 4, 1941, to the effective date of this Order, less any amount which has heretofore been sold or disposed of in accordance with the provisions of the allocation program of the Office of Price Administration and Civilian Supply as from time to time heretofore amended.

(ii) Each such producer shall sell and deliver the amounts so set aside to former users of silk to take the place of silk formerly consumed by them, only as follows:

(a) 70% of the said amount to manufacturers, jobbers, and converters, for use in making hosiery.

(b) 15% of said amount to manufacturers, jobbers, and converters, for use in making products other than hosiery.

(c) 15% of said amount to such persons and in such amounts as the Director of Priorities shall specify as necessary for the relief of undue hardship.

(2) *Rayon yarn produced by the acetate process.* (i) After providing for defense orders in accordance with the provisions of Priorities Regulation No. 1, each producer using the acetate process shall each day hereafter set aside an amount of his rayon yarns so manufactured of the types set forth in subparagraph (5) below equal to 3% of such producer's total output for that day. In addition, each such producer shall set aside in the month of September an amount of the said rayon yarns of the types set forth below equal to 3% of all stocks of rayon yarn which such producer had on hand on August 4, 1941, together with 3% of such producer's total output of the said rayon yarns during the period from August 4, 1941, to the effective date of this Order, less any amount which has heretofore been sold or disposed of in accordance with the provisions of the allocation program of the Office of Price Administration and Civilian Supply as from time to time heretofore amended.

(ii) Each such producer shall sell and deliver the amounts so set aside to former users of silk to take the place of silk formerly used by them, only as follows:

(a) 50% of the said amount to manufacturers, jobbers, and converters, for use in making products other than hosiery.

(b) 50% of the said amount to such persons and in such amounts as the Director of Priorities shall specify as necessary for the relief of undue hardship.

(3) *No discrimination in sales.* In making sales or deliveries pursuant to subparagraphs (1) (ii) (a), (1) (ii) (b) or (2) (ii) (a) hereof, no producer shall discriminate among persons eligible to purchase such yarns in favor of former customers for rayon yarn.

(4) *No limitation on balance of yarn.* After providing for all deliveries under defense orders, and after setting aside the amounts of yarn specified in subparagraphs (1) and (2) hereof, each producer may sell and deliver rayon yarn without limitation.

(5) *Allocation by types.* Each producer in complying with subparagraphs (1) and (2) hereof shall set aside for such purposes types of rayon yarn from which it is practical to manufacture hosiery and other products heretofore made largely or wholly from silk. So far as the producer's plant and method of doing business make such a course possible, the amount of rayon yarn so set aside, by types, shall be in denier sizes and lusters in approximate proportion to the general demand therefor by manufacturers of hosiery and by other manufacturers whose products have heretofore been made largely or wholly from silk.

(6) *Doubtful cases.* Whenever there is reasonable doubt as to the eligibility of any person to receive rayon yarn hereunder, the matter should be referred to the Division of Priorities for determination with a statement of all pertinent facts.

(7) *Appeals for relief from hardship.* Any person affected by this Order, who considers that exceptional and unreasonable hardship has been imposed upon him thereby, may appeal to the Division of Priorities, by letter or telegram, setting forth the pertinent facts, addressed to the Division of Priorities, Silk Substitution Appeals Section, Office of Production Management, Social Security Building, Washington, D. C. In every case where any such appeal requests delivery of rayon yarn under subparagraphs (1) (ii) (c) or (2) (ii) (b) hereof, it should be accompanied by 2 copies of Form PD 102[1] properly filled out and executed. A copy of said form is annexed hereto as Exhibit A.

(8) *Reports.* Each producer shall file with the Division of Priorities, Silk Substitution Appeals Section, at the times specified thereon, reports on Forms PD 103 (a), 103 (b), and PD 104,[1] copies of which are annexed hereto as Exhibits B and C.

(9) *No representation as to suitability of any process of rayon manufacture or of rayon yarn for any purpose.* Nothing herein contained shall be construed as any representation by the Government as to the suitability or adaptability of rayon yarn manufactured by any process as a substitute for silk in hosiery or in any other product or as to the better suitability therefor of rayon yarn manufactured by any process as compared with such yarn manufactured by any other process.

(d) *Effective date.* This Order shall take effect immediately upon issuance thereof and shall expire at midnight on September 30, 1941, unless sooner terminated by direction of the Director of Priorities. (P.D. Reg. 1, August 27, 1941, 6 F.R. 4489; OPM Reg. 3, March 8, 1941, 6 F.R. 1596; E.O. 8629, January 7, 1941, 6 F.R. 191; E.O. 8875, August 28, 1941, 6 F.R. 4483; sec. 2 (a), Public No. 671, 76th Congress, 3d Sess., as amended by Public No. 89, 77th Congress, 1st Sess.; sec. 9, Public No. 783, 77th Congress, 3d Sess.)

Whereas the manufacture of passenger automobiles consumes large quantities of aluminum, chromium, copper, nickel, nickel steel, rubber, steel, tin and tungsten; national defense requirements have created a shortage in these materials for defense, for private account and for export; action has already been taken to conserve the supply and direct the distribution of each of these materials to insure deliveries for defense and for essential civilian requirements; and the present supply of these materials will be insufficient for defense and assential civilian requirements unless the current rate of manufacture of passenger automobiles is greatly curtailed and consumption of these materials thereby greatly reduced;

PART 1201—DISCRIMINATION IN DEFENSE HOUSING OR DEFENSE PUBLIC WORKS

SUPPLEMENT TO REGULATION, DATED MARCH 4, 1941, PROVIDING AGAINST DISCRIMINATION IN WORK ON DEFENSE HOUSING, TO PROVIDE AGAINST DISCRIMINATION IN WORK ON DEFENSE PUBLIC WORKS

Part 1201 is amended by adding the following new section:

§ 1201.3 *Negro labor and defense public works.* In order to ascertain compliance, in respect to Negro labor, with § 1201.1, providing against discrimination in work on defense housing or defense public works, it is requested that:

(a) Contracting officers in charge of the development of defense public works undertaken, and public and private agencies to which loans or grants are made for defense public works, pursuant to the Act of October 14, 1940 (Public No. 849, 76th Congress), as amended by the Act of April 29, 1941 (Public No. 42, 77th Congress) and by the Act of June 28, 1941 (Public No. 137, 77th Congress), shall after the effective date of this section:

(1) Submit to each contractor engaged in constructing any such defense public works, the percentage of Negro skilled and unskilled labor in the locality of the project, as reflected by the Federal census and other relevant data, as determined by the Director of the Defense Public Works Division.

(2) Require each contractor engaged in constructing any such defense public works to indicate by notation (W for Non-Negro, N for Negro) on pay-roll forms required to be submitted to the Government, or to such public or private agencies, the race of each laborer, skilled or unskilled, listed on such payroll forms; and

(3) Ascertain and report to the Director of the Defense Public Works Division at the end of each 4-week period of such construction, the respective amounts paid by each such contractor during such period as wages, for work in the development of defense public works at the sites thereof to (i) Non-Negro skilled labor (irrespective of individual trades); (ii) Negro skilled labor (irrespective of individual trades); (iii) Non-Negro unskilled labor; and (iv) Negro unskilled labor.

(b) If the percentages, of the total amounts so paid for all skilled labor and for all unskilled labor, that are paid, respectively, to Negro skilled and unskilled labor approximate the respective percentages of Negro skilled and unskilled laborers in the locality (as submitted to the contractor by the contracting officer or by the public or private agency), there shall be deemed to be prima facie evidence that the contractor is not discriminating against Negro labor. Otherwise, or if any contractor shall fail or refuse to make the payroll notations hereinabove referred to, the contracting officer (as to defense public works constructed pursuant to sub-paragraph (b) of section 202 of said Act of October 14, 1940, as amended) or the public or private agency (as to defense public works for which loans or grants have been made pursuant to sub-paragraph (c) of section 202 of said Act of October 14, 1940, as amended) shall investigate and report the reasons therefor to Director of the Defense Public Works Division.

(c) Copies of this section shall be distributed to all contractors engaged in the development of defense public works under the aforesaid Act of October 14, 1940, as amended by said Act of April 29, 1941, and by said Act of June 28, 1941.

In testimony whereof, I have hereunto set my hand and official seal in the city of Washington this 11th day of September, 1941.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

CHAPTER I—VETERANS' ADMINISTRATION

PART 3—ADJUDICATION: DISALLOWANCE AND AWARDS

§ 3.1300 *Military and naval retirement pay.* Disability compensation or pension may not be awarded to a veteran for any period during which he receives retirement pay or retainer pay as a member of the Fleet Reserve or, if an officer or enlisted man on the retired lists of the Navy or Marine Corps or an officer on the retired list of the Army, for any period during which he retains his retired status with the military or naval services. However, on and after June 30, 1941, an enlisted man of the regular Army or of the Philippine Scouts on the retired list

who is eligible to receive pension or compension under the laws administered by the Veterans' Administration, if he were not receiving retired pay, may waive receipt of retired pay and allowances for the purpose of receiving such pension or compensation; and thereafter such retired enlisted man may waive receipt of such pension or compensation for the purpose of receiving retired pay and allowances. To prevent concurrent payments, when waiver of receipt of retired pay and allowances for the purpose of receiving pension or compensation is filed in the War Department that Department shall notify the Veterans' Administration of the receipt of such waiver and the effective date of the stoppage of retired pay and allowances. Similar report to the War Department shall be rendered by the Veterans' Administration when waiver of receipt of pension or compensation is filed in the Veterans' Administration for the purpose of receiving retired pay and allowances. (Section 4, Public No. 140, 77th Congress.) Where a claim for disability compensation or pension is filed by a retired officer or enlisted man, such claim will be fully developed and adjudicated to the point where it may be ascertained what pecuniary benefits are payable. The applicant will be duly informed of the amount of compensation or pension which would be payable except for his retirement status and instructed to notify the Veterans' Administration and the proper service department whether he desires, if an officer or enlisted man on the retired lists of the Navy or Marine Corps or an officer on the retired list of the Army, that his retired status be terminated and, if a retired enlisted man of the regular Army or of the Philippine Scouts, whether he desires to waive retired pay and allowances. Upon receipt of notice from the respective service department of the termination or waiver of the retired status compensation or pension otherwise payable may be awarded from the date following the termination or suspension of the retired status. In all instances, including the claims of Philippine Scouts, where retirement pay has heretofore been terminated by the appropriate service department upon the basis of a waiver or otherwise and compensation or pension has been awarded it will be considered that the veteran's retirement status was properly terminated and that the veteran had elected to receive compensation or pension and the awards will be continued. (Comp. Gen. Dec. A–25279, dated 6–28–29, 7–25–40, and 12–6–40) (September 15, 1941) [Sec. 4, Pub. No. 140, 77th Cong.]

IN THE MATTER OF SAUNDERS, MACKNIGHT & CO., INC., 1 BRIDGE STREET, PLATTSBURG, NEW YORK

FINDINGS AND ORDER REVOKING REGISTRATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 11th day of September., A. D. 1941.

Appearances: George S. Parlin, of the New York Regional Office of the Commission.

This proceeding was instituted under section 15 (b) of the Securities Exchange Act of 1934 to determine whether the registration as a broker and dealer of Saunders, MacKnight & Co., Inc. (formerly known as Pullen & MacKnight, Inc.) should be suspended or revoked. Pursuant to an order of the Commission dated July 18, 1941, and notice served upon the registrant, the hearing in this matter was held before a trial examiner in New York, New York, on August 13, 1941.

The order for hearing recited that the staff had reported to the Commission information obtained as a result of an investigation which tended to show that the registrant is permanently enjoined by a decree of the Supreme Court of the State of New York, held in and for the County of Albany, entered on May 23, 1941, from engaging in or continuing certain conduct and practices in connection with the sale of any security within and from the State of New York.

The hearing was ordered to determine whether the facts reported by the staff are true; and, if so, whether it is in the public interest to suspend or revoke the registrant's registration as a broker and dealer.

No representative of the registrant appeared at the hearing, but the record contains a document entitled "Answer and Consent to Revocation of Registration," signed for the registrant by a duly authorized agent, which acknowledges receipt and service of adequate notice of the proceeding, admits and acknowledges the existence of the facts and the cause of action set forth in the Commission's order, and consents to the entry of an order revoking its registration as an over-the-counter broker and dealer.

The trial examiner found that the facts are as stated in the order for hearing; that the registrant has been permanently enjoined by a decree of the Supreme Court of the State of New York from engaging in or continuing certain conduct and practices in connection with the sale of any security within and from the State of New York; and that it is in the public interest to revoke registration. Upon an independent review of the record, we adopt these findings of the trial examiner.

It is therefore ordered, Pursuant to section 15 (b) of the Securities Exchange Act of 1934, that the registration of Saunders, MacKnight & Co., Inc., be and it hereby is revoked.

By the Commission (Chairman Eicher, Commissioners Healy, Purcell, and Burke), Commissioner Pike being absent and not participating.

IN THE MATTER OF JAMES A. OVERMAN, DOING BUSINESS AS JAMES A. OVERMAN CO., 10 SOUTH THIRD STREET, YAKIMA, WASHINGTON

FINDINGS AND ORDER REVOKING REGISTRATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 11th day of Sept., A. D. 1941.

Appearances: Charles E. Wright and James E. Newton, of the Seattle Regional Office of the Commission.

This proceeding was instituted under section 15 (b) of the Securities Exchange Act of 1934 to determine whether the registration as a broker and dealer of James A. Overman, doing business as James A. Overman Co., should be suspended or revoked. Pursuant to an order of the Commission dated July 24, 1941, and notice served upon the registrant, the hearing in this matter was held before a trial examiner in Seattle, Washington, on August 11 and 13, 1941.

The order for hearing recited that the staff had reported to the Commission information obtained as a result of an investigation of the registrant which tended to show that:

(a) The registrant is permanently enjoined by order of the United States District Court for the Western District of Washington, Northern Division, issued on June 26, 1941, from engaging in certain acts and practices involving the purchase and sale of securities;

(b) During the period from October 1940 to March 1941, the registrant engaged in the sale of common stock of Callahan Consolidated Mines, Inc., which stock was effectively registered under the Securities Act of 1933; in making such sales through the mails and in interstate commerce, registrant made material misrepresentations to prospective customers concerning the properties, operations, and management of Callahan Consolidated Mines, Inc.;

(c) During the same period, registrant used the mails to transmit to his customers letters offering the aforementioned securities for sale, which letters were prospectuses under section 2 (10) of the Securities Act of 1933, but did not contain the information required by section 10 of the Act, and registrant transmitted these securities through the mails for the purpose of sale and delivery after sale, although such securities were not accompanied or preceded by a prospectus meeting the requirements of section 10 of the Act.

The hearing was ordered to determine whether the facts reported by the staff are true; whether these facts, if they are true, require a finding that registrant wilfully violated sections 5 (b) and 17 (a) of the Securities Act of 1933 and section 15 (c) (1) of the Securities Exchange Act of 1934; and whether it is in the public interest to revoke or suspend the registrant's registration as a broker and dealer.

The record shows that on June 25, 1941, the Commission filed a complaint in the United States District Court for the Western District of Washington, Northern Division, alleging that James A. Overman, individually and doing business as James A. Overman Co., had engaged in various transactions in the sale of the common stock of Callahan Consolidated Mines, Inc., in violation of sections 5 (b) and 17 (a) of the Securities Act of 1933. The defendant made no attempt to reply to the allegations of the complaint but filed a consent to the entry of an order enjoining him from further violation of section 5 (b) and 17 (a) of the Securities Act and, on June 26, 1941, such an order was entered by the Court.

The registrant has not contested any of the allegations made in the order instituting this proceeding. The record contains a document entitled "Answer and Consent to Revocation of Registration" signed by the registrant, which acknowledges receipt and service of adequate notice of the proceeding, admits and acknowledges the existence of the cause of action for revocation set forth in the order instituting the proceeding, and consents to the entry of an order revoking its registration as an over-the-counter broker and dealer.

The trial examiner found that the facts are as stated in the order for hearing; that the registrant is permanently enjoined by order of the United States District Court for the Western District of Washington, Northern Division, from engaging in certain acts and practices involved in the purchase and sale of securities; that the registrant has wilfully violated sections 5 (b) and 17 (a) of the Securities Act of 1933 and section 15 (c) (1) of the Securities Exchange Act of 1934; and that it is in the public interest to revoke registration. Upon an independent review of the record, we adopt these findings of the trial examiner.

It is therefore ordered, Pursuant to section 15 (b) of the Securities Exchange Act of 1934, that the registration of James A. Overman, doing business as James A. Overman Co., as a broker and dealer be, and it hereby is, revoked.

By the Commission (Chairman Eicher, Commissioners Healy, Purcell, and Burke), Commissioner Pike being absent and not participating.

IN THE MATTER OF WALTER P. SPIELBERGER, 10 EAST JASPER STREET, TULSA, OKLAHOMA

FINDINGS AND ORDER DENYING APPLICATION FOR REGISTRATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 12th day of September, A. D. 1941.

Appearances: John W. Alexander of the Fort Worth Regional Office, for the Trading and Exchange Division of the Commission; Walter P. Spielberger, *pro se*.

On May 22, 1941, Walter P. Spielberger filed an application for registration as an over-the-counter broker-dealer. By an order dated June 19, 1941, this proceeding was instituted under section 15 (b) of the Securities Exchange Act of 1934 to determine whether the registrant is permanently enjoined by a decree of the United States District Court for the Western District of Virginia from engaging in or continuing certain conduct or practices in connection with the sale of securities, whether registrant was convicted in the United States District Court for the Western District of Virginia of a felony involving the purchase or sale of securities, and, if so, whether it is in the public interest that his application for registration as an over-the-counter broker-dealer should be denied and whether, pending final determination upon the question of denial, the effective date of his application for registration should be postponed.

Pursuant to the Commission's order and notice duly served upon the registrant, the hearing in this matter was originally convened before a trial examiner at Fort Worth, Texas, on June 30, 1941. The registrant appeared at that time and requested a continuance to July 28, 1941. In connection with this request, registrant consented to the postponement of the effective date of his application for registration, pending final determination of the proceeding. By order of the Commission, the effective date of registration was postponed, pending the ultimate determination of the question whether registration should be denied, and the registrant's request for a continuance to July 28, 1941, was granted.

The hearing was reconvened on July 28, 1941, and at that time the trial examiner was advised that a letter had been received from the registrant requesting a further continuance. The examiner was also advised that, immediately upon receipt of this letter, counsel for the Trading and Exchange Division had informed the registrant that he would object to any further continuance. The trial examiner reserved decision on the request for further continuance and adjourned the hearing to the following day, July 29, and again to July 30, 1941. In the interim, the examiner telephoned to registrant's residence and also sent a telegram to him requesting that he communicate with the examiner. The record indicates that this telegram was received by the registrant personally. However, the registrant did not communicate with the examiner and did not appear either at the hearing on July 29, or at the hearing on July 30. On the latter date, the examiner denied the request for further continuance and directed that the hearing proceed.

On the basis of the record made, we find that, by a decree of the District Court of the United States for the Western District of Virginia entered on August 28, 1937, registrant was permanently enjoined from engaging in certain fraudulent devices and practices in the sale to the public of fractional undivided interests in the Caprock Oil Company—R. B. Parks lease or units of beneficial interests in Cimarron Petroleum Trust. The record also shows that by an order dated August 24, 1939, registrant was convicted in the United States District Court for the Western District of Virginia of a felony based on the same transactions as those involved in the order of injunction and was sentenced to imprisonment for a period of 18 months. Upon the basis of the record before us, we find that it is in the public interest to deny the application for registration.

It is ordered, Pursuant to section 15 (b) of the Securities Exchange Act of 1934, that the application for registration of Walter P. Spielberger as an over-the-counter broker and dealer be, and it hereby is, denied.

By the Commission (Chairman Eicher, Commissioners Healy, Purcell, and Burke), Commissioner Pike being absent and not participating.

STATEMENT BY THE COMMISSION

Trade practice rules for the Luggage and Related Products Industry, as hereinafter set forth, are promulgated by the Federal Trade Commission under its trade practice conference procedure.

The rules are directed to the elimination and prevention of misrepresentation, deceptive concealment, and various other unfair trade practices, and are issued in the interest of protecting industry, trade, and the public from the harmful effects of such unfair methods or practices. The provisions of the rules relate to the sale and distribution, by manufacturers, jobbers, distributors, dealers, and other marketers, of the products of the industry which consist of trunks, suitcases, traveling bags, brief cases, satchels, sample cases, instrument cases, and similar articles; also, of so-called fancy leather goods such as billfolds, wallets, key cases, coin purses, card cases, etc. According to available statistics, the volume of business transacted by the manufacturing branch of this industry in 1939 amounted to around $50,000,000.

The proceeding for the establishment of trade practice rules was instituted upon application from the industry. During the course thereof a general trade practice conference, under the auspices of the Commission, was held in Atlantic City, New Jersey. At such conference proposed rules were considered and were thereupon submitted on behalf of the industry to the Commission for its consideration. Thereafter a complete draft of proposed rules in appropriate form was made available to all interested or affected parties upon public notice whereby they were afforded opportunity to present their views to the Commission, including such pertinent information, suggestions or objections as they desired to submit, and to be heard in the premises. Accordingly, public hearing pursuant to such notice was held in Washington, D. C., and all matters there presented, or otherwise submitted, were duly received and considered.

Upon consideration of the entire matter, final action has been taken by the Commission whereby it has approved and received, respectively, the following trade practice rules appearing under Group I and Group II.

THE RULES

These rules promulgated by the Commission are designed to foster and promote the maintenance of fair competitive conditions in the interest of the industry and the public. Their operation is to be directed toward this end and is not to permit of the use of any practice which suppresses competition, restrains trade, fixes or controls price through combination or agreement, or which otherwise injures, destroys, or prevents competition.

Group I

The unfair trade practices embraced in these Group I rules are considered to be unfair methods of competition, unfair or deceptive acts or practices, or other illegal practices, prohibited under laws administered by the Federal Trade Commission; and appropriate proceedings in the public interest will be taken by the Commission to prevent the use, by any person, partnership, corporation, or other organization subject to its jurisdiction, of such unlawful practices in commerce.

§ 154.1 *Deception in general.* It is an unfair trade practice to use, or cause or promote the use of, any advertisement, description, guarantee, warranty, testimonial, endorsement, illustration, brand, mark, or label, or any other representation or selling method, (a) which has the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public with respect to the grade, quality, quantity, material content, serviceability, nature, origin, size, construction, manufacture, processing, or distribution of any product of the industry, or with respect to the kind, grade, weight, thickness, durability, character, or finish of leather, purported leather, canvas, fiber, fabric, wood, or other material of which the product is made in whole or in part, or with respect to the stitching, lining, backing, hardware, or fittings used therein; or (b) which is false, misleading, or deceptive in any other material respect or by reason of the concealment of any material fact.* [Rule 1]

*§§ 154.1 to 154.29, inclusive, issued under the authority contained in 38 Stat. 717, as amended, and pursuant to other provisions of law administered by the Commission.

§ 154.2 *Deception through concealment and nondisclosure of material facts.* (a) To prevent deception of the purchasing public, luggage, (namely, suitcases, traveling bags, trunks, brief cases, satchels, sample cases, instrument cases, and similar articles of luggage), made in whole or in part of the several types of material mentioned below, shall be marked by stamp, tag, or label clearly and nondeceptively revealing the true character of such material, in accordance with the following provisions:

(1) *Split leather.* Where the article is made of or contains so-called split leather, or leather other than the top grain, the stamp, tag, or label shall show that such leather is split or cut from the under side of the hide and is not top grain leather, as for example:

"Split Cowhide."

Where the article is made in major proportion of top grain leather with the exception of certain recognizably distinct sections or parts, such as partitions, gussets, etc., which are made of a different kind, type, or character of leather, the stamp, tag, or label may be marked under this rule in such manner as will truthfully and nondeceptively show that the leather in the product is all top grain of a designated kind with certain other kind, type, or character of leather or material in designated parts, as for example:

"Top Grain Cowhide
With Split Cowhide Gussets
and Partitions."

(2) *Embossed or processed leather.* Where the article is made of or contains leather which has been embossed, dyed, grained, finished, or otherwise processed, in such manner as to simulate or imitate leather of a different kind, type, grade, quality, grain, or characteristic, the stamp, tag, or label shall show the true kind of leather used and reveal the fact that it is not the kind or type of leather it purports to be or that it is only an imitation or simulation thereof, as for example:

"Split Cowhide
Embossed to Imitate Walrus."

"Top Grain Cowhide
Imitation Pig Grain."

Where top grain leather has been embossed, dyed, grained, finished, or processed with a geometrical design or other

design not simulating or imitating the natural grain or characteristics of any hide or leather, the mark designating such material may be limited to showing the kind of leather and the fact that it is embossed or processed, as for example:

"Embossed Top Grain Cowhide."

"Split Cowhide
Embossed Design."

(3) *Backed material.* Where the article is made of or contains leather which is backed with fabric, or with any material other than leather, or with split leather (such backing being glued or laminated to the outer leather), the stamp, tag, or label shall disclose the fact that such leather is backed with fabric, or with certain designated material other than leather, or with split leather of a certain kind, as the case may be. For example:

"Top Grain Cowhide
Backed with Canvas."

"Top Grain Pig
Backed with Split Cowhide."

(4) *Products simulating or imitating leather.* Where the article is made of or contains, on the exterior or to any substantial extent in the interior, material other than leather but which simulates or imitates leather, the stamp, tag, or label shall show that such material is not leather but is of certain other designated material, as for example:

"Buckram."

(5) *Rayon or linen lined.* Where the article is lined with rayon fabric or otherwise contains rayon in substantial part, or where the article is lined with, or otherwise contains in substantial part, fabric which simulates or purports to be linen but is not in fact linen, the stamp, tag, or label shall disclose the fiber content of such lining or other part by use of a truthful designation thereof, as for example, "Rayon Lined," "Cotton Lined," or "Rayon and Cotton Lining," as the case may be, with the fibers stated in the order of their predominance by weight, beginning with the largest single constituent, where the fabric is composed of two or more fibers. (Where the article is of a type coming within the provisions of the Wool Products Labeling Act of 1939, the mark shall be in accordance with the requirements of said Act and the Rules and Regulations thereunder.)

(6) *Leather of substandard thickness.* Where luggage is made wholly, or in any exterior part, of leather which does not exceed two ounces per square foot as measured by the Woburn gauge, the stamp, tag, or label shall disclose the minimum weight of such leather per square foot and shall reveal the fact that the same is substandard. Nothing in this paragraph, however, shall be construed as requiring the marking of such leather parts of the article as being of substandard thickness which parts it is necessary, in the manufacture of the article, to reduce by skiving to a thickness below the minimum, such as welting, edging, trimming, etc., necessarily required to be skived when manufacturing the article.

(b) The information to be revealed, under the foregoing provisions of this rule, shall be set forth on the stamp, tag, or label conspicuously and nondeceptively. Manufacturers, or those first placing the products in the channels of trade, in attaching such stamps, tags, or labels, shall cause the same to be affixed to the articles in such sufficiently secure manner as to remain on the articles until they reach the ultimate purchaser or consumer after having passed through the ordinary channels of trade, thus avoiding the necessity of further marking as to matters required by this rule to be disclosed, so long as such original stamp, tag, or label is clear and truthful and remains upon the product. This shall not, however, relieve distributors, dealers, or other vendors of the necessity of seeing to it that such articles, when being offered for sale, sold, or distributed to their customers, are properly stamped, tagged, or labeled with the information required by this rule to be disclosed thereon.

(c) The sale, resale, or distribution, by any manufacturers, distributors, dealers, or other vendors, of any article covered by this rule without being properly stamped, tagged, or labeled to disclose the information herein specified, with the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public, is an unfair trade practice.* [Rule 2]

§ 154.3 *Deceptive practices as to animal designations, aniline finish, graining, embossing, processing, buffing, hardware, etc.* In offering for sale, selling, or distributing, or promoting or causing the sale or distribution of, industry products through advertisements, brands, labels, sales literature, or otherwise, it is an unfair trade practice to represent, directly or by implication:

(a) That any such product is made of a certain kind or type of leather when it is in fact composed of leather of a different kind or type; or that any leather in such product is from the hide or skin of a certain designated animal when in fact it is from a different animal; as for example, using the unqualified term "Walrus" or "Walrus Grained" as descriptive of leather which is not walrus, or the term "Calf Finish Leather" as descriptive of leather which is not in fact calf.

(b) That any such product is colored, finished, or dyed with aniline dye when such is not true in fact.

(c) That any such product or any part thereof is dyed, embossed, grained, processed, finished, or stitched in a certain manner when such is not true in fact.

(d) That any such product is composed in whole or in part of leather when such product or part thereof is composed of material other than leather.

(e) That any such product is composed in whole or in part of top grain leather when such product or part thereof is in fact composed of split leather or of material other than top grain leather. For purposes of the rules herein set forth, leather from which either a layer of the top surface or grain, or a so-called buffing, has been removed, shall not be considered top grain leather. (See subparagraph (6) of Rule 2 (a) for requirement as to marking leather of substandard thickness.)

(f) That the hardware or any item thereof contained in any such product is brass, solid brass, or some other designated metal, when such is not true in fact or when such hardware is only plated or coated with the metal designated and the remaining metal therein is of a different kind.* [Rule 3]

§ 154.4 *Misuse of the terms "genuine," "real," "natural," "selected," "warranted," etc.* It is an unfair trade practice to use the words "Genuine," "Real," "Natural," "Selected," "Warranted," or any other term or representation of similar import, in any way as descriptive (a) of split leather; or (b) of leather which has been embossed or processed to simulate a different kind, grade, type, or quality of leather; or (c) of any simulative, imitative, or substitute material, with the capacity and tendency or effect of thereby misleading or deceiving the purchasing or consuming public.* [Rule 4]

§ 154.5 *Misuse of the terms "waterproof," "water repellent," "dustproof," or "warp-proof."* It is an unfair trade practice to use the terms "Waterproof," "Water Repellent," "Dustproof," or "Warp-proof," or any other word, term, expression, or representation of similar import, in any way as descriptive of industry products composed of canvas or other materials when such products are not in fact waterproof, water repellent, dustproof, or warp-proof, respectively.* [Rule 5]

§ 154.6 *Fictitious animal designations.* It is an unfair trade practice to use, falsely or deceptively, in advertisements, labels, tags, brands, or other representations of industry products, any depiction or device, trade name, coined name, or other name or words descriptive of such products as being made of leather from the skin or hide of an animal which is in fact non-existent.* [Rule 6]

§ 154.7 *False invoicing.* Withholding from or inserting in invoices, bills of lading, or other documents of title, any statements or information by reason of which omission or insertion a false record is made, wholly or in part, of the transactions represented on the face of such invoices, bills of lading, or other documents of title, with the effect of thereby misleading or deceiving the purchasing or consuming public, is an unfair trade practice.* [Rule 7]

§ 154.8 *Substituting inferior materials not conforming to specifications.* The practice of using or substituting materials inferior in grade or quality to those specified in any contract or order, without the consent of the purchaser to such use or substitution, or with the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public, is an unfair trade practice.* [Rule 8]

§ 154.9 *Commercial bribery.* It is an unfair trade practice for a member of the industry, directly or indirectly, to give, or offer to give, or permit or cause to be given, money or anything of value to agents, employees, or representatives of customers or prospective customers, or to agents, employees, or representatives of competitors' customers or prospective customers, without the knowledge of their employers or principals, as an inducement to influence their employers or principals to purchase or contract to purchase products manufactured or sold by such industry member or the maker of such gift or offer, or to influence such employers or principals to refrain from dealing in the products of competitors or from dealing or contracting to deal with competitors.* [Rule 9]

§ 154.10 *Defamation of competitors or disparagement of their products.* The defamation of competitors by falsely imputing to them dishonorable conduct, inability to perform contracts, questionable credit standing, or by other false representations, or the false disparagement of the grade, quality, or manufacture of the products of competitors, or of their business methods, selling prices, values, credit terms, policies, or services, is an unfair trade practice.* [Rule 10]

§ 154.11 *Procurement of competitors' confidential information by unfair means and wrongful use thereof.* It is an unfair trade practice for any member of the industry to obtain information concerning the business of a competitor by bribery of an employee or agent of such competitor, by false or misleading statements or representations, by the impersonation of one in authority, or by any other unfair means, and to use the information so obtained in such a manner as to injure said competitor in his business or to suppress competition or unreasonably restrain trade.* [Rule 11]

§ 154.12 *Unfair threats of infringement suits.* The circulation of threats of suit for infringement of patents or trade-marks among customers or prospective customers of competitors, not made in good faith but for the purpose or with the effect of harassing or intimidating such customers or prospective customers, or of unduly hampering, injuring, or prejudicing competitors in their businesses, is an unfair trade practice.* [Rule 12]

§ 154.13 *Deceptive use of trade or corporate names, or trade-marks, etc.* The use of any trade name, corporate name, trade-mark, or other trade designation which has the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public as to the character, name, nature, or origin of any product of the industry, or any material used therein, or in any other material respect, is an unfair trade practice.* [Rule 13]

§ 154.14 *Imitation of trade-marks, trade names, etc.* The imitation or simulation of the trade-marks, trade names, brands, or labels of competitors, with the capacity and tendency or effect of thereby misleading or deceiving the purchasing or consuming public, is an unfair trade practice.* [Rule 14]

§ 154.15 *Coercing purchase of one product as a prerequisite to the purchase of other products.* The practice of coercing the purchase of one or more products as a prerequisite to the purchase of one or more other products, where the effect may be to substantially lessen competition or tend to create a monopoly or to unreasonably restrain trade, is an unfair trade practice.* [Rule 15]

§ 154.16 *Inducing breach of contract.* Inducing or attempting to induce the breach of existing lawful contracts between competitors and their customers or their suppliers by any false or deceptive means whatsoever, or interfering with or obstructing the performance of any such contractual duties or services by any such means, with the purpose and effect of unduly hampering, injuring, or prejudicing competitors in their businesses, is an unfair trade practice.* [Rule 16]

§ 154.17 *Misrepresentation as to character of business.* For any person, firm, or corporation to hold himself or itself out to the public as a manufacturer or wholesaler when such is not the fact, or in any other manner to misrepresent the character, extent, or type of his or its business, is an unfair trade practice.* [Rule 17]

§ 154.18 *Misuse of terms "special," "bargain," "close-outs," "discontinued lines," etc.* It is an unfair trade practice to advertise, describe, or otherwise represent regular lines of merchandise as "Special," "Bargain," "Close-outs," "Discontinued Lines," or by words or representations of similar import, when such are not true in fact; or to so advertise, describe, or otherwise represent merchandise where the capacity and tendency or effect thereof is to lead the purchasing and consuming public to believe such merchandise is being offered for sale or sold at greatly reduced prices or at so-called "bargain" prices when such is not the fact.* [Rule 18]

§ 154.19 *Deception in distribution of special lots.* In the case of lots or quantities of luggage advertised or offered for sale at so-called special or bargain sales or reduced price sales or otherwise, it is an unfair trade practice to use advertisements or representations thereof which import or imply that such merchandise consists entirely or in substantial or greater part of products or articles of well-known manufacturers or of well-known or reputable brands or of products or articles of certain high quality, grade, or price, when no such products or articles are contained in said lot or quantity of merchandise or when only a relatively small quantity or number thereof is contained in such merchandise and said fact is not fully and nondeceptively disclosed in the advertisements and representations, or when such advertisements or representations otherwise have the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public.* [Rule 19]

§ 154.20 *Misuse of word "free".* The use of the word "free," or the equivalent thereof, where not properly or fairly qualified when the article is in fact not free, with the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public, is an unfair trade practice.* [Rule 20]

§ 154.21 *Fictitious prices.* It is an unfair trade practice to sell or offer for sale industry products at prices purported to be reduced from what are in fact fictitious prices, or to sell or offer for sale such products at a purported reduction in price when such purported reduction is in fact fictitious or is otherwise misleading or deceptive.* [Rule 21]

§ 154.22 *Use of lottery schemes.* The offering or giving of prizes, premiums, or gifts in connection with the sale of industry products, or as an inducement thereto, by any scheme which involves lottery or scheme of chance, is an unfair trade practice.* [Rule 22]

§ 154.23 *Unlawful interference.* It is an unfair trade practice for any member of the industry, by means of any monopolistic practices, or through combination, conspiracy, coercion, boycott, threats, or any other unlawful means, directly or indirectly, to interfere with a competitor's right to purchase his materials and supplies from whomsoever he chooses, or to sell to whomsoever he chooses.* [Rule 23]

§ 154.24 *Selling below cost.* The practice of selling industry products below the seller's cost, when pursued with wrongful intent of thereby injuring a competitor and where the effect of such practice is to unreasonably restrain trade, tend to create a monopoly, or substantially lessen competition, is an unfair trade practice.

This rule is not to be construed as prohibiting all sales below cost, but only such selling below the seller's cost as is resorted to and pursued as a monopolistic practice with the wrongful intent referred to and coupled with the effect of unreasonably restraining trade, tending to create a monopoly, or substantially lessening competition.

The costs referred to in the rule are actual costs of the respective seller and not some other figure or average costs in the industry determined by an industry cost survey or otherwise.* [Rule 24]

§ 154.25 *Discrimination*—(a) *Prohibited discriminatory prices, or rebates, refunds, discounts, credits, etc., which effect unlawful price discrimination.* It

is an unfair trade practice for any member of the industry engaged in commerce,[1] in the course of such commerce, to grant or allow, secretly or openly, directly or indirectly, any rebate, refund, discount, credit, or other form of price differential, where such rebate, refund, discount, credit, or other form of price differential, effects a discrimination in price between different purchasers of goods of like grade and quality, where either or any of the purchases involved therein are in commerce,[1] and where the effect thereof may be substantially to lessen competition or tend to create a monopoly in any line of commerce,[1] or to injure, destroy, or prevent competition with any person who either grants or knowingly receives the benefit of such discrimination, or with customers of either of them: *Provided, however*—

(1) That the goods involved in any such transaction are sold for use, consumption, or resale within any place under the jurisdiction of the United States;

(2) That nothing herein contained shall prevent differentials which make only due allowance for differences in the cost of manufacture, sale, or delivery resulting from the differing methods or quantities in which such commodities are to such purchasers sold or delivered;

(3) That nothing herein contained shall prevent persons engaged in selling goods, wares, or merchandise in commerce[1] from selecting their own customers in bona fide transactions and not in restraint of trade;

(4) That nothing herein contained shall prevent price changes from time to time where made in response to changing conditions affecting either (a) the market for the goods concerned, or (b) the marketability of the goods, such as, but not limited to, actual or imminent deterioration of perishable goods, obsolescence of seasonal goods, distress sales under court process, or sales in good faith in discontinuance of business in the goods concerned.

(b) *Prohibited brokerage and commissions.* It is an unfair trade practice for any member of the industry engaged in commerce[1], in the course of such commerce, to pay or grant, or to receive or accept, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, except for services rendered in connection with the sale or purchase of goods, wares, or merchandise, either to the other party to such transaction or to an agent, representative, or other intermediary therein where such intermediary is acting in fact for or in behalf, or is subject to the direct or indirect control, of any party to such transaction other than the person by whom such compensation is so granted or paid.

[1] See footnote to § 154.26.

(c) *Prohibited advertising or promotional allowances, etc.* It is an unfair trade practice for any member of the industry engaged in commerce[1] to pay or contract for the payment of advertising or promotional allowances or any other thing of value to or for the benefit of a customer of such member in the course of such commerce as compensation or in consideration for any services or facilities furnished by or through such customer in connection with the processing, handling, sale, or offering for sale, of any products or commodities manufactured, sold, or offered for sale by such member, unless such payment or consideration is available on proportionally equal terms to all other customers competing in the distribution of such products or commodities.

(d) *Prohibited discriminatory services or facilities.* It is an unfair trade practice for any member of the industry engaged in commerce[1] to discriminate in favor of one purchaser against another purchaser or purchasers of a commodity bought for resale, with or without processing, by contracting to furnish or furnishing, or by contributing to the furnishing of, any services or facilities connected with the processing, handling, sale, or offering for sale of such commodity so purchased upon terms not accorded to all purchasers on proportionally equal terms.

(e) *Inducing or receiving an illegal discrimination in price.* It is an unfair trade practice for any member of the industry engaged in commerce,[1] in the course of such commerce, knowingly to induce or receive a discrimination in price which is prohibited by the foregoing provisions of this section.

(f) *Purchases by schools, colleges, universities, public libraries, churches, hospitals, and charitable institutions not operated for profit.* The foregoing provisions of this section relate to practices within the purview of the Robinson-Patman Antidiscrimination Act, which Act and the application thereunder of this section are subject to the limitations expressed in the amendment to such Robinson-Patman Antidiscrimination Act, which amendment was approved May 26, 1938, and reads as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That nothing in the Act approved June 19, 1936 (Public, Numbered 692, Seventy-Fourth Congress, second session), known as the Robinson-Patman Antidiscrimination Act, shall apply to purchases of their supplies for their own use by schools, colleges, universities, public libraries, churches, hospitals, and charitable institutions not operated for profit. (52 Stat. 466; Supp. 4 U.S.C. Title 15, Sec. 13c).

[Rule 25]

§ 154.26 *Discriminatory returns.* It is an unfair trade practice for any member of the industry, engaged in commerce,[1] to discriminate in favor of one customer-purchaser against another customer-purchaser of the products of this industry, bought from such member of the industry for resale, by contracting to furnish or furnishing in connection therewith, upon terms not accorded to all customer-purchasers on proportionally equal terms, the service or facility whereby such favored purchaser is accorded the privilege of returning industry products so purchased and receiving therefor credit or refund of purchase price: *Provided, however,* Nothing in any of the rules herein shall prohibit or be used to prevent the return of merchandise by purchaser, for credit or refund of purchase price, when and because such merchandise has not been properly labeled in accordance with the requirements of these rules, or has been otherwise falsely or deceptively labeled or represented, or when and because such merchandise is defective in material, workmanship, or in any other respect contrary to warranty or purchase contract.* [Rule 26]

§ 154.27 *False or misleading price quotations.* The publishing or circulating by any member of the industry of false or misleading price quotations, price lists, or terms of sale, with the capacity and tendency or effect of thereby misleading or deceiving the purchasing or consuming public, is an unfair trade practice.* [Rule 27]

§ 154.28 *Consignment distribution.* It is an unfair trade practice for any member of the industry to employ the practice of shipping industry products on consignment or pretended consignment for the purpose and with the effect of artificially clogging or closing trade outlets and unduly restricting competitors' use of said trade outlets in getting their products to consumers through regular channels of distribution, thereby injuring, destroying, or preventing competition or tending to create a monopoly or to unreasonably restrain trade. Nothing in this rule shall be construed as restricting or preventing consignment shipping or marketing of industry products in good faith where suppression of competition, restraint of trade, or undue interference with competitors' use of the usual channels of distribution, is not effected.* [Rule 28]

[1] As here used, the word "commerce" means trade or commerce among the several States and with foreign nations, or between the District of Columbia or any Territory of the United States and any State, Territory, or foreign nation, or between any insular possessions or other places under the jurisdiction of the United States, or between any such possession or place and any State or Territory of the United States or the District of Columbia or any foreign nation, or within the District of Columbia or any Territory or any insular possession or other place under the jurisdiction of the United States: *Provided,* That this shall not apply to the Philippine Islands.

§ 154.29, *Aiding or abetting use of unfair trade practices.* It is an unfair trade practice for any person, firm, or corporation to aid, abet, coerce, or induce another, directly or indirectly, to use or promote the use of any unfair trade practice specified in these rules.* [Rule 29]

Group II

Compliance with trade practice provisions embraced in Group II rules is considered to be conducive to sound business methods and is to be encouraged and promoted individually or through voluntary cooperation exercised in accordance with existing law. Non observance of such rules does not, *per se,* constitute violation of law. Where, however, the practice of not complying with any such Group II rules is followed in such manner as to result in unfair methods of competition, or unfair or deceptive acts or practices, corrective proceedings may be instituted by the Commission as in the case of violation of Group I rules.

Rule A. The industry recommends that all contracts should embody specifically and in full detail the quality, kind, and finish of any leather or substitute therefor required to be furnished under the terms of such contracts and that all other materials to be used shall be specifically described in proper and customary form and wording.

A committee on trade practices is hereby created by the industry to cooperate with the Federal Trade Commission and to perform such acts as may be legal and proper to put these rules into effect.

Promulgated and issued by the Federal Trade Commission September 17, 1941.

JOE L. EVINS,
Acting Secretary.

TITLE 32—NATIONAL DEFENSE

CHAPTER XI—OFFICE OF PRICE ADMINISTRATION

PART 1335—CHEMICALS

PRICE SCHEDULE NO. 28—ETHYL ALCOHOL

A sharp increase in the demand for ethyl alcohol has occurred in recent months. Ethyl alcohol is not only essential for the production of high explosives used by the armed forces, but is also used in the manufacture of many civilian products related to national defense. Upon the price of ethyl alcohol depends the price of many other essential chemicals. Investigation by the Office of Price Administration reveals that since the beginning of this year the tank car price of ethyl alcohol SD2B, the basic formula among those affected by this schedule, has risen from 22½ cents per gallon to 24½ cents per gallon and is threatening to rise even higher. The average price of the same formula in 1940 was 20½ cents per gallon. On August 30, 1941, producers, dealers, and purchasers of industrial solvents were requested by the Administrator of the Office of Price Administration not to raise prices above the July 29, 1941, level without prior consultation with his Office. Despite this request and without prior consultation, one of the largest manufacturers of ethyl alcohol recently quoted a price of 49 cents per gallon for SD2B with respect to a proposed order for defense purposes. Other increases in price have also been noted, although the majority of the industry has shown cooperation in keeping the price of SD2B at 24½ cents. After a conference with members of the

industry, the Office of Price Administration has determined that, under existing circumstances, there is no justifiable reason for raising the price above 24½ cents, and that further increases in price would therefore be inflationary in character.

Such an inflationary movement in the price of prime chemicals would tend to weaken the defense effort by causing dislocations, price spiraling, and profiteering.

Accordingly, under the authority vested in me by Executive Order No. 8734,[1] it is hereby directed that:

§ 1335.150 *Maximum prices for ethyl alcohol.* On and after September 15, 1941, regardless of the terms of any contract of sale or purchase, or other commitment, no manufacturer shall sell, offer to sell, deliver or transfer ethyl alcohol in quantities of 500 gallons or more when packaged in containers of 50 gallons or more, and no person shall buy, offer to buy, or accept deliveries of ethyl alcohol in quantities of 500 gallons or more when so packaged, from any manufacturer, at prices higher than the maximum prices set forth in Appendix A incorporated herein as § 1335.159.*

*§§ 1335.150 to 1335.159 inclusive, issued pursuant to authority contained in Executive Order No. 8734.

§ 1335.151 *Less than maximum prices.* Lower prices than those set forth in Appendix A may be charged, demanded, paid or offered.*

§ 1335.152 *Evasion.* The price limitations set forth in this Schedule shall not be evaded whether by direct or indirect methods in connection with a purchase, sale, delivery, or transfer of ethyl alcohol, or in connection with a purchase, sale, delivery, or transfer of any other material by way of any commission, service, transportation, or other charge or discount, premium, or other privilege, or by tying-agreement, or other trade understanding, or otherwise.*

§ 1335.153 *Records and reports.* Every person making purchases or sales of ethyl alcohol in quantities of 500 gallons or more shall keep for inspection by the Office of Price Administration for a period of not less than one year complete and accurate records of each sale showing the date thereof, and the name and address of the buyer, the prices received, the specifications and quantity, including the size of the containers of the ethyl alcohol sold.*

§ 1335.154 *Affirmations of compliance.* On or before October 10, 1941, and on or before the 10th day of each month thereafter, every manufacturer who, during the preceding calendar month, has made sales of ethyl alcohol in quantities of 500 gallons or more when packaged in containers of 50 gallons or more, whether for immediate or future delivery, shall submit to the Office of Price Administration an affirmation of compliance on Form 128:1, containing a sworn statement that during such month all such sales were made at prices in compliance with this Schedule or with any exception or modification thereof. Copies of Form 128:1 can be procured from the Office of Price Administration, or, provided that no change is made in the style and content of the Form and that it is reproduced on 8 x 10½ paper, they may be prepared by persons required to submit affirmations of compliance hereunder.*

§ 1335.155 *Enforcement.* In the event of refusal or failure to abide by the price limitations, record requirements, or other provisions of this Schedule, or in the event of any evasion or attempt to evade the price limitations or other provisions of this Schedule, the Office of Price Administration will make every effort to assure (a) that the Congress and the public are fully informed thereof, (b) that the powers of the Government are fully exerted in order to protect the public interest and interests of those persons who comply with this Schedule, and (c) that the procurement services of the Government are requested to refrain from purchasing ethyl alcohol from those persons who fail to conform to this Schedule. Persons who have evidence of the offer, receipt, or demand of payment of prices higher than the maximum prices, or of any evasion or effort to evade the provisions hereof, or of speculation or of manipulation of prices of ethyl alcohol, or of the hoarding or accumulation of unnecessary inventories thereof, are urged to communicate with the Office of Price Administration.*

§ 1335.156 *Modification of the schedule.* Persons complaining of hardship or inequity in the operation of this Schedule may apply to the Office of Price Administration for approval of any modification thereof, or exception therefrom.*

[Docket No. A–896 Part II]

PETITION OF DISTRICT BOARD NO. 14 FOR THE ESTABLISHMENT OF PRICE CLASSIFICATIONS AND MINIMUM PRICES FOR THE COALS OF TORNADO #1 MINE (MINE INDEX NO. 495) IN DISTRICT NO. 14

ORDER DISMISSING PETITION

An original petition, requesting temporary and permanent relief in the establishment of price classifications and minimum prices for the coals of certain mines, including the Tornado #1 Mine (Mine Index No. 495) in District No. 14, was duly filed with this Division in Docket No. A–896, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

The Director by his Order of June 23, 1941, in that docket established temporarily the prices requested for the Tornado #1 Mine of the Tornado Coal Company (J. A. Hancox) and made provision for those prices becoming permanent under certain conditions.

District Board No. 14 in an original petition filed in Docket No. A–928 requested that the price classifications and minimum prices thus established for the coals of the Tornado #1 Mine be modified. Thereupon the Acting Director by his Order entered July 28, 1941, severed from Docket No. A–896 and designated as Docket No. A–896 Part II that portion of the original petition in Docket No. A–896 which related to the Tornado #1 Mine, continued in effect until further order the temporary relief theretofore granted as to the coals of that mine, revoked and conditional provision for that relief becoming final and set a hearing on the prayer for permanent relief in Docket No. A–896 Part II to be held on August 6, 1941, at a hearing room of the Division in Fort Smith, Arkansas.

When the hearing in Docket No. A–896 Part II convened, District Board No. 14, the petitioner, represented to the Trial Examiner that the Tornado #1 Mine had ceased operating in the interval between the date when the Board filed its original petition in Docket No. A–928 and the date of the hearing. Accordingly the Board thereupon moved for the dismissal, without prejudice, of the proceedings in Docket No. A–896 Part II.

Good cause therefor having been shown and no opposition thereto appearing,

It is hereby ordered, That the original petition of District Board No. 14 in Docket No. A–896 Part II be, and it hereby is dismissed, without prejudice.

Dated: September 15, 1941.

flaxseed stored in approved public grain warehouses or in acceptable storage structures located on farms.*

§ 222.3 *Amount of loans.* Loan values on flaxseed shall be based on numerical grades as provided in the Official Grain Standards of the United States.

(a) The loan value for No. 1 flaxseed stored in approved warehouses at Chicago, Duluth, Kansas City, Missouri, Portland, Oregon, Los Angeles, Minneapolis, St. Paul, and San Francisco shall be $1.85 per bushel if the storage charges have been prepaid through April 30, 1942, and $1.78 per bushel if the storage charges are not prepaid. As evidence that storage charges have been prepaid the warehouse receipt must have stamped or typed thereon, or attached thereto, the following legend:

Storage charges for the period ending April 30, 1942, on the flaxseed represented by this warehouse receipt have been paid or otherwise provided for and lien for such charges will not be claimed by the warehouseman from Commodity Credit Corporation or any subsequent holder of this warehouse receipt.

The foregoing applies to flaxseed delivered to any designated terminal market in carload lots which has been shipped by rail from a country shipping point to one of the designated terminal markets, as evidenced by paid freight bills duly registered for transit privileges and other documents as required: *Provided*, That Commodity Credit Corporation will accept in lieu of such bills the approved Warehouseman's Supplemental Certificate, or warehouse receipts on which a legend, signed by the warehouseman, has been stamped or typewritten in the following form or certificate of such warehouseman containing such an undertaking:

The above described paid freight bill has been officially registered for transit.

Date of Signature | Warehouseman's Signature | Address

Otherwise a deduction of six cents (6¢) per bushel shall be made.

(b) Loan value for No. 1 flaxseed stored on farms shall be determined by deducting from the terminal loan value ($1.85 per bushel) an amount equal to 4 cents per bushel more than all-rail interstate freight rate (in effect May 1, 1941) from the shipping point to the appropriate terminal market. The same deduction and 7 cents per bushel will be made in the case of flaxseed stored in country or subterminal warehouses where warehouse receipts do not carry an endorsement stating that storage charges have been paid, as required in paragraph (a) above. In Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Nebraska, Ohio, Oklahoma, South Dakota, Texas, and Wisconsin loan rates at country points shall be computed on the basis of the average freight rate from all shipping points, other than subterminal markets, in each county to the appropriate terminal market. Loan values for flaxseed at other than terminal markets will be found in State supplements to the instructions in this part (1941 C.C.C. Flaxseed Form 1—Supplement 1—Minnesota, etc.)

(c) The loan value for No. 2 flaxseed shall be 5 cents per bushel less than the applicable rate for No. 1 flaxseed.*

§ 222.4 *Maturity and interest rate.* Notes secured by farm-stored flaxseed or by warehouse receipts representing flaxseed shall mature on demand, on April 30, 1942. All loans will bear interest at the rate of 3 percent per annum. Notes evidencing such loans must be dated on or before December 31, 1941.*

§ 222.5 *Determination of quantity of flaxseed.* A bushel shall be 56 pounds of clean flaxseed free of dockage, when determined by weight, or 1.25 cubic feet of flaxseed testing 56 pounds per bushel when determined by measurement. A deduction of three-quarters of a pound for each sack will be made in determining the quantity of the collateral when stored as sacked grain. In determining the quantity of flaxseed in farm storage by measurement, fractional pounds of the bushel test weight for flaxseed testing less than 56 pounds per bushel will be disregarded, and the quantity determined as above will be the following percentages of the quantity determined for 56-pound flaxseed:

	Percent
For flaxseed testing 56 pounds or over	100
For flaxseed testing 55 pounds or over, but less than 56 pounds	98
For flaxseed testing 54 pounds or over, but less than 55 pounds	96
For flaxseed testing 53 pounds or over, but less than 54 pounds	94
For flaxseed testing 52 pounds or over, but less than 53 pounds	92
For flaxseed testing 51 pounds or over, but less than 52 pounds	90
For flaxseed testing 50 pounds or over, but less than 51 pounds	88
For flaxseed testing 49 pounds or over, but less than 50 pounds	85
For flaxseed testing 48 pounds or over, but less than 49 pounds	83
For flaxseed testing 47 pounds or over, but less than 48 pounds	81

§ 222.6 *Farm storage.* Flaxseed stored on the farm must have been stored in the granary at least thirty (30) days prior to its inspection for measurement, sampling and sealing. In accordance with regulations issued by the Secretary of Agriculture, the State and county agricultural conservation committees will inspect and approve storage facilities and will arrange for measuring, sampling, grading and sealing the flaxseed collateral in approved structures. Chattel mortgages covering farm-stored flaxseed must be executed and filed in accordance with the applicable State law. Producers should obtain information and assistance from the county agricultural conservation committees in regard to the execution and filing of such chattel mortgages. Where the borrower is a tenant farmer and the flaxseed collateral is stored on the farm, the expiration date of the lease shall be given in section 1 (d) of the chattel mortgage. If the expiration date of the lease is prior to June 30, 1942, the landlord shall execute the Consent for Storage, section 5 of the chattel mortgage. The consent agreement shall also be signed by any other party or parties entitled to possession. Each producer must designate in section 1 (b) of the chattel mortgage a shipping point reasonably convenient for the delivery of the flaxseed as determined by the county committee. Notes and mortgages will not be acceptable which provide a shipping point other than the normal shipping point customarily used by the producers in the locality in which the flaxseed was produced. A separate note and chattel mortgage must be submitted for flaxseed stored on each quarter section of land.*

§ 222.7 *Chattel mortgages.* All documents must be carefully examined as to compliance with State requirements.*

§ 222.8 *Public warehouses.* Commodity Credit Corporation will accept only negotiable insured warehouse receipts covering flaxseed pledged as collateral to notes on 1941 C.C.C. Wheat Form B, properly corrected, issued by any public grain warehouse which has executed the Uniform Grain Storage Agreement, amended to cover flaxseed. Warehousemen desiring approval should communicate with the Commodity Credit Corporation office serving the area, at which office a list of approved warehouses and their locations is available. A list of approved warehouses for the area may also be obtained at any State or county agricultural conservation office. Approved warehousemen shall not issue and have outstanding at any time warehouse receipts in excess of the normal working capacity or licensed capacity of the warehouse. Warehousemen shall be required to deliver either the identical flaxseed or country-run flaxseed equal to that described in the warehouse receipts and accompanying certificates or documents.*

§ 222.9 *Warehouse receipts.* Warehouse receipts must be dated on or prior to the date of the related note and properly assigned by an endorsement in blank so as to vest title in the holder, or issued to bearer, and must be issued by approved warehousemen. Unless the warehouse receipts are stamped or printed "Insured" there must be attached or included in the certificate of the warehouseman the statement that the flaxseed is insured for not less than the market value, against the hazards of fire, lightning, inherent explosion, windstorm, cyclone, and tornado. Commodity Credit Corporation will not accept warehouse receipts indicating any lien for charges prior to unloading in or delivery to the warehouse issuing such receipts. Lien for storage charges will be recognized by Commodity Credit Corporation only from May 15, 1941, or the dates of the warehouse receipts, whichever is later. Such receipts must set out in their written or printed terms the gross weight or bushels, the grade, the percentage of sound flaxseed, test weight and all other facts and statements required to be stated in the written or printed terms of the negotiable warehouse receipts under the provisions of section 2 of the Uniform Warehouse Receipts Act or to be accompanied by a certificate of the warehouseman identified to such warehouse receipt, setting out such information and shall be based on the in-bound movement or delivery of the grain to an approved warehouse.*

§ 222.10 *Liens.* The flaxseed collateral must be free and clear of all liens except in favor of the lienholders listed in the space provided therefor in the chattel mortgage or note and loan agreement. The names of the holders of all existing liens on the pledged or mortgaged flaxseed, such as landlord, laborers, threshers, or mortgagees, must be listed in the space provided therefor in the mortgage or loan agreement. The waiver and consent to the pledge or mortgage of the flaxseed and the payment of the proceeds of the loan and the proceeds of the sale of the flaxseed solely to the producer as contained in the mortgage or loan agreement must be signed personally by all lienholders listed or by their duly authorized agents; or, if corporation, by the designated officer thereof customarily authorized to execute such instruments. (In lieu of signing the section of the chattel mortgage or loan agreement entitled "List of Lienholders and Their Waivers and Consent to Pledge," lienholders may sign CCC Form AB which must completely identify the related note.) The producer will direct in the notes that the proceeds of the loan be made payable to him and/or such other person or concern as he may direct thereon. Producers should read carefully all real estate or other mortgages previously given by them in order to determine whether or not crops are covered thereby. Any fraudulent misrepresentation of fact made in the execution of the note and mortgage and related forms shall render the producer personally liable for the amount of the loan and subject to the provisions of the United States Criminal Code.*

§ 222.11 *Insurance*—(a) *Flaxseed stored on farms.* The producer must obtain primary insurance on flaxseed stored on the farm for not less than the amount of the loan, plus accrued interest to maturity for the period ending June 30, 1942. Such insurance shall be evidenced by a certificate in a form approved by Commodity Credit Corporation issued by a company or association licensed to do business in the State in which the flaxseed is stored. The insurance coverage may be obtained through the customary channels and the form of certificate required shall be furnished by the agent writing same.

(b) *Flaxseed stored in approved warehouses.* With respect to such flaxseed, the warehouseman shall provide insurance against the perils of fire, lightning, inherent explosion and windstorm, cyclone and tornado, for the full market value thereof, so long as receipts are outstanding.

In addition to the foregoing, Commodity Credit Corporation has obtained a blanket insurance policy to protect it against errors and omisisons in the primary insurance coverage, e.g., the failure of the primary insurance to pay losses on account of theft and wrongful conversion, flood and inherent explosion, and certain other risks not covered by the primary insurance. This secondary insurance will be secured by Commodity Credit Corporation for all loans and the cost of the insurance will be paid from the service fees collected from producers.*

§ 222.12 *County agricultural conservation committee.* Forms will be obtained from county agricultural conservation committees or from the office of Commodity Credit Corporation. The producers' notes contain approvals which should not bear a date prior to the date of the note or loan agreement and which must be signed in each instance by a member of the county agricultural conservation committee of the county in which the flaxseed was produced, for warehoused flaxseed, and the county in which the flaxseed is stored, for farm-stored flaxseed. Pursuant to instructions issued by the Secretary of Agriculture, the State and county committees will determine or cause to be determined the quantity and grade of the flaxseed collateral and the amount of the loan. All loan documents will be completed and approved by the county committee, who will retain all documents except the producer's note. In order to meet the cost of the local expenses, county agricultural associations will collect a service fee for all loans.

Approval of 1941 Flaxseed Loans by Member of County Committee

(a) By signing in the space provided on the Producer's Note (1941 C.C.C. Grain Form A) the member certifies for and on behalf of the county committee to its best knowledge and belief that the flaxseed securing the note and the storage structure(s) in which the flaxseed is stored have been inspected and sealed and the quantity, quality, and loan value determined in accordance with regulations of the Secretary of Agriculture; that the representations set forth in the

chattel mortgage are true and correct; that the chattel mortgage will be filed for record in accordance with the requirements of Commodity Credit Corporation; that satisfactory evidence of authority of all persons executing note, chattel mortgage, lienwaiver(s), and consent for storage has been received, and any documentary evidence of authority will be held by the committee, that the original or a duplicate copy of said mortgage bearing receipt of the county recording official will be held by the committee; that a primary insurance certificate on an approved form is filed with said chattel mortgage and that all lienholders have waived the priority of their liens and consents granted for storage if necessary.

(b) By signing in the space provided on the Producer's Note and Loan Agreement (1941 C.C.C. Wheat Form B, which has been properly corrected for use as a Flaxseed Producer's Note and Loan Agreement (the member certifies for and on behalf of the county committee to the best knowledge and belief of the county committee that the representations set forth by the producer are true and correct; that the amount of the loan on the described flaxseed has been correctly determined on the basis of the warehouse receipts in accordance with the instructions in this part and that all existing liens on the pledged flaxseed are listed in section 3 of the note and loan agreement.*

§ 222.13 *Source of loans.* Loans may be obtained from banks and other local lending agencies, which in turn, may sell the paper evidencing such loans to Commodity Credit Corporation. Producers may also obtain loans direct from the Corporation on notes made payable to the Corporation, which shall be delivered to the office serving the area in which the flaxseed is stored, delivered or postmarked prior to January 1, 1942. Upon approval of the loan by Commodity Credit Corporation, payment will be made pursuant to the directions of the producer as set forth in the note.*

§ 222.14 *Purchase of loans.* Commodity Credit Corporation will purchase, without recourse, eligible paper, as defined above, only from lending agencies which have executed and delivered to the office of Commodity Credit Corporation to which notes are submitted Contract to Purchase, 1940 C.C.C. Form E, obtainable only from such offices.

Paper held by lending agencies must be tendered at least 10 days prior to maturity to the office of Commodity Credit Corporation holding the Contract to Purchase and serving the area in which the flaxseed is stored. The purchase price to be paid by Commodity Credit Corporation for notes accepted will be the face amount of such notes, plus accrued interest from the respective dates to the date of payment of the purchase price at the rate of 1½ percent per annum. Under the terms of the Contract to Purchase, lending agencies are required to report weekly on 1940 C. C. C. Form F all payments or collections on producers' notes held by them, and to remit with such report to Commodity Credit Corporation, an amount equivalent to 1½ percent interest per annum on the principal amount collected from the date of the note to the date of payment.*

The loan paper may be sent to an approved bank for collection or the producer may ascertain the amount due and remit directly to the office of Commodity Credit Corporation holding the paper. Partial releases of collateral will be made as follows:

(a) In the case of farm-stored flaxseed, the producer must identify to Commodity Credit Corporation the seal number of the bin to be released. Such release must cover all the flaxseed in any one bin. H. A. Wallace, Secretary of Agriculture of the United States of America, pursuant to the powers conferred upon the Secretary by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937 (50 Stat. 246), issued, effective May 1, 1940, Order No. 30, as amended, regulating the handling of milk in the Toledo, Ohio, marketing area, which order, as amended, was further amended on March 16, 1941.

Claude R. Wickard, Secretary of Agriculture, tentatively approved, on January 31, 1941, a marketing agreement, as amended, regulating the handling of milk in the Toledo, Ohio, marketing area.

There being reason to believe that amendments to said tentatively approved marketing agreement, as amended, and to said order, as amended, would tend to effectuate the declared policy of said act, notice was given, on the 12th day of June 1941, of a public hearing which was held at Toledo, Ohio, beginning on June 18, 1941, at which time and place all interested parties were afforded an opportunity to be heard on a proposal to amend the said tentatively approved marketing agreement, as amended, and the order, as amended.

After such hearing and after the tentative approval, on the 6th day of August 1941, of a marketing agreement, as amended, regulating the handling of milk in the Toledo, Ohio, marketing area, handlers of more than fifty percent of the volume of milk covered by this order, as amended, which is marketed within the Toledo, Ohio, marketing area, refused or failed to sign such tentatively approved marketing agreement, as amended, relating to the handling of milk in such marketing area.

The requirements of section 8c (9) of said act have been complied with.

It is hereby found, upon the evidence introduced at the above-mentioned public hearing, said findings being in addition to findings made upon the evidence introduced at the original hearing on said order and on said order, as amended, and being in addition to the other findings and determinations made prior to or at the time of the original issuance of said order (which findings are hereby ratified and affirmed, save only as such findings are in conflict with the findings hereinafter set forth).

§ 930.0 *Findings.* (a) That the prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk, as determined pursuant to section 2 and 8e of said act, are not reasonable in view of the prices of feeds, the available supplies of feed, and other economic conditions which affect the market supply of and demand for such milk, and that the minimum prices set forth in this order, as amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(b) That the order, as amended, regulates the handling of milk in the same manner as and is applicable only to handlers defined in a marketing agreement, as amended, upon which a hearing has been held; and

(c) That the issuance of this order, as amended, and all of its terms and conditions, will tend to effectuate the declared policy of the act:

Pursuant to the powers conferred upon the Secretary by said act, it is hereby ordered that such handling of milk in the Toledo, Ohio, marketing area, as is in the current of interstate commerce, or as directly burdens, obstructs, or affects interstate commerce, shall, from the effective date hereof, be in compliance with the following terms and conditions.*

(1) Class I milk shall be all milk disposed of in the form of milk and milk drinks, whether plain or flavored, and all milk not accounted for as Class II milk or Class III milk.

(2) Class II milk shall be all milk used to produce cream which is disposed of in the form of cream, including any cream product disposed of in fluid form which contains less than the minimum butterfat content required for fluid cream, creamed buttermilk, and creamed cottage cheese.

(3) Class III milk shall be all milk used to produce a milk product other than those specified in Class II milk, and all actually accounted for plant shrinkage up to but not exceeding 3 percent of the total receipts of milk from producers and new producers.

(c) *Interhandler and nonhandler sales.* Milk disposed of by a handler to another handler and milk disposed of by a handler to a person who is not a handler but who distributes milk or manufactures milk products shall be classified as Class I milk: *Provided,* That if different classification is similarly reported to the market administrator by the selling handler and the person to whom such milk is disposed of, such milk shall be classified according to such reports, subject to verification by the market administrator: *And provided further,* That in no event shall the amount so reported in any class be greater than the total amount of milk disposed of in such class by the person receiving such milk.

(d) *Computation of butterfat in each class.* For each delivery period, the market administrator shall compute for each handler the butterfat in each class of utilization of such handler, as follows:

(1) Determine the total pounds of butterfat received as follows: (i) multiply the weight of the milk received from producers and new producers by the average butterfat test thereof, (ii) multiply the weight of the milk, if any, produced by him, by the average butterfat test thereof, (iii) multiply the weight of the milk, if any, received from handlers, by the average butterfat test thereof, (iv) multiply the weight of emergency milk, if any, by the average butterfat test thereof, and (v) add together the resulting amounts.

(2) Determine the total pounds of butterfat in Class I milk as follows: (i) convert to quarts the total quantity of milk disposed of in the form of milk and milk drinks, whether plain or flavored, and multiply by 2.15, (ii) multiply the result by the average butterfat test of such milk.

(3) Determine the total pounds of butterfat in Class II milk as follows: (i) multiply the total pounds of each of the several products of Class II milk by its average butterfat test and (ii) add together the resulting amounts.

(4) Determine the total pounds of butterfat in Class III milk as follows: (i) multiply the total pounds of each of the several products of Class III milk by its average butterfat test, add together the resulting amounts, and add to this sum the total pounds of butterfat reported as actual plant shrinkage up to but not exceeding 3 percent of the total receipts of butterfat by the handler from producers and new producers; (ii) subtract from the total pounds of butterfat received, computed pursuant to subparagraph (1) of this paragraph, the sum total of the pounds of butterfat determined in subparagraph (2), subparagraph (3), and (i) of this subparagraph; and (iii) add the resulting amount of butterfat, if any, to the amount of butterfat computed pursuant to subparagraph (2) of this paragraph.

(5) Determine the classification of the butterfat received from producers and new producers, as follows:

(i) Subtract from the total pounds of butterfat in each class the total pounds of butterfat received from other handlers and used in such class.

(ii) In the case of a handler who also distributes milk of his own production, subtract from the total pounds of butterfat in each class a further amount which shall be computed as follows: divide the total pounds of butterfat in said class by the total pounds of butterfat in all classes and multiply by the total pounds of butterfat produced by such handler.

(iii) In the case of a handler who has received emergency milk during the delivery period, subtract respectively from the total pounds of butterfat in each class a further amount which shall be computed as follows: divide the total pounds of butterfat in said class by the total pounds of butterfat in all classes and multiply the resulting percentage figure by the total pounds of butterfat contained in emergency milk received.

(e) *Computation of milk in each class.* For each delivery period, the market administrator shall compute for each handler the hundredweight of milk in each class received from producers and new producers by (i) dividing the total pounds of butterfat computed for each class in accordance with paragraph (d) (5) of this section by the average butterfat test of all milk received from producers and new producers by such handler, and (ii) dividing the resulting amounts by 100.*

§ 930.5 *Minimum prices*—(a) *Class prices.* Except as set forth in paragraph (b) of this section, each handler shall pay, at the time and in the manner set forth in § 930.7, not less than the following prices for milk of 3.5 percent butterfat content received at such handler's plant:

(1) *Class I milk.* The price per hundredweight for Class I milk shall be the price for Class III milk, determined by the market administrator pursuant to subparagraph (3) of this paragraph, plus 80 cents: *Provided,* That with respect to Class I milk disposed of by such handler under a program approved by the Secretary for the sale or disposition of milk to low-income consumers, including persons on relief, the price per hundredweight shall be such price for Class I milk less 46 cents.

(2) *Class II milk.* The price per hundredweight for Class II milk shall be the price for Class III milk determined by the market administrator pursuant to subparagraph (3) of this paragraph, plus 30 cents.

(3) *Class III milk.* The price per hundredweight for Class III milk shall be the price resulting from the following computation by the market administrator: determine the average of the basic, or field, prices per hundredweight ascertained to have been paid for milk of 3.5 percent butterfat content received during the delivery period at the following plants and subtract 10 cents.

Concern	*Location of plant*
Van Camp Milk Co.	Wauseon, Ohio
Pet Milk Co.	Delta, Ohio.
Defiance Milk Products Co.	Defiance, Ohio.

Provided, That if the price so determined is less than the price per hundredweight computed by the market administrator in accordance with the following formula, such formula price shall be the price for Class III milk for the delivery period: multiply by 3.5 the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received, and add 30 percent thereof.

(b) *Price of Class I milk disposed of outside the marketing area.* The price to be paid by a handler for milk received from producers and new producers and disposed of as Class I milk outside the marketing area shall be the price for Class I milk (other than relief milk), determined pursuant to paragraph (a) (1) of this section, less 46 cents.*

§ 930.6 *Determination and announcement of uniform prices to producers*—(a) *Computation of the value of milk for each handler.* For each delivery period the market administrator shall compute for each handler the value of milk of producers and new producers received by such handler, as follows: (1) multiply the hundredweight of Class I milk disposed of in the marketing area by the Class I price set forth in § 930.5 (a), (2) multiply the hundredweight of Class I milk disposed of outside the marketing area by the price applicable pursuant to § 930.5 (b), (3) multiply the hundredweight of Class II milk by the Class II price, (4) multiply the hundredweight of Class III milk by the Class III price, and (5) add together the resulting amounts.

(b) *Computation and announcement of the uniform price.* (1) For each delivery period, prior to August 1, 1940, the market administrator shall compute for each handler the uniform price per hundredweight of milk received by such handler as follows:

(i) Subtract from the sum computed pursuant to paragraph (a) of this section the total amount to be paid pursuant to § 930.7 (b) (2);

(ii) If, in the verification of the reports of such handler for previous delivery periods, the market administrator has discovered errors in such reports, there shall be added or subtracted, as the case may be, the amount necessary to correct such errors;

(iii) Divide by the hundredweight of milk received from producers other than the milk represented by the amount subtracted in subdivision (i) of this subparagraph;

(iv) Adjust the resulting figure to the nearest cent. This result shall be known as such handler's uniform price for such delivery period for milk of producers which contains 3.5 percent butterfat; and

(v) On or before the 12th day after the end of each delivery period, prior to August 1, 1940, the market administrator shall notify each handler of the class prices for milk and of the uniform price computed for him pursuant to this subparagraph, and shall publicly announce such prices.

(2) For each delivery period, subsequent to July 31, 1940, the market administrator shall compute for each handler the uniform price per hundredweight for each producer's market share of milk received by such handler as follows:

(i) Subtract from the sum computed pursuant to paragraph (a) of this section, the total amount to be paid pursuant to § 930.7 (c) (4);

(ii) Subtract, from the resulting amount, the value of excess milk received from producers, computed by multiplying the hundredweight of such milk by the Class III price;

(iii) If, in the verification of the reports of such handler for previous delivery periods, the market administrator has discovered errors in such reports, there shall be added or subtracted, as the case may be, the amount necessary to correct such errors;

(iv) Divide by the total hundredweight of market-share deliveries of all producers during the delivery period;

(v) Adjust the resulting figure to the nearest cent. This result shall be known as such handler's uniform price for such delivery period for market-share milk of producers which contains 3.5 percent butterfat; and

(vi) On or before the 12th day after the end of each delivery period, subsequent to July 31, 1940, the market administrator shall notify each handler of the class prices for milk and of the uniform price of market-share milk computed for him pursuant to this subparagraph, and shall publicly announce such prices.*

§ 930.7 *Payment for milk*—(a) *Time and method of payment.* On or before the last day of each delivery period, each handler shall pay, with respect to all milk received during the first 15 days of such delivery period, $1.50 per hundredweight to each producer, and $0.75 per hundredweight to each new producer.

(b) On or before the 15th day after the end of each delivery period, prior to August 1, 1940, each handler shall make payment, subject to the butterfat differential set forth in paragraph (d) of this section and less the payment made in accordance with paragraph (a) of this section, for each hundredweight of milk received from producers and new producers during such delivery period as follows:

(1) To producers, except as set forth in subparagraph (2) of this paragraph, at not less than such handler's uniform price; and

(2) To each new producer at the Class III price.

(c) On or before the 15th day after the end of each delivery period, subsequent to July 31, 1940, each handler shall make payment, subject to the butterfat differential set forth in paragraph (d) of this section and less the payment made in accordance with paragraph (a) of this section, for each hundredweight of milk received from producers and new producers during such delivery period as follows:

(1) To each producer choosing option A, at not less than such handler's uniform price for all milk received from such producer not in excess of his market share.

(2) To each producer choosing option A, at not less than the Class III price for all milk received from such producer in excess of his market share.

(3) To each producer choosing option B, at not less than a price for all milk determined as follows:

(i) Add together the market shares of all producers choosing option B from whom such handler received milk;

(ii) Multiply the sum computed in subdivision (i) of this subparagraph by such handler's uniform price;

(iii) Multiply the total quantity of excess milk of all such producers choosing option B by the Class III price;

(iv) Add together the values computed pursuant to subdivisions (ii) and (iii) of this subparagraph and divide the resulting sum by the total hundredweight of milk received by such handler during the delivery period from all such producers choosing option B; and

(v) Adjust the resulting figure to the nearest cent.

(4) To each new producer at the Class III price.

(d) *Butterfat differential.* If a handler has received from a producer or new producer, during any delivery period, milk having an average butterfat content other than 3.5 percent, such handler, in making payments pursuant to paragraphs (b) and (c) of this section, shall add to the price to be paid each producer or new producer, for each one-tenth of 1 percent of average butterfat content in milk above 3.5 percent not less than or shall deduct from such price, for each one-tenth of 1 percent of average butterfat content in milk below 3.5 percent not more than an amount per hundredweight as follows:

Three cents, if the average butter price used in § 930.5 (a) is 30 cents or less;

Four cents, if the average butter price used in § 930.5 (a) is more than 30 cents but not more than 40 cents; or

Five cents, if the average butter price used in § 930.5 (a) is more than 40 cents.

(e) *Delivery period market share.* For each delivery period the market share of each producer shall be a quantity of milk calculated by multiplying the daily market share computed pursuant to paragraph (f) of this section by the number of days on which milk was received from such producer during the delivery period.

(f) *Determination of daily market share.* The market administrator shall determine the daily market share of each producer as follows:

(1) Effective for each delivery period from August 1 through December 31, 1940, subject to the adjustment provided in subparagraph (3) of this paragraph, divide such producer's total pounds of milk delivered in bulk to a handler during the 12-month period immediately preceding December 1, 1939, by the number of days upon which deliveries were made and take such a percentage of the result as will make the sum of all figures so determined for producers from whom such handler received milk equal to 115 percent of the daily average Class I and Class II milk disposed of by such handler during the last calendar quarter of 1939: *Provided*, That if a producer cannot show to the satisfaction of the market administrator deliveries to a handler during a full 12-month period immediately preceding December 1, 1939, compute for such producer a figure in the manner provided for new producers pursuant to subparagraph (4) of this paragraph, and immediately after a record of deliveries of such producer to a handler for a 12-month period becomes available, compute a new figure by dividing the total pounds of milk delivered by him in bulk to a handler during such 12-month period by the number of days upon which deliveries were made and multiplying the result by the most recent percentage figure used pursuant to subparagraph (3) of this paragraph in the computation of market shares of producers of the handler who receives the milk of such producer.

(2) Effective for the calendar year 1941, subject to the adjustment provided in subparagraph (3) of this paragraph, compute such producer's daily average market-share deliveries for all delivery periods during the calendar year immediately preceding: *Providing*, That for each delivery period of such preceding calendar year during which any handler received from producers and new producers a quantity of milk greater than 115 percent of his Class I milk and Class II milk, each producer from whom such handler received full market-share deliveries for 7 or more delivery periods of such preceding year shall be given credit for having delivered his market share during such delivery period.

Effective for each calendar year following 1941, subject to the adjustment provided in subparagraph (3) of this paragraph, compute such producer's daily average market-share deliveries for all delivery periods during the 12 months immediately preceding December 1 of the last previous year: *Provided*, That for each delivery period covered by such 12 months during which any handler received from producers and new producers a quantity of milk greater than 115 percent of his Class I and Class II milk, each producer from whom such handler received full market-share deliveries for 7 or more delivery periods covered by such 12 months shall be given credit for having delivered his market share during such delivery period.

(3) At the beginning of each calendar quarter the figure computed pursuant to this paragraph for each producer from whom a handler receives milk shall be adjusted by that percentage which will make the sum of all such figures equal to 115 percent of the Class I and Class II milk of such handler during the first three months of the four months immediately preceding.

(4) Effective for each delivery period, subsequent to July 31, 1940, for each producer who has been a new producer, compute a figure equal to the daily average of such producer's pounds of milk delivered in bulk to a handler for the period during which he was a new producer, subject to the adjustment provided in subparagraph (3) of this paragraph; and immediately after a record of milk deliveries of such producer to a handler for a 12-month period becomes available, compute a new figure by dividing the total pounds of milk delivered by him in bulk to a handler during such 12-month period by the number of days upon which deliveries were made and multiplying the result by the most recent percentage figure used pursuant to subparagraph (3) of this paragraph in the computation of market shares of producers of the handler who receives the milk of such producer.

(5) The following rules shall be observed by the market administrator in the allotment and adjustment of market shares:

(i) Each producer who chooses option A by writing to the market administrator prior to August 15, 1940, will deliver his milk under the provisions of option A. Each producer who chooses option B by writing to the market administrator and each producer who makes no choice of options will deliver his milk under the provisions of option B. Each new producer, upon becoming a producer, shall be given 15 days to make a choice of option A or option B. Each producer shall be notified as to his daily market share.

(ii) Any producer may make a written request to the market administrator during December, January, February, and March of any year, for change from option B to option A. A producer who makes such a request shall begin the delivery of his milk under option A on the first day of the delivery period immediately following that during which the request was made. No producer may change from option A to option B except at the beginning of a calendar year.

(iii) The daily market share of a producer who elects to change from option B to option A shall be the daily average of such producer's pounds of milk delivered in bulk to a handler for that part of the period from September 15, 1938, up to the date of his application for such change in options during which his milk has been received by a handler, subject to the adjustment in subparagraph (3) of this paragraph. After September 15, 1941, the daily market share of each such producer shall be the daily average of such producer's pounds of milk delivered in bulk to a handler for that part of the 36-month period immediately preceding the date of his application for a change in options during which his milk has been received by a handler, subject to the adjustment provided in subparagraph (3) of this paragraph.

(iv) Any producer who, as the result of official testing for tuberculosis or Bang's disease, or testing for mastitis by a recognized veterinarian (documentary evidence of such losses, satisfactory to the market administrator, must be supplied), loses 20 percent or more of the cows in his herd, shall be given 12 months to replace the cows lost through such testing, without any reduction at the beginning of the next calendar year in his daily market share, except as adjustments are made pursuant to subparagraph (3) of this paragraph.

(v) Upon the transfer of a producer from one handler to another, no adjustment shall be made in the daily market share of such producer computed pursuant to this paragraph, except that if the addition of such daily market share to the total of all daily market shares, computed pursuant to this paragraph for producers of the handler to whom such producer transfers, results in a sum greater than 118 percent of the daily average Class I and Class II milk of such handler during the calendar quarter immediately preceding, the daily market shares of all producers of such handler shall be adjusted by a percentage which will make their total equal to 115 percent of such daily average Class I and Class II milk; and no adjustment shall be made in the daily market share computed pursuant to this paragraph for producers of the handler from whom a producer transfers, except that if the transfer of the producer results in a sum of such daily market shares less than 112 percent of the daily average Class I and Class II milk of such handler during the calendar quarter immediately preceding, all such daily market shares shall be adjusted by a percentage which will make their total equal to 115 percent of such daily average Class I and Class II milk.

(vi) Market shares allotted to producers pursuant to this paragraph shall not be transferable: *Provided*, That market shares allotted under a tenant and landlord relationship shall be combined and shall be divided in the manner provided in subdivision (x) of this subparagraph when, and only when, such relationship is terminated.

(vii) As soon as daily market shares are allotted to producers pursuant to this paragraph, the market administrator shall notify each handler of the daily market shares of producers from whom such handler receives milk.

(viii) Any producer who ceases to market milk to a handler for a period of more than 45 consecutive days shall forfeit his daily market share. In the event that he thereafter commences to market milk to a handler, he shall receive a market share computed in the manner provided in subparagraph (4) of this paragraph for the allotment of market shares to producers who are new producers, and shall be treated for the purposes of this section as if he were a new producer.

(ix) A producer, whether landlord or tenant of a farm, may retain his daily market share when moving his entire herd of cows from one farm to another farm.

(x) A landlord who rents on a crop-share basis shall be entitled to the entire daily market share to the exclusion of the tenant, if the landlord owns the entire herd. Likewise, the tenant who rents on a crop-share basis shall be entitled to the entire dairy market share to the exclusion of the landlord, if the tenant owns the entire herd. If the cattle are jointly owned by tenant and landlord, the daily market share shall be divided between the joint owners according to the ownership of the cattle, if and when such joint owners terminate the tenant and landlord relationship.

(xi) In the case of a producer who distributes the milk he produces and who disposes of all or a part of his delivery routes to a handler, the market administrator shall determine a daily market share equal to the daily average Class I and Class II milk produced and disposed of during the previous 3 months on the delivery routes of such producer, which such producer and such handler jointly report as involved in the transaction, subject to verification by the market administrator. Any daily market share so determined shall be effective from its determination until the end of the then current calendar year, subject to the adjustment provided by subparagraph (3) of this paragraph, and thereafter shall be superseded by a daily market share determined pursuant to subparagraph (1) or (2) of this paragraph.

(g) *Additional payments.* Any handler may make payments for milk in addition to the payments to be made pursuant to paragraphs (b) (1) and (c) (1), (2), and (3) of this section: *Provided*, That such additional payments shall be made on a uniform basis to all producers for milk of like grade and quality received by such handler.

(h) *Errors in payments.* Whenever verification by the market administrator of the payment by a handler to any producer or new producer discloses a payment to such producer or new producer that is less than that required by this section, the handler shall make up such payment to the producer or new producer not later than the time of making payment to producers and new producers next following such disclosure.*

§ 930.8 *Expense of administration*—(a) *Payment of handlers.* As his prorata share of the expense of administration hereof, each handler, with respect to all milk received from producers, an association of producers, new producers, or produced by him during the delivery period, shall pay to the market administrator on or before the 10th day after the end of the delivery period an amount per hundredweight not to exceed 2 cents, the exact amount to be determined by the market administrator, subject to review by the Secretary.*

§ 930.9 *Marketing services*—(a) *Deduction for marketing services.* Except as set forth in paragraph (b) of this section, each handler shall deduct an amount not exceeding 4 cents per hundredweight (the exact amount to be determined by the market administrator, subject to review by the Secretary) from the payments made direct to producers and new producers pursuant to § 930.7, with respect to all milk received by such handler during the delivery period from producers and new producers, and shall pay such deductions to the market administrator on or before the 10th day after the end of such delivery period. Such moneys shall be used by the market administrator to verify weights, samples, and tests of milk of said producers and new producers and to provide them with market information; such services to be performed in whole or in part by the market administrator, or by an agent engaged by and responsible to him.
